Meaning of Terms.

1. In this Order:—

The Controlled Area means the Area described in the Schedule hereto in which the movement of animals is hereby controlled. If any farm (*excluding any detached part*) is partly within and partly outside the Controlled Area, the whole shall be deemed to be within that Area.

"Animals" means cattle, sheep, goats and pigs.

"Slaughterhouse" means premises used habitually and solely for the purpose of slaughtering animals, but does not include a slaughterhouse which forms part of a farm.

Restrictions in force in the Controlled Area.

2.—(a) No animal shall be moved out of the Controlled Area, except as provided in Article 3 of this Order.

(b) No animal shall be moved without a licence under Article 3 of this Order—

(c) No animals shall be permitted by the owner or person in charge thereof to stray upon any road or other highway in the Controlled Area.

(d) No market, sale or exhibition of animals shall be held in the Controlled Area, except a market or sale of fat animals intended for immediate slaughter, or a sale of animals on farm premises. A licence must be obtained from the Local Authority to hold any such market or sale, and a Veterinary Inspector of the Local Authority shall attend and examine the animals exposed thereat. No licence shall be granted for the holding of any such market or sale on any premises within a radius of five miles from any place infected with Foot-and-Mouth Disease.

(e) No slaughterhouse manure or refuse shall be moved out of the Controlled Area or be brought into contact with animals in such Area.

(f) The landing of animals at the approved Landing Place at the Port of Dundee is hereby prohibited, except for animals intended for slaughter. Such animals shall be moved from the Landing Place only to a slaughterhouse in the Controlled Area, or in one of the Controlled Areas specified in Article 3 (f) of this Order.

(e) From one farm to another in the Controlled Area or between different parts of the same farm in such Area, if the Inspector considers the movement to be necessary or expedient. (These licences may be made available for movement as often as required if the Inspector endorses the licence "Occupation Licence.")

(f) From a licensed fat stock market or sale in the Controlled Area or from a farm in that area to any public slaughterhouse in the Controlled Areas to which the Renfrewshire and District (Foot-and-Mouth Disease) Order of 1923 (No. 6) and the Fife and Perthshire District (Foot-and-Mouth Disease) Order of 1923 (No. 6) for the time

being apply. In the case of such movement the licence shall be granted by an Inspector of the Local Authority of the district in which the slaughterhouse is situated, and shall not be available unless and until it is countersigned by an Inspector of the Local Authority of the district in which the movement commences.

Provided that no licence shall be granted under this Article for (i) the movement of any animal on a road within a radius of two miles from any place infected with Foot-and-Mouth Disease, or (ii) the movement of animals from any premises to any farm for the purpose of sale at a licensed farm sale.

Conditions of Licence.

4.—(a) Licences may be granted only by an Inspector of the Local Authority in whose district the movement commences, except where otherwise expressly stated and also except in the case of movement from premises outside the Controlled Area to a destination in such Area, in which case the licence shall be granted by an Inspector of the Local Authority of the district in which the place of destination is situate.

Closing of Footpaths and Premises.

8.—(1) An Inspector of the Ministry or of the Local Authority may (notwithstanding the existence of any footpath or right of way) prohibit the entry of any person into any field, shed or other place in the Controlled Area by giving notice in writing to that effect to the occupier. In such cases the owner of the animals in such places, or his agents, or servants, may enter for the sole purpose of feeding or tending the animals, but no other persons shall enter any such place until such notice has been withdrawn by a further notice from an Inspector, unless he has obtained a licence to do so from an Inspector of the Ministry or of the Local Authority.

(2) Copies of such notices shall be affixed or exhibited by the Inspector in such manner as he may think desirable for ensuring notification of the restrictions thereby imposed.

(3) Copies of such notices, when served, shall be sent to the Ministry.

Control of Dogs and Poultry.

9.—(1) An Inspector of the Ministry or of the Local Authority may, by a written notice served upon the occupier of any premises in the Controlled Area on which dogs or poultry are kept, require such occupier to keep such dogs or poultry under such control as may be prescribed in the notice, or to confine them to any specified part of the premises.

(2) Copies of such notices, when served, shall be sent to the Ministry.

ADMIRALTY NOTICE TO MARINERS.

No. 1 of the year 1924.

CAUTION WHEN APPROACHING BRITISH PORTS.

PART I. CLOSING OF PORTS.

Former Notice.—No. 1 of 1923; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II., of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three red vertical lights by night, or three red vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II., of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of

examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound-rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two red and two white, are kept available for use.

(7) By day the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red vertical balls if the port is closed.

Usually the Examination Steamers will fly the blue ensign, but in certain circumstances they may fly the white ensign.

By night the steamer will carry:—

(a) Three red vertical lights if the port is closed.

(b) Three white vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal: "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer:—

To lower any boat.

To communicate with the shore or with other ships.

To move the ship.

To work cables.

To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

MINE-SWEEPING OPERATIONS.

H.M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(a) By vessels working singly :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen on that side on which it is dangerous to pass. (If a ball is shown at each yard-arm it is dangerous to pass either side.)

Vessels showing this signal should not be approached nearer than 900 yards (822m9)

(b) By vessels working in pairs or groups :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365m8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365m8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in a similar manner to and in place of the black balls.

Note.

This Notice is a repetition of Notice No. 1 of 1923.

Authority.—The Lords Commissioners of the Admiralty.

of the Navy.*

21. GERMAN ZONE.

That part of the North Sea to the eastward of long. $4^{\circ}00'$ E. and between lat. $53^{\circ}00'$ N. and lat. $56^{\circ}30'$ N.

The foregoing caution has been rendered necessary owing to danger of sunken mines on the bottom. Attention is drawn to the cautionary note on the charts on this subject.

II. GENERAL INFORMATION REGARDING MINES.

1. Mariners are warned that a certain number of mines have sunk without exploding. It is possible that some of these mines lying on the bottom may still be dangerous. Surface vessels navigating these areas should therefore, whenever possible, have a clear depth of at least six feet (1^m8) between their keels and the bottom when in the vicinity of shoal water or in the approaches to ports and harbours which were subjected to mining operations during the war.

2. In removing prohibition upon vessels trawling, it is pointed out that a risk, although of a diminishing character, still exists.

The attention of all vessels trawling is drawn to the immunity which may be secured by the use of a suitable protective device to prevent mines entering the trawl.

As can be readily understood, it is not possible to predict for how long a period sunken unexploded mines remain dangerous, and consequently no unnecessary risk should be taken.

3. Mariners are notified that a small percentage of drifting mines are known to exist in a waterlogged condition, a fraction of which may be dangerous. This type of mine is hard to see, and special precautions are therefore necessary to ensure that a good lookout is kept. The striking of low floating flotsam should be avoided.

4. A serious accident has occurred to a vessel at anchor from the explosion of a drifting mine which came into contact with an obstruction on the hull.

When vessels have to anchor in areas where drifting mines may be found it is necessary that all obstructions should as far as possible be removed and gangways triced up before dark in order to minimise risk.

5. In regard to the great importance of the destruction of mines with a view to prevention of loss of life and shipping, attention of Masters is called to the necessity for strict compliance with the provisions of Chapter II., "Admiralty Instructions for British Merchant Ships," June 1919, and especially Section xiii., which includes the following:—

"Whenever practicable, vessels should attempt to sink or destroy mines by gun or rifle fire, but no mine is to be sunk in any fairway where the depth of water at low water spring tides is less than 7 fathoms (12^m8), except when a mine is drifting towards a vessel at anchor, and no vessel is to approach within 200 yards (182^m9) of a mine whilst attempting to sink or destroy it.

"The attention of Masters is drawn to the great desirability of taking every opportunity of sinking drifting mines, as their co-operation will help to free the seas of them within a reasonable period."

The Admiralty award for sinking or destroying a mine is only applicable to the territorial waters of the United Kingdom and Irish Free State.

Before hoisting the mine flag or reporting a mine which has been left afloat, every care should be taken to confirm that the object actually is a mine, in order to prevent unnecessary confusion; the mine flag is a square flag white over blue diagonal.

ADMIRALTY NOTICE TO MARINERS.

No. 7 of the year 1924.

CAUTION WITH REGARD TO SINGLE SHIPS APPROACHING SQUADRONS.

Former Notice.—No. 4 of 1923.

The attention of shipowners and masters is called to the danger to all concerned which is caused by single vessels approaching a squadron of Warships so closely as to involve risk of collision, or attempting to pass ahead

of, or through, or to break the line of such squadron. It is necessary to warn mariners that on such occasions it would be in the interests of safety for single vessels to adopt timely measures to keep out of the way of and avoid passing through a squadron. In circumstances where a single vessel has been unable to take timely measures to keep out of the way of a squadron the "Regulations for preventing Collisions at Sea" must be the guide.
