*Electricity Commission,*

*Savoy Court,*

*Strand, W.C. 2,*

*6th August, 1925.*

For the purposes of the Electricity (Supply) Acts, 1882 to 1922, and all Orders and Licences made or granted and issued thereunder, and any Local Act relating to the supply of electricity, the Electricity Commissioners approve of the construction and pattern of the meter (hereinafter described) for the measurement of electrical energy when supplied on the constant pressure two-wire direct current system, and known as the Ferranti Type "F.H." Direct Current Mercury Motor Ampere-hour Meter, rated sizes from 20 amperes to 100 amperes inclusive, fitted with top terminals.

Provided that the meter be constructed as described in the specification and drawings deposited at the National Physical Laboratory, Teddington, Middlesex, dated and numbered 15th December, 1923, and No. 97, and be in accordance with one of the pattern meters Nos. 1825209 and 1337318, deposited at the National Physical Laboratory on the 15th December, 1923, by or on behalf of Ferranti Limited, Hollinwood, Lancashire, and sealed by the National Physical Laboratory at the instance of the Electricity Commissioners.

The Electricity Commissioners further approve of the means provided for fixing meters of this description, and for connecting them with the service lines as described in the specification and drawings above referred to.

Signed by order of the Electricity Commissioners this 6th day of August, 1925.

(Sgd.) *R. T. G. French,*

*Secretary to the  
Electricity Commissioners.*
