COUNTY OF KENT.

Whereas by sub-section (4) of Section 7 of the Roads Act, 1920, it is enacted that the Minister of Transport may, by order on the application of any county council (as defined in Section 17 of the Act) after holding a pub-

lic inquiry, prohibit or restrict, subject to such exceptions or conditions as to occasional user or otherwise as may be specified in the Order, the driving of mechanically-propelled vehicles of any specified class on any specified highway within the area of the council in any case in which it appears to him, as the result of the inquiry, to be proved that a vehicle of that class cannot be used on that highway without endangering the safety of the vehicle or the persons therein or of other traffic using the highway, or that the highway is unsuitable for use by a vehicle of that class;

And whereas the County Council of Kent have made application to the Minister of Transport for an Order to be made in pursuance of the said sub-section prohibiting or restricting:—

(1) Subject to such exceptions or conditions as to occasional user or otherwise as may be specified in the Order, the driving of heavy motor cars and locomotives on the roads specified in the First Schedule hereto; and

(2) The driving of any mechanically-propelled vehicle in a westerly direction on the road specified in the Second Schedule hereto, and in a northerly direction on the road specified in the Third Schedule hereto:

Provided that nothing in the Order shall prevent the driving upon the roads specified in the First Schedule hereto of:—

Any vehicle which is being used for the purposes of agriculture in connection with land adjoining or lying near to the said roads or for the conveyance or haulage of timber felled upon such land;

Any vehicle which is being used for the conveyance of goods or merchandise to or from any house, building or other premises situate on or adjacent to the said roads; or

Any vehicle which is being used in connection with the maintenance, improvement or reconstruction of the said roads or the laying, alteration or repair in or near to the said roads of any sewer or of any main, pipe or apparatus for the supply of gas, water or electricity.

Notice is hereby given that W. S. Richmond, Esquire, C.M.G., A.M.Inst.C.E., one of the Inspectors of the Ministry of Transport, will attend at the Sessions House, Maidstone, on Monday, the eleventh day of February, 1929, at half-past eleven o'clock in the forenoon, to hold a Local Inquiry into the subject-matter of the said application;

And notice is hereby further given that any persons interested may attend such Inquiry, and be heard with reference to the said application: Provided that no person shall be entitled to be heard at the Inquiry unless he has on or before the twenty-fifth day of January, 1929, sent a notice in writing to the Minister of his desire to be heard at the Inquiry.

W. S. JARRATT,

Comptroller.

The last Admiralty Notice to Mariners issued during 1928 was No. 2025.

ADMIRALTY NOTICE TO MARINERS.

No. 1 of the year 1929.

CAUTION WHEN APPROACHING
BRITISH PORTS.

PART I.

CLOSING OF PORTS.

Former Notice.—No. 1 of 1928; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the British Isles, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II., of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three red lights vertically disposed by night, or three red balls vertically disposed by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II., of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any port in the British Empire, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) By day the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red balls vertically disposed if entrance is prohibited.

Usually the Examination Steamers will fly the Blue Ensign, but in certain circumstances they may fly the White Ensign.

By night the steamer will carry:—

(a) Three *red* lights vertically disposed if entrance is prohibited.

(b) Three *white* lights vertically disposed if entrance is permitted.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal: "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer:—

To lower any boat.

To communicate with the shore or with other ships.

To move the ship.

To work cables.

To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

MINE-SWEEPING OPERATIONS.

H.M. vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manoeuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. SIGNALS SHOWN BY DAY.

(a) By vessels working singly:

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen on that side on which it is dangerous to pass. (If a ball is shown at each yard-arm it is dangerous to pass either side.)

Vessels showing this signal should not be approached nearer than 900 yards.

(b) By vessels working in pairs or groups:

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. SIGNALS SHOWN BY NIGHT.

As for day, except that all round green lights will be used in a similar manner to and in place of the black balls.

Note.—This Notice is a re-publication of Notice No. 1 of 1928.

The foregoing caution has been rendered necessary owing to danger of sunken mines on the bottom. A cautionary note is shown on the charts.

NOTE.—The areas defined above, with the exception of a portion of No. 19 and the whole of No. 21, are shown shaded on the accompanying chartlet, which is intended to provide a ready means of reference.

II.—GENERAL INFORMATION REGARDING MINES.

1. Mariners are warned that a certain number of mines have sunk without exploding. It is possible that some of these mines lying on the bottom may still be dangerous. Surface vessels navigating these areas should therefore, whenever possible, have a clear depth of at least six feet (1^m8) between their keels and the bottom when in the vicinity of shoal water or in the approaches to ports and harbours which were subjected to mining operations during the war.

2. In regard to vessels trawling, it is pointed out that a risk, although of a diminishing character, still exists.

The attention of all vessels trawling is drawn to the immunity which may be secured by the use of a suitable protective device to prevent mines entering the trawl.

As can be readily understood, it is not possible to predict for how long a period sunken unexploded mines remain dangerous, and consequently no unnecessary risk should be taken.

3. Mariners are notified that a small percentage of drifting mines are known to exist in a waterlogged condition, a fraction of which may be dangerous. This type of mine is hard to see, and special precautions are therefore necessary to ensure that a good lookout is kept. The striking of low floating flotsam should be avoided.

4. A serious accident has occurred to a vessel at anchor from the explosion of a drifting mine which came into contact with an obstruction on the hull.

When vessels have to anchor in areas where drifting mines may be found it is necessary that all obstructions should as far as possible

be removed and gangways triced up before dark in order to minimise risk.

5. Whenever practicable, vessels should attempt to sink or destroy mines by gun or rifle fire, but no mine is to be sunk in any fairway where the depth of water at low water spring tides is less than 7 fathoms (12^m6). except when a mine is drifting towards a vessel at anchor, and no vessel is to approach within 200 yards of a mine whilst attempting to sink or destroy it.

The attention of Masters is drawn to the great desirability of taking every opportunity of sinking drifting mines.

The Admiralty award for sinking or destroying a mine is only applicable to the territorial waters of the United Kingdom and Irish Free State.

No award is payable in respect of sunken mines brought up in fishing trawls.

Before hoisting the mine flag or reporting a mine which has been left afloat, every care

should be taken to confirm that the object actually is a mine, in order to prevent unnecessary confusion; the mine flag is a square flag white over blue diagonal.

6. Dummy mines (British) are distinguishable by the words "Sand-filled" which are stamped on the circumference of the top and bottom annular rings of the mine shell, and also painted in large white letters round the top mouthpiece.

ADMIRALTY NOTICE TO MARINERS.

No. 7.

CAUTION WITH REGARD TO SINGLE SHIPS APPROACHING SQUADRONS.

Former Notice.—No. 7 of 1928.

1. The attention of shipowners and mariners is called to the danger to all concerned which is caused by single vessels approaching a squadron of Warships so closely as to involve risk of collision, or attempting to pass ahead of, or through such a squadron.

2. Mariners are warned that it would be in the interests of safety for single vessels to adopt early measures to avoid approaching a squadron so as to involve risk of collision and to keep out of its way.

3. In circumstances where a single vessel has not taken early measures to keep out of the way of a squadron, the "Regulations for preventing Collisions at Sea" must be the guide.

Note.—This Notice is a revision of the former Notice quoted above.
