PRESENT,

The KING's Most Excellent Majesty in Council.

WHEREAS the Ecclesiastical Commissioners for England, have, in pursuance of the Act of the 3rd and 4th years of Her late Majesty Queen Victoria, Chapter 113, of the Act of the 6th and 7th years of Her said late Majesty, Chapter 37, and of the Act of the 19th and 20th years of Her said late Majesty, Chapter 104, duly prepared, and laid before His Majesty in Council, a Scheme, bearing date the 16th day of October, 1930, in the words and figures following, that is to say:—

“We, the Ecclesiastical Commissioners for England, in pursuance of the Act of the 3rd and 4th years of Her late Majesty Queen Victoria, Chapter 113, of the Act of the 6th and 7th years of Her said late Majesty, Chapter 37, and of the Act of the 19th and 20th years of Her said late Majesty, Chapter 104, have prepared, and now humbly lay before Your Majesty in Council, the following Scheme for constituting a separate District or New Parish for spiritual purposes to be taken out of the Parish of Enfield, in the County of Middlesex and in the Diocese of London:

“Whereas we are satisfied that the said Parish of Enfield is a Parish wherein or in parts whereof the provision for public worship and for pastoral superintendence is insufficient for the spiritual wants of the inhabitants thereof, and it has been made to appear to us that it would promote the interests of religion that the particular part of the said Parish of Enfield which is hereinafter mentioned and described should be constituted a separate Dis-

trict or New Parish in the manner which is hereinafter set forth:

“And whereas there is within the limits of the said proposed separate District or New Parish a consecrated Church in use for the purposes of Divine Worship, and such Church is named ‘The Church of Saint Michael and All Angels, Enfield’:

“And whereas by a certain Indenture bearing date on or about the 16th day of October, 1930, and made or expressed to be made under the authority of the ‘New Parishes Acts, 1843, 1844 and 1856’ or some or one of them, between the Reverend Geoffrey William Daisley, Vicar or Incumbent of the Vicarage of the said Parish of Enfield of the first part, the Master, Fellows and Scholars of the College of the Holy and Undivided Trinity, within the Town and University of Cambridge, of King Henry the Eighth's Foundation, the Patron of the Vicarage of the said Parish of Enfield (hereinafter called ‘the said Patrons’) of the second part, the Right Honourable and Right Reverend Arthur Foley, Bishop of London, the Ordinary of the said Vicarage of Enfield, of the third part, and us, the said Ecclesiastical Commissioners, of the fourth part, the said Geoffrey William Daisley did, with the consent of the said Patrons and of the said Arthur Foley, Bishop of London, as such Ordinary as aforesaid, assign unto us, the said Ecclesiastical Commissioners, the sum of £3,333 6s. 8d. Local Loans £3 per centum Stock, standing in the books of the Governor and Company of the Bank of England in the name of us, the said Ecclesiastical Commissioners, as part of the endowments of the said Vicarage of Enfield, to have and to hold for or towards the endowment of the Minister or Incumbent of the District or New Parish hereinafter recommended to be constituted so soon as a Minister or Incumbent shall have been duly licensed in accordance with the provisions of the secondly herein mentioned Act and of his successors:

“And whereas we have agreed to make and pay out of the Common Fund created by the firstly herein mentioned Act a grant of £250 per annum to the Minister or Incumbent of the said proposed separate District or New Parish, so soon as a Minister or Incumbent shall have been duly licensed as hereinbefore mentioned and to his successors:

“And whereas the said grant of the said yearly sum of £250 will, after the publication in the London Gazette of an Order of Your Majesty in Council ratifying this Scheme, be made and secured by an Instrument to be executed by us, the said Ecclesiastical Commissioners, under our Common Seal, in accordance with the provisions of the Act of the 29th and 30th years of Her said late Majesty, Chapter 111:

“And whereas the said sum of £3,333 6s. 8d. Local Loans £3 per centum Stock has been so assigned as aforesaid upon the understanding and condition that (such arrangement appearing to us to be expedient) the whole right of Patronage of the said proposed District or New Parish and the nomination of the Minister or Incumbent thereof, should be assigned to the Vicar or Incumbent for the time being of the said Vicarage of the Parish of Enfield:

"Now, therefore, with the consent of the said Arthur Foley, Bishop of London (in testimony whereof he has signed and sealed this Scheme), we, the said Ecclesiastical Commissioners, humbly recommend and propose that all that part of the said Parish of Enfield which is described in the Schedule hereunder written, all which part together with the boundaries thereof is delineated and set forth on the map or plan hereunto annexed, shall, upon and from the day of the date of the publication in the London Gazette of any Order of Your Majesty in Council ratifying this Scheme as aforesaid become and be constituted a separate District or New Parish for spiritual purposes, and that the same shall be named 'The New Parish of Saint Michael and All Angels, Enfield'.

"And we further recommend and propose that the said Church of Saint Michael and All Angels, Enfield, shall as from the day last mentioned be, and for that purpose we hereby specify the same Church as, the Parish Church of the said New Parish of Saint Michael and All Angels, Enfield.

"And we further recommend and propose that the whole right of Patronage of the said proposed District or New Parish and the nomination of the Minister or Incumbent thereof shall, without any assurance in the law other than this Scheme and any duly gazetted Order of Your Majesty in Council ratifying the same and upon and from the day of the date of the publication of such Order in the London Gazette as aforesaid, be assigned to and be absolutely vested in and shall and may from time to time be exercised by the said Geoffrey William Daisley and by his successors Vicars or Incumbents of the said Vicarage of the Parish of Enfield, for ever.

"And we further recommend and propose that nothing herein contained shall prevent us from recommending and proposing any other measures relating to the matters aforesaid, or any of them, in accordance with the provisions of the said Acts, or of any of them, or of any other Act of Parliament.

*Civil Service Commission,**November 7, 1930.*

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of His Majesty's Treasury, viz. :—

REGULATIONS FOR THE APPOINTMENT BY COMPETITIVE SELECTION OF ASSISTANT CURATORS IN THE ROYAL BOTANIC GARDENS, KEW.

N.B.—These Regulations are liable to alteration from time to time.

1. Application for appointment shall be made in the first instance to the Secretary, Ministry of Agriculture and Fisheries, at such time and in such manner as may be fixed by the Ministry. When a vacancy occurs, the Ministry will cause notice to be given by an advertisement in the Press, which will include a statement of the last day fixed for the receipt of applications.

2. A candidate for the post of Assistant Curator must have attained the age of 24 and must not have attained the age of 35 on the last day fixed for the receipt of applications, provided that in reckoning age for this purpose a candidate who served in the Army, Navy or Air Force between the 4th August, 1914, and the 11th November, 1918, may deduct from his actual age any period of service between the 4th August, 1914, and the 31st December, 1919.

3. Every candidate must be a natural-born British subject, the child of a person who is or was at the time of death a British subject; provided that exception may be made:—

(a) In the case of candidates serving in a civil situation to which they were admitted with the certificate of the Civil Service Commissioners.

(b) In the case of natural-born British subjects who served in His Majesty's Armed Forces in the Great War between 4th August, 1914, and 11th November, 1918.

(c) In the case of natural-born British subjects who have satisfactorily completed a period of not less than five years' service on full pay in His Majesty's Regular Forces.

Provided also that if the Civil Service Commissioners are satisfied, in the case of any candidate who is a British subject but does not fulfil all the requirements of the rule as to nationality and descent, that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions that an exception may properly be made to that rule, they may accept such candidate as eligible provided that this discretion shall not be exercisable unless (a) the father or the paternal grandfather of the candidate was a natural-born British subject, and (b) neither the father nor the paternal grandfather had acquired any other nationality by naturalisation or by any other voluntary and formal act.

4. Until further notice preference will be given to candidates who served in His Majesty's Forces during the War between the 4th August, 1914, and the 11th November, 1918.

5. Persons holding situations in the Civil Service must obtain the permission of the authorities of their Department to apply for appointment.

No person actually serving in the Army, Navy or Air Force will be eligible for consideration unless he produces, when called upon to do so, the permission of his Commanding Officer to apply for appointment, dated before his appearance before the Selection Board, and given in accordance with such orders as may from time to time be issued.

Persons upon whose training for the occupation of teacher public money has been spent cannot be appointed until the consent of the appropriate education authority has been notified to the Civil Service Commissioners.

6. Assistant Curators are in charge of the following sections of the Royal Botanic Gardens, Kew;—

(i) Arboretum.

(ii) Herbaceous and Alpine Department.

(iii) Tropical Department.

(iv) Temperate House.

(v) Decorative Department.

The advertisement announcing the vacancy will state the section of which an Assistant Curator is required to take charge. Candidates must satisfy the Ministry as to their practical training in horticulture. Preference will be given to candidates who have been trained in Botanic Gardens or kindred institutions, and who have had experience in the supervision of staff. Where special qualifications are required particulars will be given in the advertisement.

7. The completed application forms will be scrutinised by the Ministry and selected candidates will be interviewed by a Board consisting of representatives of the Ministry and of the Civil Service Commissioners. The Board will recommend to the Ministry for appointment to the vacancies existing those candidates who appear to them to possess the highest qualifications, provided they find so many suitable.

Any attempt on the part of candidates to enlist support for their applications through Members of Parliament or other influential persons will disqualify them for appointment. The Selection Board will disregard spontaneous recommendations from persons who are not personally acquainted with the candidate's previous work.

8. The appointment of selected candidates will be subject to their satisfying the Civil Service Commissioners of their eligibility in respect of age, nationality, health and character, and will not be confirmed unless and until they have passed the prescribed period of probation to the satisfaction of the Ministry of Agriculture and Fisheries. Female candidates must be unmarried or widows, and will be required to resign their appointments on marriage.

1930.

The Minister of Agriculture and Fisheries, by virtue and in exercise of the powers vested in him under the Diseases of Animals Acts,

1894 to 1927, and of every other power enabling him in this behalf, hereby orders as follows:—

PART I.—ANIMALS NOT INTENDED TO BE LANDED AT AN IMPORTED ANIMALS WHARF OR AT AN IMPORTED ANIMALS QUARANTINE STATION.

Prohibition of bringing animals from a Prohibited Country into a Port in Great Britain.

1. It shall not be lawful to bring into a port in Great Britain any animal which has been on board a vessel whilst in a port in a prohibited country, whether taken on board the vessel in a prohibited country or not; Provided that this Article shall not apply to:—

(a) any vessel bound to a port outside Great Britain which comes into a port in Great Britain under stress of weather or for urgent repairs; or

(b) an animal carried on a vessel from a port in Cape Verde Islands, Madeira, the Azores or the Canary Islands, if the animal was taken on board originally in Great Britain or in any non-prohibited country, and the vessel has not since the animal was taken on board entered a port in any other prohibited country.

Conditions applicable to Vessels while in a port in Great Britain with animals on board which have been brought from, or have entered, a port in a prohibited country.

2. In the case of any animal brought into a port in Great Britain—

(a) from a port in a prohibited country, or

(b) from a port in a country which is not a prohibited country, or from a port in Great Britain, if the vessel since taking the animal on board at that port has entered a port in any prohibited country, except Cape Verde Islands, Madeira, the Azores, or the Canary Islands,

the following conditions shall apply while the vessel is in a port in Great Britain, without prejudice to any proceedings for a contravention of the provisions of the preceding Article, namely:—

(1) The animal shall not be removed from the vessel in which it was brought to Great Britain.

(2) The fittings, pens, hurdles, utensils, fodder, litter and other things used for or about any such animal and all dung shall not be landed in Great Britain.

(3) An Inspector of the Ministry or of the Local Authority shall be permitted to examine the animal at such time or times as he may require.

(4) No person, except Inspectors of the Ministry or of the Local Authority, Officers of Customs and Excise, and persons actually engaged in tending the animal or cleansing or disinfecting the pens, shall enter any pen or other part of the vessel in which an animal is or has recently been kept, until the pen or other part of the vessel has been cleansed and disinfected in the manner prescribed by paragraph (6) of this Article.

(5) Every person upon leaving a pen or other part of the vessel in which an animal is or has recently been kept shall thoroughly wash his hands with soap and water and disinfect his boots with an approved disinfectant, and every person having been in any such pen or part of the vessel shall before landing from the vessel in Great Britain take such steps as may be necessary to disinfect his clothes.

(6) The vessel shall, while any such animal remains on board in any port in Great Britain, be cleansed and disinfected at intervals not exceeding twenty-four hours, in the manner hereinafter described:—

(i) All parts of the vessel with which any animal or its droppings or other excretions have come in contact shall be scraped and swept so as effectually to remove therefrom all dung, litter, and other matter; then thoroughly washed or scrubbed or scoured with water; and then disinfected by being thoroughly coated or washed with an approved disinfectant.

(ii) All fittings, pens, hurdles, or utensils used for or about any animal shall be scraped; then thoroughly washed or scrubbed or scoured with water; and then disinfected by being thoroughly coated or washed with an approved disinfectant.

(iii) All head-ropes or halters used for securing the animals on the vessel shall be disinfected by a thorough immersion in an approved disinfectant.

(iv) All dung of the animals, and all litter, scrapings and sweepings removed from the pens or other parts of the vessel, shall be thoroughly mixed with quicklime and thereafter without delay be destroyed by fire on board the vessel, or disposed of without landing as an Inspector of the Local Authority may direct, in such a manner as effectually to prevent their contact with animals.

(v) While any part of the vessel is being cleansed or disinfected, the animals therein shall be temporarily removed to another part of the vessel.

(vi) When no animal remains on board, the said parts of the vessel, and all fittings, pens, hurdles, utensils and head-ropes or halters shall forthwith be finally cleansed and disinfected in the manner above described.

Prohibition of Landing of Animals from Certain Countries.

3. It shall not be lawful to land in Great Britain

(a) any animal brought from a port in a prohibited country; or

Prohibition of Landing of Carcasses, etc.

4.—(1) It shall not be lawful to land in Great Britain:—

(b) the dung of any such animal; or

(c) any partly consumed or broken fodder that has been supplied to any such animal; or

(d) any litter that has been used for or about any such animal; or

(e) any fittings, pens, hurdles, utensils or other things used for or about any such animal.

(2) The Principal Officer of Customs and Excise may seize and detain any carcase, dung, fodder, litter, fittings, pens, hurdles, or utensils landed in contravention of this Article, and in such cases he shall forthwith report the facts to the Commissioners of Customs and Excise, who may give such directions as they think fit for the destruction or disposal thereof.

Transshipment.

5. Imported animals shall not be transhipped in a port in Great Britain:—Provided that this Article shall not apply to the transshipment of imported animals intended to be landed at an Imported Animals Wharf provision for which is contained in Article 6 of this Order.

PART II.—ANIMALS INTENDED TO BE LANDED AT AN IMPORTED ANIMALS WHARF FOR SLAUGHTER THEREIN.

Landing of Imported Animals not brought from a Prohibited Country and destined for an Imported Animals Wharf in Great Britain for slaughter therein.

6.—(1) The landing of imported animals brought from any country which is not a prohibited country, and the landing of which in Great Britain is not prohibited by this Order, is hereby made subject to the following conditions: provided that this Part of this Order shall not apply to animals intended to be landed at an Imported Animals Quarantine Station in accordance with the provisions of Part VI of this Order nor to animals imported under the provisions of the Importation of Animals Act, 1922 (Session 2) and the Importation of Canadian Cattle Order of 1923 relating to the importation of Canadian store cattle:—

First.—That, if at any time within twenty-eight days before the shipment of the animals the vessel in which the animals are brought to Great Britain has had on board any animal which had been exported or carried coastwise from any port in any prohibited country, or has entered or been within any such port, the vessel was before the shipment of the animals effectively cleansed and disinfected to the satisfaction of a duly authorised representative of the Government of the country from which the first-mentioned animals are shipped.

Second.—That since taking the animals on board for shipment to Great Britain the vessel has not at any time entered a port in any prohibited country, except Cape Verde Islands, Madeira, the Azores or the Canary Islands.

Third.—That the animals imported have not, while on board the vessel, been in contact with an animal exported or carried coastwise from a port in a prohibited country.

(2) The animals shall not be landed unless and until the master of the vessel in which they are imported has on the occasion of such

importation delivered to the Principal Officer of Customs and Excise at the port of landing, a declaration made and signed by him that all the animals then imported therein are properly imported according to the provisions of this Article. Such declaration shall include particulars as to number and description of animals shipped and the number, if any, which have died or were killed or injured during the voyage.

(3) The animals may be transhipped from the vessel in which they are imported to a landing-vessel provided by the port authority or wharf authority, if the use of the vessel for such purpose has previously been sanctioned by the Commissioners of Customs and Excise, either generally or in the particular instance, in which case the following provisions shall apply:—

(i) The animals shall be transhipped in the presence and under the supervision and control of an Officer of Customs and Excise, and an Officer of Customs and Excise shall remain in charge of the animals on board the landing-vessel until its arrival at the Imported Animals Wharf.

(ii) The landing-vessel shall proceed direct to the Imported Animals Wharf, and the animals shall be landed there in the presence and under the supervision and control of an Officer of Customs and Excise.

(iii) The landing-vessel shall not be used for any other purpose during the time of its being so appropriated.

(iv) All parts of the landing-vessel with which the animals or their droppings or other excretions have come in contact and any hurdles or fittings thereon shall immediately after each occasion of use, and before being again used, be scraped and swept so as effectually to remove therefrom all dung, sawdust, litter and other matter; and then be thoroughly washed or scrubbed or scoured with water; and then disinfected by being thoroughly coated or washed with an approved disinfectant.

ORDER OF THE MINISTER OF AGRICULTURE AND FISHERIES.

(DATED 4TH NOVEMBER, 1930.)

ANIMALS (SEA-TRANSPORT) ORDER OF 1930.

The Minister of Agriculture and Fisheries, by virtue and in exercise of the powers vested in him under the Diseases of Animals Acts, 1894 to 1927, and of every other power enabling him in this behalf, hereby orders as follows:—

Protection of Animals.

Application of Order as regards Vessels and Animals carried thereon.

1. The provisions of this Order relating to vessels and animals carried thereon shall apply to any vessel on which animals are carried to or from a port in Great Britain; provided that:—

(1) such provisions shall not apply to vessels and animals carried thereon which are subject to the provisions of the Transit of Animals Order of 1927 and any Order amending that Order, namely, vessels on which animals are carried—

(a) from a port in Great Britain to any other port in Great Britain; or

(b) from a port in Great Britain to a port in Ireland, the Channel Islands or the Isle of Man; or

(c) to a port in Great Britain from a port in Ireland, the Channel Islands or the Isle of Man;

but where any vessel which has loaded animals at a port in Great Britain for shipment to any place outside Great Britain, Ireland, the Channel Islands or the Isle of Man, subsequently calls at a port in the British Isles before proceeding abroad, the vessel and the animals carried thereon shall be subject to the provisions of this Order and shall not be subject to the provisions of the Transit of Animals Order of 1927.

(2) The provisions of sub-paragraphs (i) (b), (ii), (vii) (a), (xv) (c), (xviii) (a) and (b), (xix) (b), (xx) (b), (xxii), and (xxvi) of Article 2 of this Order shall not apply to any vessel on which animals are carried from a port in Great Britain.

(3) The provisions of sub-paragraphs (ii), (vii) (a), (xviii) (b), and (xxii) of Article 2 of this Order shall not apply to any vessel carrying animals to a port in Great Britain on a voyage which involves passage through the Tropics.

Provisions for Protection of Animals carried by Sea.

Parts of Vessels to be used.

2.—(i) (a) Animals shall not be carried on more than three decks.

(b) Animals shall not be carried on the open main (freeboard) decks.

(ii) Animals shall not be carried on any deck unless it is completely closed in at the

sides and covered with a permanent deck above, except that between each first day of April and the next following thirtieth day of September inclusive, animals may be carried on an open superstructure deck provided that the fittings are in accordance with the specifications prescribed in the Second Schedule to this Order.

(iii) Animals shall not be carried in tiers one above the other on any deck and shall not be carried on top of any erection on a deck.

(iv) Animals shall not be carried on any hatch above a compartment where other animals are carried, and shall in no other case be carried on hatches where the coamings exceed 18 inches in height above the deck, and where other means of access to the space below is not provided.

(v) Animals shall not be carried in any part of the vessel where they would interfere with the proper management or ventilation of the vessel, or with the efficient working of the boats, or the safety of the ship, and whilst on board a vessel, animals shall be properly protected from injury or unnecessary suffering and from exposure to the weather or seas.

Pens and Fittings in Vessels.

(vi) All animals shall be carried in pens unless they are confined in a suitable crate, box or other receptacle. A crate, box or other receptacle used for this purpose shall be so secured or fixed as to prevent its displacement by the sea or the motion of the vessel, and shall be so constructed and placed as to admit a proper supply of fresh air to all the animals carried and to ensure a measure of protection equivalent to that provided for animals carried in pens.

Crates, boxes or other receptacles containing animals shall not be carried in tiers.

(vii)—(a) The pens and fittings shall be constructed in accordance with the specifications prescribed in the First and Second Schedules to this Order.

(b) On vessels referred to in paragraphs (2) and (3) of Article 1 of this Order no pen shall exceed 11 feet in length (fore and aft) and 9 feet in breadth, and each pen shall be constructed in such a manner and with materials of such character and strength as to be able to withstand the action of the weather and to resist the weight of the animals thrown against them. Where animals are carried on an open superstructure deck, the fittings shall comply as far as possible with the provisions of the Second Schedule to this Order.

(viii) Any part of the ship's structure or fittings liable to cause injury or unnecessary suffering to animals shall be properly and securely fenced off, and all pens shall be entirely free from obstructions.

(ix) The floor of each pen shall, in order to prevent animals from slipping, be fitted with suitable battens or other proper footholds securely fastened to the deck by suitable means, and shall be strewn with a proper quantity of sand, saw-dust or other suitable material.

Space for Animals.

(x) Sufficient space shall be provided in every pen to enable the animals therein properly to feed and rest during the voyage. The minimum space per head shall be 2 feet 6 inches in width for fat cattle and 2 feet in

width for store cattle under 1000 lbs. weight. Where, however, one beast is carried by itself, the minimum space shall be 3 feet.

These measurements shall be in a fore and aft direction.

Overcrowding.

(xi) The vessel shall not be overcrowded in any part so as to cause injury or unnecessary suffering to the animals therein.

Passageways.

(xii) There shall be a continuous fore and aft passageway of a minimum width of 3 feet, between every two rows of animals and in front of every single row of animals, except that at the ends of passageways in bow and stern of ship, and where obstructions less than 3 feet in length occur the width may be reduced to a minimum of 18 inches. There shall also be an athwartship passageway of a minimum width of 18 inches, communicating with the fore and aft passageways in each compartment. For this purpose the hatch may be used as the athwartship passageway. All passageways shall be kept free from obstructions other than as provided above.

Ventilation.

(xiii) Separate ventilation shall be provided for each compartment on each deck, and, in addition to any ventilation obtained by means of the hatchways, there shall be for each enclosed compartment, mechanical means of ventilation, by electric fans or otherwise, of sufficient capacity entirely to change the air once every three minutes. In the case of enclosed compartments on the main deck or above, natural ventilation may be accepted, if circumstances warrant it, subject to the approval of the Ministry.

Light.

(xiv) All parts of the vessel over which the animals pass or in which they are penned shall be properly and sufficiently lighted, and provision shall be made at all times for adequate light for the proper tending of the animals. This shall be provided by means of lights placed not more than twenty feet apart, each light being of not less than 40 watts. Where a light is masked by beams or other obstructions, extra lights shall be fitted.

Food and Water.

(xv)—(a) A sufficient quantity of suitable food and water shall be provided to feed and water adequately all the animals carried taking into consideration the possibility of unforeseen delay on the voyage owing to weather or other causes. Proper weather-tight accommodation shall be provided on board for the storage of food.

(b) Animals carried on a vessel for a voyage which on an average takes more than eighteen hours shall be provided while on board with a sufficient amount of suitable food and water.

(c) Suitable troughs shall be provided on the floor of each pen, not less than 8 inches in height. Troughs for sheep and pigs must be kept watertight.

Securing of Cattle.

(xvi) All cattle, whether polled or not, shall be securely tied by the head or neck in such manner as not to cause unnecessary suffering,

and so as to stand athwartships facing the passageways.

Separation of Mixed Consignments.

(xvii) The following classes of animals shall be carried in separate pens according to their classes, namely, cattle, calves, sheep, goats and swine; and no two classes shall be carried in the same pen; but this provision shall not apply to the conveyance of a cow with its unweaned calf, if they are separated from other animals.

Approaches, Gangways and Other Apparatus.

(xviii)—(a) Approaches, gangways, passageways, cages and other apparatus, and also any parts of a vessel used for the loading, discharging or movement of animals, shall be fitted with suitable foot battens and shall be so constructed that injury or unnecessary suffering shall not be caused to the animals.

(b) Gangway doors not less than 5 feet 6 inches in height and 3 feet 9 inches in width, shall be fitted in the ship's side above the main (freeboard) deck so placed as far as practicable that the animals can be driven direct across the deck clear of hatchways or other obstructions.

(c) Where necessary, companions shall be provided to enable attendants to gain access to spaces occupied by animals below, apart from the main hatchways, in the event of the latter being battened down.

Attendants.

(xix)—(a) In addition to the crew necessary for working the ship, a sufficient number of qualified attendants shall be carried to tend the animals properly.

(b) Every consignment shall be under the charge of a responsible foreman, who shall have under him competent assistants, numbering, with himself, three attendants for every hundred head of cattle. Proper and suitable accommodation for all these persons shall be provided.

Drainage.

(xx)—(a) Suitable provision shall be made for draining the urine and surface water from all parts of the vessel used for the carriage of animals.

Sufficient scuppers shall be provided on the main (freeboard) deck and above adequately to drain overboard the urine and surface water.

(b) Provision shall be made by means of tanks, bilges, wells or other means to drain off the urine and the water used for washing down the decks in all compartments below the main (freeboard) deck.

Fire and Wash Deck Appliances.

(xxi) An adequate water service shall be provided for extinguishing fire and for washing down all spaces occupied by animals.

Plans to be submitted in certain cases.

(xxii) In the case of any vessel fitted or refitted for the carriage of animals after the date of this Order, the owners of the vessel shall cause the Ministry to be furnished with plans showing the general arrangement of the fittings, and details of pens, lighting, ventilation, drainage and fire and water services.

Handling of Animals during Embarkation and Debarcation.

(xxiii) In the handling of any animal at a port in Great Britain in the course of embarkation or debarcation a goad of a pattern approved by an Inspector of the Ministry shall alone be used, and the animal shall not be beaten with sticks.

Approved Killing Instruments.

(xxiv) Every vessel on which an animal is carried shall carry a proper killing instrument, approved by the Minister. Such instrument shall be capable of discharging a bullet or captive bolt, and it shall be the duty of the owner and the master of every such vessel to see that the instrument is on board, together with sufficient ammunition. The instrument and ammunition shall be produced to an Inspector, when so required by him.

Injured Animals.

(xxv) If any animal on board a vessel has a limb broken or is otherwise seriously injured, the master of the vessel shall forthwith cause that animal to be slaughtered by means of an approved killing instrument, unless he is satisfied that it can be kept alive and led away without cruelty. The person in charge of the animal shall forthwith report the injury to the master of the vessel.

Animals Dying on Voyage.

(xxvi) If an animal taken on board for the purpose of landing in Great Britain has died or been slaughtered during the voyage, the master of the vessel shall, immediately on arrival of the vessel at the place of discharge in Great Britain report the fact to the proper officer of Customs and Excise at the port. The carcase shall not be landed or discharged from the vessel without the permission in writing of the Officer.

Returns as to Casualties.

(xxvii) The owner or charterer of a vessel on which animals are carried shall keep a record of all animals which have died or have been killed or seriously injured, while on such vessel, and shall at the end of every voyage make a return to the Ministry showing the total number of each class of animals shipped on the voyage, and whether any, and if so, how many animals died or were killed or injured on the voyage, and the cause of such death, slaughter or injury.

Carriage by Sea of Unfit Animals.

(xxviii) (a) No animal shall be permitted by the owner thereof or his agent, or any person in charge thereof, to be embarked on a vessel for carriage thereon from any port in Great Britain, if, owing to infirmity, illness, injury, fatigue, or any other cause, it cannot be carried without unnecessary suffering during the intended passage.

(b) No pregnant animal shall be permitted by the owner thereof, or his agent or any person in charge thereof, to be embarked on a vessel for carriage thereon from any port in Great Britain, if it is reasonably probable that the animal will normally give birth during the voyage.

Power of the Minister to Exempt Vessels.

(xxix) If it appears to the Minister on the application of the owner of any vessel that it is

not practicable or reasonable to require full compliance with any of the provisions of this Order or of the relative Schedules, the Minister may by an exemption, granted subject to such conditions as may be specified therein, exempt any vessel or part of a vessel from any such provision.

Duties of Local Authority and Police.

3. The Local Authority and all constables and police officers shall assist the Inspectors of the Ministry to carry into effect and enforce this Order, and shall do or cause to be done all things necessary for the effectual execution of the same.

Offences.

4. If anything is done or omitted to be done in contravention of any of the provisions of this Order, the owner and the charterer and the master of the vessel—and the owner and the lessee and the occupier of the place where the animals are put on board or landed from vessels—and also, in the case of the overcrowding of a vessel in any part, the consignor of the animals (as the case may be), shall, each according to and in respect of his own acts or omissions, be deemed guilty of an offence against the Act of 1894.

Interpretation.

5. In this Order, unless the context otherwise requires:—

SECTION A. CATTLE FITTINGS.

1. *Dimensions of Pens.*—The pens shall be of the following dimensions in the clear:—

	<i>Length</i> (fore and aft).	<i>Breadth.</i>	<i>Height</i> (deck to deck).
Maximum ...	11 ft.	9 ft.	—
Minimum ...	3 ft.	8 ft.	7 ft. 6 in.

Top of Breast Boards and Horizontal Division Boards to be 3 feet 10 inches from deck.

Vertical division boards to extend from Deck to Deck.

2. *Construction of Pens.*—Pens are to be four-sided enclosures composed of stanchions, division boards, rear boards and front boards, with a stanchion at each corner, except that the ship's side may be used as the rear of the pen, if vertical and protected as required by paragraph 8 of this Schedule instead of the rear stanchions and rear boards.

3. *Stanchions.*—Wherever practicable, the permanent stanchions of the vessel are to be used as stanchions for pens, channels or receivers being fitted to them to carry the pen boards.

Otherwise the stanchions shall be (i), of solid wrought iron or steel not less than $2\frac{1}{4}$ inches in diameter, or (2) of tubular steel not less than 3 inches in diameter and $\frac{1}{2}$ inch thick, or (3) of pitch pine 6 inches \times 4 inches.

All stanchions are to be secured at the head by bolts of sufficient strength to the beams or to brackets secured to the deck above, and at the heel shall fit into sockets let in flush with the surface of the deck or cement, the inner depth of the sockets being not less than $1\frac{1}{2}$ inches.

Where wood stanchions are used, and cants secured to the deck below and to the beams above are fitted, the heads and heels of such stanchions may be secured to the cants by bolts of sufficient strength.

Where solid iron or steel stanchions are used, they shall be squared to a height of 4 feet from the deck below to take the channels or receivers for pen boards.

If desired the heads of the stanchions may be slotted to allow of the stanchions being lifted out of the sockets and hung up to the deck above.

4. *Channels or Receivers to take Pen Boards.*—These shall be of steel or wrought iron $\frac{1}{2}$ inch thick, with an internal depth of $2\frac{1}{2}$ inches and not less than $2\frac{1}{4}$ inches in width in the clear. The length of the channels for breast boards, lower front boards and horizontal division boards shall be $10\frac{1}{2}$ inches, and the channels shall be fitted with an iron stop at the bottom to keep the boards in place. The sides of the channels shall be rounded at the top, and the channels which carry the breast boards, shall have holes drilled in the top of the flanges to take drop-nosed pins to keep the boards from rising.

The length of channels to carry rear boards, where fitted, shall be 3 feet 9 inches in length, and shall be fitted so that the bottom of the

channel is 3 inches above the deck or the cement.

The channels for all breast boards and upper division boards shall be fitted to the stanchions, so that the top of the channels is 4 feet from the deck or cement, and for front lower boards shall be hard down on the cement or deck.

The channels for lower division boards shall be 4 inches clear of the cement or deck.

5. *Breast Boards.*—Shall be of fir or other suitable wood, 9 inches \times $2\frac{1}{2}$ inches, to fit in the upper channels of front stanchions. Holes of $1\frac{1}{2}$ inch diameter shall be made in the centre of the breast boards at suitable intervals to take the head ropes.

6. *Lower Front Boards.*—To be of similar material and dimensions to the breast boards, and to be fitted in the lower channels on the front stanchions.

7. *Division Boards.*—Horizontal boards are to be fitted at each end row of pens, and where the sides of the pens form part of an athwartship passageway.

These horizontal boards shall be of similar material and dimensions to those used for breast boards, and shall fit athwartships in the upper and lower channels on the stanchions.

Except as required above, the divisions between pens may be made by two vertical boards, 9 inches \times $2\frac{1}{2}$ inches thick, side by side, extending from deck above to deck or cement below, placed midway between front and rear of pen.

These boards shall fit into sockets at the base, and be secured to the beams or deck above by iron straps or sockets.

Where rear boards are necessary they shall consist of four 9 inch \times $2\frac{1}{2}$ inch boards, interspaced with 3-inch distance pieces, fitting into the channels detailed above, so that the height of the top of the top board is 4 feet from the deck below.

8. *Protection of Ship's Side.*—Animals shall be protected from frames and projections on the ship's side by:—

(a) A vertical protection, of wood $1\frac{1}{2}$ inches in thickness, or of iron or steel $\frac{1}{4}$ inch in thickness, for a height of 18 inches from the deck, being fastened against the frames the whole length of each pen. The lower edge shall be set in the cement at the edge of the waterways, and the gap at the top shall be closed with cement, faced off to drain in-board. Sparred ceiling, 9 inches \times $1\frac{1}{2}$ inches shall be fitted with 9-inch clearance between each board, commencing 9 inches above the cement, closing the vertical protection, two such boards being sufficient; or

(b) By sparred ceiling to a height of 4 feet 6 inches from the deck, constructed of boards 9 inches by $1\frac{1}{2}$ inches, the lower edge of the bottom board to be 6 inches above the deck, the intervals between this and the two next succeeding boards being 3 inches, and the space between the two uppermost boards being 6 inches; or

(c) By some other method approved by the Ministry.

9. *Battens or Footlocks.*—The floor of each pen shall be fitted with footlocks, placed in a fore and aft direction, to run the length of the pen, except for a space of 3 inches at each end for drainage purposes. There shall be 4 footlocks in each pen, made of elm or other suitable wood, $2\frac{1}{2}$ inches by $2\frac{1}{2}$ inches, with top

edges chamfered. In the case of pens 8 feet in breadth they shall be spaced as follows:—

The 1st shall be 15 inches inside the front fore and aft lower board;

the 2nd shall be 15 inches from the 1st;

the 4th shall be 12 inches from the rear of the pen, and

the 3rd shall be 15 inches from the 4th.

In the case of pens exceeding 8 feet in breadth the spacing shall be in proportion.

In vessels with wood decks, they shall be efficiently fastened to the deck by G.I. screws, which shall be well recessed. In vessels with steel decks, covered with cement, they shall be secured by angle lugs and bolts, or as may be approved.

10. *Feeding Troughs*.—A board 8 inches high by 3 inches thick to run the whole length of the pen shall be bolted to the front side of the first foot batten to form one side of a feeding trough, the other side being formed by the front cant and lower front board. The ends of the trough shall be suitably closed.

11. *Passageways to Scuppers*.—Athwartship passageways of a minimum width of 18 inches are to be provided abreast all scuppers so as to give the necessary access for freeing them, unless proper means of access is otherwise available.

12. *Decks*.—Decks on which pens may be erected shall be (a) wood; or (b) iron covered with cement or approved composition not less than $1\frac{1}{2}$ inches thick, the surface of which shall be scored or otherwise roughened to prevent the animals slipping; or (c) iron with wood sheathing not less than 2 inches thick, properly secured and made watertight.

13. *Gangway Doors*.—Gangways, not less than 5 feet 6 inches in height by 3 feet 9 inches in width and fitted with suitable doors, shall be provided in the ship's side above the main (freeboard) deck, for the purpose of loading and discharging animals. They shall be so arranged as far as practicable that the animals can be driven direct across the deck clear of hatchways or other obstructions.

14. *Approaches, Gangways, etc.*—Brows or cattle walks shall be fitted, leading from deck to deck, and so constructed that they can be used on either side of the vessel. They shall be from 3 feet to 3 feet 6 inches wide in the clear with a gradient of not more than 1 in 2. The cattle walks shall be fitted with battens made of elm or other suitable wood, $2\frac{1}{2}$ inches by $2\frac{1}{2}$ inches, 12 inches apart, the top and bottom battens being not more than 9 inches from the ends. The brows shall be fitted with sides, which may be portable, the sides fitting into the cattle walk by stanchions. The height of the sides shall not be less than 4 feet.

All parts of the vessel over which the animals pass shall be fitted with battens, spaced not more than 18 inches apart, and small brows shall also be fitted over all obstructions, such as hatchways, coamings, door sills, pipe casings, etc., in the parts or gangways used for cattle, these brows being fitted with battens and of a portable nature if necessary.

15. *Fresh Water*.—Fresh water supply pipes are to be run along each side of every compartment or deck, and shall be fitted with cocks at frequent intervals to supply water to all pens.

16. *Obstructions*.—There shall be no obstructions in any pen, and all parts of the vessel

over which the animals pass shall have any obstructions properly and securely fenced off.

17. *General*.—It is essential in the construction of all pens that no sharp edges are allowed to project.

Bolts should be snap-headed wherever possible, and all nuts, etc., should be housed.

SECTION B.—FITTINGS FOR SHEEP AND PIGS UNDER A PERMANENT DECK.

1. If sheep and pigs are carried in pens constructed for cattle, the following provisions shall be made, namely:—

Instead of the vertical and horizontal division boards, horizontal boards of $1\frac{1}{2}$ inch thickness, spaced 2 inches apart, shall be fitted to a height of 3 feet.

(b) Suitable watertight troughs for feeding and watering the sheep and pigs shall be provided.

(c) Battens, $1\frac{1}{2}$ inches by $2\frac{1}{2}$ inches, made of elm or other suitable wood, shall be substituted for the $2\frac{1}{2}$ inch by $2\frac{1}{2}$ inch battens required for cattle.

2. Where vessels are specially fitted to carry sheep and pigs only, the following modifications of the fittings required for cattle may be adopted:—

(a) *Stanchions*.—(1) If solid, may be of 2 inches diameter, (2) if tubular, $2\frac{1}{2}$ inches diameter and $3/16$ th inch thick, and (3) if of wood, $4\frac{1}{2}$ inches by 3 inches. Solid stanchions need only be squared to a height of 3 feet from the deck.

(b) *Division Boards*.—The front, side and (where necessary) rear boards shall consist of boards $1\frac{1}{2}$ inches thick, spaced 2 inches apart, fitting horizontally into channels on the stanchions and ship's side to a height of 3 feet from the floor of the pens, the lowest board being 2 inches from the deck at its lower edge.

(c) *Channels or Receivers*.—The channels shall be of steel or wrought iron $3/16$ th inch thick, with an internal depth of $1\frac{1}{2}$ inches and not less than $1\frac{1}{2}$ inches wide in the clear. They shall be 2 feet 10 inches in length, and be fitted with an iron stop at the top to keep the boards in place. The channels shall be 2 inches above the deck at the bottom, and they shall be secured to the stanchions and ship's side.

(f) *Feeding and Watering*.—Suitable watertight troughs shall be provided for feeding and watering all the animals carried.

In all other respects the fittings shall be those laid down for the carriage of cattle.

SECOND SCHEDULE.

(ARTICLE 2.)

SPECIFICATIONS OF FITTINGS FOR CARRIAGE OF ANIMALS ON EXPOSED SUPERSTRUCTURE DECKS.

1. *Dimensions of Pens.*—The pens shall be of the following dimensions in the clear:—

	Length (fore and aft).	Breadth.	Height (deck to roof).
Maximum...	11 ft.	9 ft.	—
Minimum...	3 ft.	8 ft.	6 ft. 6 in.

Top of breast boards and horizontal division boards to be 3 feet 10 inches from the deck.

Vertical division boards to extend from deck to roof.

3. *Front Cants for Pens.*—To be of 6 inches \times 4 inches Pine, fitted on the inboard side of the front stanchions, with 6 inch side vertical, and bolted to the deck with $\frac{5}{8}$ inch nut and screw or tapped bolts, spaced about 5 feet 6 inches apart; or, if on a wooden deck, to be fastened by $\frac{5}{8}$ inch coach screws, spaced about 2 feet 9 inches apart.

4. *Rear Cants.*—Rear cants of similar material and dimensions as for front cants, and also similarly secured to the deck, shall be fitted on the inboard side of the rear stanchions. These cants shall have holes 5 inches by 2 inches, cut out where necessary to allow of drainage into the waterways. Alternatively, the heels of the rear stanchions may be secured to the deck by angle lugs.

5. *Stanchions.*—(a) *Front Stanchions of pens.*—To be of 6 inches \times 4 inches Pitch or Red Pine, the 6 inch side to be fore and aft. To be secured at the heels by $\frac{5}{8}$ inch nut and screw bolts through the cants and at the heads by $\frac{1}{2}$ inch nut and screw bolts, one through the fore and after and one through the roof rafter. The stanchions shall be spaced 5 feet 6 inches apart, centre to centre. The front stanchion should be preferably higher above the deck to allow a suitable slope to the roof outboard.

(b) *Rear Stanchions.*—To be of 6 inches \times 4 inches Pitch or Red Pine, the 6 inch side to be fore and aft. To be secured at the heels by $\frac{5}{8}$ inch nut and screw bolts through the cants or angle lugs, and at the heads by $\frac{1}{2}$ inch nut and screw bolts, one through the fore and after and one through the roof rafter. The rear stanchions shall also be efficiently secured to the bulwark rail by $\frac{5}{8}$ inch nut and screw bolts. The stanchions shall be spaced 5 feet 6 inches apart, centre to centre.

6. *Fore and afters.*—Along the upper ends of the front and rear stanchions 6 inches below the top, 4 inches \times 3 inches fore and afters are to be fitted. These fore and afters are to be continuous and secured with $\frac{1}{2}$ inch nut and screw bolts to every stanchion.

7. *Roof Rafters.*—To be of 6 inches \times 4 inches (6 inches vertical) spaced 5 feet 6 inches apart, bolted to each rear and front stanchion and to extend 18 inches inboard of the front stanchions.

8. *Roof.*—To be of $1\frac{1}{2}$ inch fir, tongued and grooved, laid fore and aft across the full

length of the rafters, and to be continuous. (See paragraph 19 of this Schedule.)

9. *Back Sheathing.*—To be of $1\frac{1}{2}$ inch fir, tongued and grooved, extending from the top of the rear cant, where fitted, to a height of 4 feet 6 inches above the floor of the pen, and to be secured to the inboard sides of the rear stanchions.

Where no rear cant is fitted, a space of 2 inches is to be left between the bottom of the sheathing and deck for drainage purposes.

In addition, an outer sheathing of 2 inch fir, tongued and grooved, shall be fitted from the bulwark rail to the roof, and secured to the outboard sides of the rear stanchions. (See paragraph 19 of this Schedule.)

10. *Access to Freeing Ports and Scuppers.*—A sufficient number of freeing ports, as may be determined by the competent freeboard assigning authority, shall be left clear of pens for freeing the deck space of water, and there shall be a space of not less than 3 feet 9 inches in width abreast one of the freeing ports to form a gangway for loading and discharge.

The waterways shall be kept clear of fittings, and suitable provision shall be made for access to the Scuppers for clearing them when necessary.

11. *Front Boards.*—These shall consist of (1) a breast board of white pine or other suitable wood, 9 inches \times $2\frac{1}{2}$ inches, the top of the board being 3 feet 10 inches above the floor of the pen; the boards shall be bolted to the front stanchions on their inboard sides with $\frac{5}{8}$ inch nut and screw bolts; and (2) a lower board of similar material and dimensions, bolted in a similar manner to the front stanchions, so that the lower edge shall rest on the front stanchion cant.

The breast boards shall be drilled with holes of $1\frac{1}{2}$ inches in diameter in the centre of the boards at suitable intervals to take the head ropes.

12. *End and Division Boards.*—At each end of every row of pens, including the athwartship passageways to the freeing ports, horizontal boards shall be fitted as follows:—the top board to be 9 inches by $2\frac{1}{2}$ inches, level with the breast board; the bottom board to be 15 inches by $2\frac{1}{2}$ inches fitted close to the deck. These boards shall be portable and fitted into cleats or channels fastened to the front and rear stanchions. The divisions between the pens shall consist of two 9 inch by $2\frac{1}{2}$ inch vertical boards placed side by side, fitting into sockets in the deck or floor of the pen and secured at the head to the rafters above by iron bands or by bolts.

13. *Flooring.*—If the deck is of iron or steel, portable foot platforms to take the foot battens shall be fitted; these platforms shall consist of boards $1\frac{1}{2}$ inches thick, secured to bearers 3 inches by 3 inches placed not more than 3 feet apart, each pen having its own foot platform. The foot platform to completely cover the floor of the pens and to be slotted as necessary to provide drainage.

14. *Battens or Footlocks.*—The floor of each pen shall be fitted with footlocks, placed in a fore and aft direction, to run the length of the pen, except for a space of 3 inches at each end for drainage purposes. There shall be 4 footlocks in each pen, made of elm or other suitable wood, $2\frac{1}{2}$ inches by $2\frac{1}{2}$ inches, with top

edges chamfered. In the case of pens 8 feet in breadth, they shall be spaced as follows:—

The 1st shall be 15 inches inside the front fore and aft lower board;

the 2nd shall be 15 inches from the first;

the 4th shall be 12 inches from the rear of the pen;

and the 3rd shall be 15 inches from the 4th.

In the case of pens exceeding 8 feet in breadth the spacing shall be in proportion.

They shall be efficiently secured to a wood deck, or to the portable wood platforms where fitted, by means of G.I. screws, and in the case of a cemented deck, by means of angle lugs or otherwise.

15. *Feeding Troughs*.—A board 8 inches high by 3 inches thick, to run the whole length of the pen shall be bolted to the front side of the first foot batten, to form one side of a feeding trough, the other side being formed by the front cant and lower front board. The ends of the trough shall be suitably closed.

16. *Gangways Doors*.—For purposes of loading and discharge there shall be access at deck level at the ship's side on the loading deck, and the best method for this will be to cut the bulwarks containing the freeing port abreast the 3 feet 9 inch passageway (referred to in paragraph 10 of this Schedule) to form a hinged door 3 feet 9 inches wide opening forward. The outer sheathing shall also be similarly hinged at this site the whole being suitably strengthened to compensate for the hinging. The hinged doors shall have ample means of security apart from the hinges.

17. *Approaches, Ramps, etc.*—All approaches to pens are to be fitted with battens as required for pens. (Paragraph 14 of this Schedule). Ramps are also to be fitted where necessary, portable if necessary, not less than 3 feet wide and not greater than 3 feet 6 inches wide with a gradient of not more than 1 in 2. These are to be fitted with battens made of elm or other suitable wood $2\frac{1}{2}$ inches by $2\frac{1}{2}$ inches spaced 12 inches apart, centre to centre, commencing 9 inches from each end.

18. *Vessels with Open Rails instead of Bulwarks*.—These shall be fitted as follows:—The rear 6 inch by 4 inch stanchions shall be placed against the rails on the inside, and a 4 inch by 3 inch (4 inches fore and aft) backing piece, shaped to fit round the rails, shall be placed on the outside of the rails against the rear

stanchions. The backing pieces shall extend from deck to roof, and they shall be bolted to the rear stanchions by six $\frac{5}{8}$ inch bolts and nuts, the nuts being outboard. The 2 inch outer sheathing shall be continuous from roof to deck.

In other respects the arrangements and fittings shall be generally as described above.

19. *Protection and Security of Pens*.—The pens shall be arranged with due regard to the protection afforded by side to side erections, if any, the outer sheathing and roof being continuous and in line with the sides and decks of the erections as far as practicable.

Where no forecastle is fitted, the fore end of the pens shall not be nearer the stem than one-tenth of the vessel's length, and a break-water 3 feet high at the centre and 18 inches high at the sides, shall be fitted forward of the pens, sloping aft towards the sides of the vessel extending from rail to rail, and of sufficient strength to withstand the action of the sea. In addition the fore ends of the foremost pens on the foredeck shall be close boarded from deck to roof, with boards not less than 2 inches thick, extending from the ship's side to the front stanchions and stiffened by cross diagonal iron stays, $2\frac{1}{2}$ inches by $\frac{1}{2}$ inch bolted to the deck and through the heads of stanchions.

Where no poop is fitted, the after ends of the aftermost pens on the after deck shall be similarly constructed.

20. *Fresh Water*.—Fresh water supply pipes shall be fitted along the decks, and arrangements made by taps and tubs to give an adequate supply of water at all times to all animals carried.

21. *Fittings for Sheep and Pigs*.—If sheep are carried on open super-structure decks during the summer months, the fittings shall be as described above except that instead of the vertical division boards for dividing pens, horizontal boards shall be fitted into channels, screwed into the front stanchions and through the rear lining to the rear stanchions. These boards shall be of $1\frac{1}{2}$ inch thickness, and shall extend to a height of not less than 3 feet from the floor of the pen. They need not be close-boarded, but 2 inch chocks may be fitted to the under side of each board, one at each end and one in the middle to give the required height. The space between the breast and lower front boards shall be similarly closed.
