Any day other than Saturday, the 2nd day of July, 1932, upon which the tournament is held.	191 7½ journeys per hour in each direction.	191A 15 journeys per hour in each direction.
Saturday, the 2nd day of July, 1932.	10 journeys per hour in each direction.	20 journeys per hour in each direction.

J. S. POOL GODSELL.

An Assistant Secretary.

14th June, 1932.

WHEAT ACT, 1932.

MINISTRY OF AGRICULTURE AND
FISHERIES.

The Minister of Agriculture has made the following Orders under Sections 3 and 19 of the Wheat Act, 1932:—

THE WHEAT (QUOTA PAYMENTS) No. 1 ORDER, 1932, DATED JUNE 16TH, 1932, MADE BY THE MINISTER OF AGRICULTURE AND FISHERIES UNDER SECTIONS 3 AND 19 OF THE WHEAT ACT, 1932.

Whereas by Section 3 of the Wheat Act, 1932, it is provided that for the purpose of meeting the expenditure to be defrayed by the Wheat Commission under the said Act every miller and every importer of flour shall be liable to make to the Wheat Commission in respect of each hundredweight of his output of flour a payment (hereinafter referred to as "a quota payment") of an amount calculated and prescribed in accordance with the provisions of the said Section.

And whereas it is provided that the quota payments to be made in accordance with the provisions of the said Section shall be of such amount as may be prescribed by order of the Minister of Agriculture and Fisheries.

And whereas in Section 19 of the said Act it is provided that as respects the period beginning at the commencement of the Act and ending on the thirty-first day of July, nineteen hundred and thirty-three, if an Order prescribing the amount of quota payments comes into force on a date earlier than the first day of August, nineteen hundred and thirty-two, then, for the purpose of securing that the quota payments accruing due during the period beginning on the date on which the Order comes into force and ending on the thirty-first day of July, nineteen hundred and thirty-three, shall be proportionately reduced by reason of that period being a period greater than a year, Section 3 of the said Act shall in relation to such payments have effect subject to the following modifications, that is to say,

(i) All flour delivered between the date on which the first Order made under that Section comes into force and the first day of August nineteen hundred and thirty-two shall be deemed for the purposes of sub-

Section (1) of that Section to have been delivered in the cereal year beginning on the first day of August; and

(ii) References to the estimated supply of flour for a cereal year shall be construed as references to the estimated supply of flour for the period beginning on the date on which the first Order made under that Section comes into force and ending on the thirty-first day of July nineteen hundred and thirty-three and the amounts of the quota payments which will accrue due during that period shall be calculated and prescribed accordingly by an Order made as soon as practicable after the commencement of the said Act.

And whereas the Minister, after consultation with the Wheat Commission, in accordance with the provisions of the said Act has estimated

(a) that the average price obtainable by registered growers throughout the United Kingdom for home-grown millable wheat sold and to be sold by them in the cereal year ending on the 31st July, 1933, will be five shillings and nine pence per hundredweight and that the price deficit per hundredweight of such wheat will be four shillings and three pence per hundredweight; and

(b) that the supply of flour for the period beginning on 16th June, 1932, and ending on 31st July, 1933, that is to say, that part of the output of millers and importers of flour which, in the Minister's opinion, will in that period be delivered and retained for consumption or use in the United Kingdom, excluding meal to be consumed, without further manufacture, as animal or poultry food, is ninety-three million five hundred thousand hundredweights.

And whereas, after consultation with the Wheat Commission, the Minister has prescribed by an Order, the Wheat (Anticipated Supply) No. 1 Order, 1932, that the quantity of home-grown millable wheat of their own growing which he anticipates will be sold by registered growers during the cereal year beginning on the first day of August, 1932, is nineteen million eight hundred thousand hundredweights.

Now therefore the Minister of Agriculture and Fisheries in exercise of the powers con-
