*Civil Service Commission,**April 11, 1939.*

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of His Majesty's Treasury, viz. :—

REGULATIONS FOR THE COMPETITIVE SELECTION OF WIRELESS TELEGRAPHISTS (MALE) IN THE POST OFFICE WIRELESS SERVICE.

N.B.—These regulations are liable to alteration from time to time. Competitions do not take place at fixed intervals, but are held as occasion arises.

1. Candidates must have attained the age of 21 and must not have attained the age of 25 on the 31st December of the year in which the competition is held.

2. Every candidate must be a natural-born British subject, the child of a person who is or was at the time of death a British subject; provided that exception may be made in the case of natural-born British subjects who have satisfactorily completed a period of not less than five years' service on full pay in His Majesty's Regular Forces.

Provided also that if the Civil Service Commissioners are satisfied in the case of any candidate who is a British subject but does not fulfil all the requirements of the rule as to nationality and descent, that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions that an exception may properly be made to that rule, they may accept such candidate as eligible provided that this discretion shall not be exercisable unless (a) the father or the paternal grandfather of the candidate was a natural-born British subject, and (b) neither the father nor the paternal grandfather had acquired any other nationality by naturalisation or by any other voluntary and formal act.

3. Persons holding situations in the Civil Service must obtain the permission of the authorities of their Department to apply for appointment.

No person actually serving in the Navy, Army, or Air Force will be eligible for consideration unless he produces, when called upon to do so, the permission of his Commanding Officer to apply for appointment, dated before his appearance before the Selection Board, and given in accordance with such orders as may from time to time be issued.

Persons upon whose training for the occupation of teacher public money has been spent cannot be appointed until the consent of the appropriate education authority has been notified to the Civil Service Commissioners.

4. The Postmaster-General will take such steps as he thinks most appropriate to make known the existence of any vacancy or vacancies which he desires to fill on any one occasion, and the Civil Service Commissioners will satisfy themselves that the steps taken have been such as to secure all desirable publicity.

5. Applications shall be addressed in the first instance to the Inspector of Wireless Telegraphy, Telecommunications Department, General Post Office, and shall be made on a form to be obtained from that office. The candidates' credentials will be examined at the

General Post Office and the names of those candidates who appear to have the requisite qualifications and to be best fitted for appointment will be submitted to the Civil Service Commissioners. The Commissioners, if dissatisfied with the number or quality of candidates for any vacancy, may require further search to be made for qualified candidates.

6. Candidates must possess the Postmaster-General's First Class Certificate of Proficiency in Radiotelegraphy and, unless already employed in the Post Office must have had experience as Wireless Operator on board ship.

7. Candidates who are recommended by the General Post Office and are accepted by the Civil Service Commissioners as possessing the requisite qualifications will be submitted by the authorities of the General Post Office to a test in Morse. Those who pass this test will be summoned to an interview before a Selection Board, who will recommend for the vacancies existing those candidates who appear to them to possess the highest qualifications, and their decision will be final. The Selection Board will be constituted by the Civil Service Commissioners in consultation with the authorities of the General Post Office, who will be represented on the Board.

8. The appointment of selected candidates will be subject to their satisfying the Civil Service Commissioners of their eligibility in respect of age, nationality, health and character, and will not be confirmed unless and until they have passed the prescribed period of probation to the satisfaction of the Postmaster-General. If they do not already hold the elementary certificates in French and German of the Royal Society of Arts or certificates of equivalent or higher standard, they will be required to pass tests conducted by the General Post Office in these languages by the end of the probationary period.

9. Candidates selected for appointment will be required to pay a fee of £2.

10. Any attempt on the part of candidates to enlist support for their applications through Members of Parliament or other influential persons will disqualify them for appointment. The Selection Board will disregard spontaneous recommendations from persons who are not personally acquainted with the candidate's work, whether at school, at the University, in industry or business, in the Forces, or otherwise.

ADMIRALTY NOTICE TO MARINERS.

No. 7.—CAUTION WITH REGARD TO SINGLE SHIPS APPROACHING SQUADRONS OR AIRCRAFT CARRIERS.

Former Notice.—No. 7 of 1938.

1. The attention of shipowners and mariners is called to the danger to all concerned which is caused by single vessels approaching a squadron of Warships so closely as to involve risk of collision, or attempting to pass ahead of, or through such a squadron.

2. Mariners are warned that it would be in the interests of safety for single vessels to adopt early measures to avoid approaching a squadron under the above conditions which might involve risk of collision and to keep out of its way.

3. Attention is also drawn to the uncertainty of the movements of Aircraft Carriers which must necessarily turn into the wind when aircraft are taking off or landing.

4. In circumstances where a single vessel has not taken early measures to keep out of the way of a squadron or Aircraft Carrier, the "Regulations for preventing Collisions at Sea" must be the guide.

Note.—This Notice is a repetition of the former Notice quoted above.

(*Notice No. 7 of 2/1/1939.*)

Authority.—The Lords Commissioners of the Admiralty. (*H. 7459/38.*)

No. 8.—WARNING SIGNALS TO DENOTE THE PRESENCE OF SUBMARINES.

Former Notice.—No. 8 of 1938.

1. Attention is drawn to the following warning signal which is in use to denote the presence of Submarines:—

British vessels fly a rectangular *red* flag to denote that Submarines, which may be submerged, are in the vicinity. Vessels are cautioned to steer so as to give a wide berth to any vessel flying such a flag. If from any cause it is necessary to approach her, vessels should proceed at slow speed until warning is given of the danger zone by flags, semaphore or megaphone, &c., a good look-out being kept meanwhile for Submarines whose presence may be only indicated by their periscopes showing above water.

A Submarine submerged at a depth too great to show her periscope, may sometimes indicate her position by releasing a "smoke candle" which gives off a considerable volume of smoke on first reaching the surface, or by a discharge of oil.

2. Under certain circumstances warnings that Submarines are exercising in specified areas may be broadcast by a General Post Office W/T station.

3. It must not be inferred from the above that Submarines exercise only when in company with escorting vessels.

(*Notice No. 8 of 2/1/1939.*)

Authority.—The Lords Commissioners of the Admiralty. (*H. 7460/38.*)

By Command of their Lordships,

J. A. Edgell, Vice-Admiral,

Hydrographer of the Navy.

Admiralty, London,
 2nd January, 1939.

The last Admiralty Notice to Mariners issued during 1938 was No. 2780.

ADMIRALTY NOTICE TO MARINERS.

No. 1 of the year 1939.

CAUTION WHEN APPROACHING BRITISH PORTS.

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1938; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all

entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the British Isles, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* lights vertically disposed by night, or three *red* balls vertically disposed by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any port in the British Empire, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) *By day* the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red balls vertically disposed if entrance is prohibited.

Usually the Examination Steamers will fly the Blue Ensign, but in certain circumstances they may fly the White Ensign.

By night the steamer will carry:—

(a) Three *red* lights vertically disposed if entrance is prohibited.

(b) Three *white* lights vertically disposed if entrance is permitted.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Merchant vessels approaching a British Port at which the Examination Service is in force, must hoist their signal letters on arriving within visual signal distance of the port, and are not to wait for the signal "What is the name of your vessel?" to be made from the Examination Steamer.

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer:—

To lower any boat.

To communicate with the shore or with other ships.

To move the ship.

To work cables.

To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-sweeping Operations.

H.M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manoeuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these

signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. *Signals Shown by Day.*

(a) By vessels working singly:

A black ball at the foremast head, and a similar ball at each yard-arm, or where it can best be seen.

Vessels showing this signal should not be approached nearer than 900 yards.

(b) By vessels working in pairs or groups:

A black ball at the foremast head, and a similar ball at the yard-arm, or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. *Signals Shown by Night.*

As for day, except that all round *green* lights will be used in a similar manner to and in place of the black balls.

Note.

This Notice is a repetition of Notice No. 1 of 1938.

ADMIRALTY NOTICE TO MARINERS.

No. 6.

BRITISH ISLES AND NORTH SEA.

General Information regarding Mines.

Former Notice.—No. 6 of 1938; hereby cancelled.

Mariners are informed that floating mines may occasionally be met with. They may be either dummy (British) mines, or mines originally laid prior to November, 1918, either British or Foreign.

2. *British Dummy mines* are filled with sand, or some similar substance instead of explosive, and have the words "Sand filled" painted in large white letters round the top mouthpiece. The same words are also stamped on the top and bottom annulus rings.

3. *Mines laid prior to November, 1918.*—All evidence goes to show that these mines are innocuous to any ship that may strike them after this lapse of time. They are also safe for any ordinary handling, such as hoisting inboard and landing on deck, rolling over, etc. No attempt, however, should be made to open one, or remove parts of it, except by a skilled Naval rating.

4. *Recovery of floating mines.*—In order that valuable dummy mines, that may have broken adrift from their moorings, may be returned to the authorities, the Admiralty will pay rewards for the recovery of *floating* mines adrift from their moorings, as follows:—

(a) For the recovery of a *floating* mine found at two miles or less distance from the coast and delivery to the local authority in the United Kingdom: Two pounds.

(b) For the recovery of a *floating* mine found at more than two miles from the coast and delivery to the local authority in the United Kingdom: Five pounds.

(c) For the first report of a mine washed up on shore: Ten shillings.

5. Beyond the awards quoted at (a), (b) and (c) above, no payment is made for loss, material damage, loss of earnings, or other damage incurred in the salvage of a mine.

6. The Admiralty pay no award in respect of *sunken* mines brought up in fishing trawls, nor is compensation payable for damage to trawls, nor for damage sustained in destroying or sinking a mine.
