Wilna in Lithuania, Nov. 21. N. S. The Quarrel between the Houses of Sapieha and Oginsky went so far, that on the 19th Instant they had a sharp Engagement about 7 Miles from hence; Prince Sapieha's Party were routed, and lost all their Cannon, and 1000 Men on both sides were

killed on the spot; Prince Sapieha's second Son, and the Sieur Wjona Staroff of Bröslaw, were taken Prisoners, and the next morning were cut in Pieces by Oginsky's Men.

Stockholm, Nov. 27. The Muscovite Merchants here having Advice, that the Goods of the Swedish Merchants in Muscovy were seized, and expecting to be treated in like manner, shipped off their best Effects on board some Merchant Ships in this Port, and sent them away towards Narva, in order to have them secured in the Czar of Muscovy's Camp before that Place; But we have since received an Account, that these Vessels were met at Sea by some Swedish Frigats, who carried them into Revel, and that there were found on board 220000 Dollars in Money, and Goods to a very considerable value. Letters from Revel of the 10th Instant say, the King of Sweden was assembling his Forces in order to march to the Relief of Narva, which would make about 40000 Men. That the Muscovites had sent a Detachment of 4000 Men to burn the Magazines at Wajenberg, but were beat off with considerable loss by 2000 Swedes, who were in that Place under the Command of General Reybinder; And that the Muscovites having sent divers Boats with Artillery, Provisions, and Ammunition from Pleskow upon the Peypus Lake towards Narva, the Commander of the Swedish Garrison at Derpt having notice thereof, sent out several Barks with Soldiers, who took 7 of the said Boats, in which they found divers Pieces of Cannon, a good quantity of Ammunition, and a great Standard, which was made in Muscovy to be used in the Czar's Army.

Vienna, Nov. 24. The Emperor has not yet received a formal Notification of the King of Spain's Death, and till that comes, the Court defers putting on Mourning for this occasion. Orders are given for augmenting the Imperial Forces; each Regiment of Horse is to be made up 1200, and each Regiment of Foot 2400 Men; and these Recruits are to be compleated by February next. Here is a Discourse likewise of raising more Troops, and particularly that the Emperor will take into his Service 7 or 8000 Hungars and Croats. The States of the Lower Austria are to assemble here in few days. They write from Hungary, that the Turkish Ambassador was expected the 23d Instant at Esbeck, and Count Orting the Emperor's Ambassador the 24th at Belgrade, and the Exchange of these Ambassadors would be made near Salankemen in the usual manner. Some Advices from Turkey say, a great Tumult has lately happened at Constantinople, during which the Grand Visier and Musti were strangled; but there being no account thereof directly from thence, we know not what Credit is to be given to this Report.

Berlin, Novemb. 27. Several Expresses have lately passed between this and the Court of Vienna, and in pursuance of what has been agreed with the Emperor, the Elector of Brandenburg

Hamburg was on the 24th Instant declared here King of *Prussia*, of the *Vandals*, and of *Cassubia*. Preparations are ordered to be made for his Coronation, which is to be at *Coningsberg* in *Prussia*, whither he will go with the whole Court in a short time; He has made one of the Counts de *Selm* his Great Chamberlain, and the *Sieur Grenkau*, one of the Gentlemen of his Chamber, his Great Cup-bearer. Two *Danish* Officers are arrived here from Prince *Charles* of *Wurtemberg*, to adjust with the Ministers of this Court the manner of the March of the *Danish* Forces through the Territories of *Brandenburg* in their way to *Saxony*.

Hamburg, Decemb. 3. The *Danish* Forces being about 7500 Men, continue their March through the Duchy of *Mecklenburg* towards *Saxony*, and we hear the Elector of *Brandenburg* has granted them Passage through his Territories. They came from *Lubeck*, that a *Swedish* Frigate met near the Isle of *Fermar* one of the Privateers, who cruize in the *Baltick* with Commissions from the King of *Poland*, and after a short Engagement, the *Swede* sunk the said Privateer, of whose Crew only 13 were sav'd, who making towards Land in their Boat, were taken by the *Swede*. Another of these Privateers having taken a small *Danish* Vessel, carry'd her to the Island of *Danitz*, and sent his Lieutenant ashore, to desire Leave of the Magistrates of that City to bring in his Prize, and dispose of her there; but the Magistrates declar'd, that there being no War between the Republick of *Poland* and the Crown of *Sweden*, they could not consent thereto. We have an Account from *Mitau* of the 18th of the last Month, That an Express was arriv'd there from the *Muscovite* Camp before *Norva*, who parted from thence the 4th, and reports, that the Garrison had that day demand'd a Cession of Arms, which the Czar had granted, believing it was in order to a Capitulation; But Russian Advices from *Riga* make no mention of that Garrison's Capitulating, but on the contrary say, the Czar had removed his Camp a *German* mile and half from *Norva*, as is thought upon Advice of the march of the *Swedes*; The Advices from those Parts being at present so uncertain, we must expect to hear farther. The Letters from *Carelsroos* say, another Convoy with Supplies of Men, Provisions, and Ammunition is preparing there to be sent forthwith to *Livonia*.

Hague, Decemb. 7. The Memorial lately presented to the States by the *Spanish* Ambassador, is sent to the several Provinces for their consideration. The Baron *Lancier*, Resident from the Elector of *Bavaria*, has been several times in Conference with some of the Members of the States-General. The *Dutch West-India* Company have obtained of the States the Renewal of their Charter, which determin'd this year.

Paris, Dec. 4. N.S. The new King of *Spain* set out from *Versailles* this morning; The Most Christian King and the whole Court went with him to *Seau*, a House of the Duke of *Maine*'s, where they dined; after which he continued his Journey: The Dukes of *Burgundy* and *Berry*, and a great many Persons of Quality, accompany him to the Frontiers; and the *Spanish* Ambassador, and the Dukes of *Beauvilliers* and *Nauilles*, go with him to *Spain*. The Marquis de *Bedmar*, who came hither from the Elector of *Bavaria*, is returned to *Brussels*. We have received an Account from *Rome*, that on the 23d of the last Month Cardinal *Albani* was elected Pope, and took the Name of *Clement* the Eleventh. He is descended of a Noble Family, and was born in the Duchy of *Urbino* in the year 1650. He was of Cardinal *Orsini*'s Party, having been advanced by his Uncle Pope *Alexander* the Eighth, who first made him one of his Domestick Prelates, afterwards Secretary of his Secret Dispatches, and promoted him to the Dignity of a Cardinal on *February* 13. 1691.

Deale, Nov. 30. The *Norton* Galley, Capt. *Wall* Commander, from *Leghorn*, the *Hope*, Capt. *Midgton*, from *Cadix*, and divers other homeward-bound Merchant Ships, are arriv'd in the Downs; The *Scrumpy* Frigate, Capt. *Grimer*'s Commander,

bound to *Guinea*, and about 20 other outward-bound Merchant Ships, are ready to sail with the first fair Wind.
