FRIDAY, 23 JANUARY, 1948

*Buckingham Palace,
23rd January, 1948.*

The PRINCESS ELIZABETH and the DUKE OF EDINBURGH have been pleased to appoint Lieutenant John Michael Avison Parker, Royal Navy (retired), to be Equerry to Their Royal Highnesses.

CENTRAL CHANCERY OF THE ORDERS OF KNIGHTHOOD.

*St. James's Palace, S.W.1,
23rd January, 1948.*

The KING has been graciously pleased to approve the award of the British Empire Medal (Military Division) (to be dated 19th December, 1947) to:—

1179703 Corporal William John MAY, Royal Air Force, Royal Air Force Station, West Malling.

On Saturday, 1st February, 1947, following severe frosts, a fault developed in the foundation of the Station Water Tower. The tower is of braced metal construction, ninety feet high, and carries two static tanks. At the time of the occurrence there were one hundred and twenty tons of water in one tank whilst the other was empty, thereby imposing an unequal strain on the tower. Due to the strain the tower began to lean until it was three feet nine inches out of plumb from the base. It was apparent that unless the water could be released from the full tank the entire structure would collapse and cause severe damage to surrounding buildings. It was discovered that, owing to frost, the emergency relief valve for the tank was frozen and inoperative and a volunteer was called for to climb the tower and attempt to free the valve with a blow lamp. Corporal May immediately offered his services, ascended the tower and remained at the tank for thirty minutes, working on the relief cock. During this time the structure was in a dangerous state, as the tower was still gradually subsiding and cross members were progressively shearing. Corporal May only descended at the last moment when the collapse of the tower appeared imminent but, unfortunately, he had not succeeded in freeing the relief cock. It was immediately necessary to resort to rifle fire to release the water and thereafter the tower remained stationary although by this time the majority of the bracing structure had parted. Corporal May showed nerve, initiative and a high sense of duty in ascending the tower in an attempt to release the water and thereby prevent severe damage to other station installations. The example he set on the particular occasion cited above is typical of him and linked with his conduct generally is deserving of recognition. Corporal May, by his initiative and hard work, has at all times been an example to the

other N.C.O.'s and airmen with whom he works and he has made a considerable contribution to the raising of morale within his Unit.
