

*Trichlorethylene whether with one or more of the following things, namely, a stabiliser or a colouring agent, or not*

Vinyl ether

Any one of the following substances prepared for use by injection

Bismuth, and compounds thereof,  
Calcium gluconate,  
Calcium glucono-galacto-gluconate,  
Mercury, and salts thereof,  
Protein desensitising solutions, prepared for use by injection

The following substances and preparations consisting only of one of those substances and one or more of the following things, namely, an excipient, vehicle, base or preservative —

Amino acids obtained by the hydrolysis of proteins or such acids prepared synthetically, and combinations of two or more of these acids,

Calcium borogluconate,

Carbachol;

Chimofon;

$N_1$ -*p*-chlorophenyl- $N_5$ -isopropylbiguanide, and salts thereof,

Corticosterone and desoxycorticosterone, and esters thereof,

4,4'-diamidnodiphenylether di-( $\beta$ -hydroxyethanesulphonate),

Dicoumarol;

(3,5-di-iodo-4-hydroxy) phenyl- $\alpha$ -aminopropionic acid,

The dimethylcarbamic ester of any 3-hydroxyphenyl-trimethyl-ammonium salt of alkyl salt,

Sym - diquinolyl - 6,6' - carbamide-1,1'-bismethyl-methosulphate,

Dithranol;

1-ethyl-2-methyl-7-methoxy-tetrahydro-phenanthrene-2-carboxylic acid,

Glandular preparations, the following —

Preparations of the parathyroid glands,

Preparations of the thyroid gland,

Preparations of the following glands, pituitary whole gland, suprarenal gland, ovary, testis, spleen, corpus luteum, prostate, pancreas and combinations of two or more of these glands,

Glycosides of digitals and combinations of two or more of these glycosides;

The glycoside formed by the combination of 5,7,3',4'-tetrahydroxyflavone with glucose and rhamnose,

Hexahydro-diphenylacetyl -  $\beta$  - diethylaminoethanol-ester hydrochloride and any combination thereof with phenobarbitone,

Insulin, and compounds whereof the sole constituents are insulin, a protein and zinc,

Mepacrine, and salts thereof,

Oestrone, oestriol, oestradiol, stilboestrol, hexoestrol, dienestrol, and esters of any of those substances,

Pamaquine,

Pemitone;

Phenothiazine;

Phenytoin soluble and any combination thereof with phenobarbitone,

Progesterone, and derivatives thereof,

Suramin;

Testosterone, methyltestosterone, and esters of either of those substances,

Dextro-tubocurarine and salts thereof,

Thyroxine,

Compounds obtained by coupling *p*-aminobenzoyl histamine to despectated horse serum globulin by means of the diazo reaction,

The double salt of nikethamide and calcium thiocyanate;

Preparations obtained from bovine plasma containing the haemostatic enzyme known as thrombin,

Preparations obtained from bovine blood platelets containing the haemostatic enzyme known as thrombektinase;

Substances containing not less than 50 per cent by weight of cetyltrimethylammonium bromide;

Compounds whereof the sole constituents are procaine, or a salt thereof, and gladin or amyloprolamin, whether with strychnine sulphate or not

The whole small intestine of the pig, cleansed, defatted, dried and powdered, and preparations derived from it,

Derivatives of hydroxy-mercuri-amino-propane, derivatives of hydroxy-mercuri-amino-propylene, and preparations consisting only of a derivative of either of those substances with theophylline

The following substances, and preparations consisting only of one of those substances and one or more of the following things, namely, an excipient, vehicle, base or preservative, or of two or more of those substances whether with one or more of the following things, namely, an excipient, vehicle, base or preservative, or not —  
Adrenaline, and salts thereof,  
Amethocaine hydrochloride;  
Amino acridine-flavines;

Para-aminobenzenesulphonamide, salts of para-aminobenzenesulphonamide, derivatives of para-aminobenzenesulphonamide having any of the hydrogen atoms of the para-amino group or of the sulphonamide group substituted by another radical, and salts of such derivatives,

Para-(2-amino-4-hydroxy-6-pteridyl) methylamino-*N*-benzoyl glutamic acid and combination of this substance with a salt of iron,

Amylocaine hydrochloride,

Arsphenamine, derivatives of arsphenamine, and salts of such derivatives

Benzocaine;

Bismuth tryparsamide;

$\alpha$ - $\beta$ -butyloxycinchonic acid diethylethylene-diamide, and salts thereof,

Chorionic gonadotrophin (human or equine);

Cocaine, and salts thereof,

Dihydromorphinone, and salts thereof,

3,4-Dihydroxy-1-( $\alpha$ -hydroxy -  $\beta$  - aminopropyl) benzene hydrochloride,

Emetine and Bismuth Iodide,

Emetine, and salts thereof,

Ephedrine, and salts thereof;

Ergometrine, and salts thereof,

Ergotamine, and salts thereof;

Ethenyl-*p*-diethoxydiphenylamide hydrochloride;

Gold, and salts and compounds thereof;

Hexobarbitone, and hexobarbitone soluble,

Hormones produced from the anterior lobe of the pituitary gland,

Hyoscine, and salts thereof,

Leptazol,

Liver extracts and active principles of liver whether or not combined with a salt of iron,

Morphine, esters of morphine, ethers of morphine, and salts of any of those substances,

Nikethamide,

Orthocaine

Oxophenarsine, and salts thereof,

Papaveretum,

Papaverine, and salts thereof,

Penicillin salts as defined by paragraph 1 of the Schedule added by the Therapeutic Substances Amendment (No 2) Regulations, 1944, (made under the Therapeutic Substances Act, 1925) to the Therapeutic Substances Regulations, 1931 (so made), as in force on the ninth day of October, nineteen hundred and forty-five,

Pentobarbitone, and soluble pentobarbitone,

Pentose nucleotide, and salts thereof,

Pethidine hydrochloride,

Pholedrine, and salts thereof,

Pituitary (posterior lobe) extract as defined by paragraph 1 of the Fifth Schedule to the Therapeutic Substances Regulations 1931 (made under the Therapeutic Substances Act, 1925), and other preparations of the posterior lobe of the pituitary gland,

Procaine, and salts thereof,

Pseudo-ephedrine, and salts thereof,

The sodium salt of 1-methyl-5-allyl-5-isopropylbarbituric acid,

The sodium salt of 5-ethyl-5 ( $\alpha$ -methylbutyl)-thiobarbituric acid,

The sodium salt of 5-ethyl-5 ( $\delta$ -methylbutyl)-thiobarbituric acid,

The sodium salt of 5- $\Delta^2$ -cyclohexenyl-5-allyl-thiobarbituric acid,

Streptomycin, being any antimicrobial complex organic base or mixture of bases produced by *Streptomyces griseus*, whether obtained from *Streptomyces griseus* or not, which —

(a) yields on hydrolysis by mineral acids the base streptidine (ms 2' 4' 5' 6-tetrahydroxy-1,3-diguamido-cyclo-hexane), and

(b) yields on hydrolysis by a 4 per cent solution of sodium hydroxide the substance maltol (3-hydroxy-2-methyl-gamma-pyrone)

and includes any salt or derivative or a salt of a derivative of any such base and any mixture of any of the substances aforesaid,

Tryparsamide,
