PRESENT,

The Queen's Most Excellent Majesty in Council.

WHereas by Her Majesty's Declaration, bearing Date the First Day of June last, for the Encouragement of the Captains of Her Majesty's Ships of War, it is Declared, That in case any Ship of War belonging to France or Spain be taken by any of Her Majesty's Ships of War, and after the Capture the same shall be taken into Her Majesty's Service, the Captains shall have Ten Pounds per Gun, and Ten Pounds per Ton, of such Ship or Vessel to be divided between them, for Officers and Men; And Her Majesty taking Notice, that the said Declaration, which would amount to more than the said Ships might be actually built for, has been altered by Act of Parliament, instead of the Allowance intended to be made of Ten Shillings per Gun, Her Majesty is pleased to Order, as it is hereby Ordered, That according to Her Majesty's Royal Instruction herein, Allowance be made of Ten Pounds per Gun, but no more than Ten Shillings a Ton for such Ships of War of France or Spain as shall be taken by any Her Majesty's Ships of War, and afterwards employed in the Service of the Royal Navy as aforesaid; And that for the preventing any further Copies, this Order is Published in the Third next Gazette.

JOHN POVEY.

Given at Our Court at Hampton-Court the Sixth Day of August, 1702. In the First Year of Our Reign.

GOD Save the QUEEN.

From the Imperial Camp at Montenara, July 24. N.S. The 17th Instant we received an Account, That the Enemy had passed the Po, whereupon Count Bagni was commanded out with 6 Companies of Foot, and a Regiment of Horse, to observe them, but a great Rain fell, which obliged him to put off his March till the next day. Lieutenant-Colonel Regal was also sent out with 300 Foot towards Campidello. The 19th Count Bagni returned to the Camp. The Garrison of Mantua

raised a Battery near the Gate of Ceres, against our Works on that side, but at too great a distance to do us much Damage. The 20th, we foraged beyond the Minio, and met with no opposition. The 21st, upon Advice that the Enemy continued their March on the other side the Po, and were advanced to San-Secondo, Orders were given for the Regiment of Young Daun to march to the River Crestolo. Count Ulfeld marched the same day with the Regiments of Dragoons of Savoy and Herberville to Borgoforte. About midnight we had Intelligence, That the Enemy was advanced to Colorno with 25000 Men, and had been joined by 2000 Men which lay on the other side of the Po; And that General Visconti was thereupon retired with the three Regiments of Cuirassiers under his Command to Santa Vittoria. Lieutenant-Colonel Martini was posted with 300 Horse along the Crestolo near Guastalla, and 700 Horse were left at Bersello. Orders were sent to Count Bagni to be in a readiness to march with his Detachment; to Count Geblen, that he should likewise be ready with his Regiment; and to Count Ulfeld, that he should march with the two Regiments of Dragoons under his Command, towards the Crestolo, and join the Regiment of Young Daun, in order to guard the better the Passage over that River. Several of our small Parties returned to the Camp with some Prisoners, and 44 Oxen, which they had taken. The Major of the Regiment of Dietrichstein was detached with 100 German Horse, and as many Hussars, from the Body commanded by Count Trautson towards Pietole, and marched towards Gaito, and was followed soon after by the Marquis Davia with 80 Horse; and another Detachment of 150 Foot and 100 Horse, under the Command of Major Peppercorn, of the Regiment of Corbeley, was sent out by Count Trautson towards Castelloria, who returned the next day, and gave an Account, That he put his Men in Ambush in two Places, but met only with some Peasants that were carrying Corn to Mantua, which he destroyed, not being able to bring it home; and sent to the Camp the Oxen that drew the Wagons on which it was laden. Then he marched with the rest of his Party, consisting of 80 Horse and 120 Foot, towards Ducastello, near which Place lay a Party of above 100 French Horse, under the Command of a Lieutenant-Colonel, 2 Captains, and 4 Lieutenants, and a Captain and a Lieutenant with 50 Granadiers, which last were posted in a House; The Major not believing it practicable to force them from thence, made a faint Retreat, to draw the Enemy out of their advantageous Post, which took effect, and our Men facing about, charged the Enemy so vigorously, that only the Lieutenant-Colonel, with between 20 and 30 Troopers, and a very few of the Granadiers, escaped; a Lieutenant and 13 Troopers being taken Prisoners, and the rest being all cut down. Our Men took also 30 Horses. We had in this Action 2 Dragoons, a Granadier, and 7 Troopers killed, and 3 Foot Soldiers wounded.
