Civil Service Commission.

8th April, 1949.

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of His Majesty's Treasury, viz.:—

TEMPORARY (RECONSTRUCTION) REGULATIONS FOR FILLING VACANCIES FOR ASSISTANT ELECTRICAL ENGINEERS AND ELECTRICAL ENGINEERS IN THE ELECTRICAL ENGINEERING DEPARTMENT OF THE ADMIRALTY.

1. Men only may compete under these regulations.

2. Every Assistant Electrical Engineer candidate must have been born on or after 2nd August, 1905, and on or before 1st August, 1924. Every Electrical Engineer candidate must have been born on or before 1st August, 1919. The Commissioners have not specified an upper age limit for Electrical Engineer vacancies. In general, however, Government Departments require a reasonable period of service from persons newly appointed to the Civil Service; and accordingly the Commissioners reserve the right to give weight to this factor in considering candidates for posts of Electrical Engineers who are over 50 years of age.

3. No person is eligible for employment in the Admiralty who is not a natural-born British subject and born within the United Kingdom or in one of the self-governing Dominions of parents also born within the United Kingdom or in one of the self-governing Dominions.

•No departure from this rule will be made without the special permission of the First Lord of the

Admiralty, and then only in exceptional cases and in favour of candidates who are British subjects, and who also satisfy one of the following conditions:—

(a) If natural-born British subjects, they must either

(i) have at least one parent who is or was at death a British subject; or

(ii) have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment;

(b) If naturalized British subjects, they must have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(c) If not qualified under (a) or (b) of this paragraph they must satisfy the Commissioners that they are so closely connected with His Majesty's dominions either by ancestry, upbringing or residence, or by reason of national service, that an exception may properly be made in their favour.

4. I. The minimum qualifications must include

(a) A University Honours Degree in Engineering or equivalent qualification; and

(b) A minimum of two years practical training followed by practical experience in a responsible Electrical Engineering post of three or eight years according to whether the candidate is for Assistant Electrical Engineer or Electrical Engineer or such other acceptable equivalent experience as the Commissioners find satisfactory.

II. Special experience in any of the following will be regarded as of particular value:—

electrical engineering design and manufacture;
generating stations and distributing systems;
electronic engineering and its applications;
electrical installations as applied to ships;
secondary battery work;
research, investigation and experiment.

It will be a condition of appointment that candidates who are not Corporate Members of the Institution of Electrical Engineers must obtain that qualification during their probationary service.

5. Every successful candidate must satisfy the Commissioners as to his health and character.

6. No person who is undergoing a course of study with the aid of a grant from public funds shall be eligible to compete before the completion of the course, unless he has previously obtained permission to do so from the authority which administers the grant.

7. The Commissioners may summon to appear before a Selection Board all who are found to be *prima facie* eligible, or may, if they see fit, summon only those whose qualifications and experience are considered to be specially suitable for the posts for which they are being considered. The Selection Board shall have power to give such preference to candidates born on or after 2nd August, 1910 for Assistant Electrical Engineer vacancies, and to candidates born on or after 2nd August, 1899 for Electrical Engineer vacancies, as the Commissioners consider appropriate. Subject to this preference the Board will take into consideration the candidate's record of education and experience, any recommendation from persons named by the candidates as having direct knowledge of their work in the past, and the personal qualities of the candidates as shown at the interview; and on their estimation of all the above facts they will frame their recommendations. The decision of the Commissioners shall be final.

8. Persons upon whose training for the occupation of teacher public money has been spent cannot be appointed until the consent of the appropriate central education authority (e.g., the Ministry of Education, the Scottish Education Department, the Ministry of Education for Northern Ireland) has been notified to the Commissioners.

9. Every candidate must apply on the appropriate form within the time and in the manner of which notice is given by the Commissioners.

10. Any attempt on the part of candidates to enlist support for their applications through Members of Parliament or other influential persons, except as referees to be named by them in their Application Form, will disqualify them for appointment. The

Interviewing Board will disregard recommendations from persons who are not personally acquainted with the candidate's work, whether at school, at the University, in the Forces, or otherwise.

11. Every successful candidate shall pay a fee of £1 before the issue of a certificate of qualification for appointment.
