The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of His Majesty's Treasury, viz.:—

**SECOND SUPPLEMENTARY RECONSTRUCTION COMPETITION FOR APPOINTMENT TO THE ASSISTANT (SCIENTIFIC) CLASS.**

1. Both men and women may compete under these Regulations.

2. Every candidate must have attained the age of 18 by the 1st August, 1949.

3. Candidates must be British subjects. They must also satisfy one of the following conditions:—

(a) If natural-born British subjects, they must either

(i) have at least one parent who is or was at death a British subject; or

(ii) have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(b) If naturalized British subjects, they must have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(c) If not qualified under (a) or (b) of this paragraph they must satisfy the Commissioners that they are so closely connected with His Majesty's dominions either by ancestry, upbringing or residence, or by reason of national service, that an exception may properly be made in their favour.

Provided that a candidate will not be eligible for appointment to the Admiralty, War Office, Air Ministry, or Ministry of Supply unless he is a natural-born British subject and born within the United Kingdom or in one of the self-governing Dominions, or parents also born within the United Kingdom or in one of the self-governing Dominions, except when the circumstances are such as to justify a departure from the general rule, in which case, provided the candidate satisfies the conditions prescribed by the preceding paragraphs, he may be admitted to appointment or competition by special permission of the First Lord of the Admiralty, the Secretary of State for War, the Secretary of State for Air, or the Minister of Supply, as the case may be.

4. Candidates born on or after 1st January, 1917, must either:—

(i) have obtained School Certificate with credit in mathematics or a science subject or have passed

an examination of equivalent or higher standard; or

(ii) produce a statement from the Scottish Education Department or the Ministry of Education for Northern Ireland showing that they have attained a standard equivalent to that of the School Certificate of the Oxford and Cambridge Schools Examination Board, including the special qualification in mathematics or a science subject; or

(iii) have passed either (a) the Forces Preliminary Examination with a pass in either mathematics or natural science, or (b) the R.A.F. Higher Education Test, Part I, with a pass in mathematics, mechanics or the Properties of matter, or (c) the Admiralty Higher Educational Test Second Class with a pass in mathematics or mechanics or magnetism and electricity.

Provided that the Commissioners may also accept as eligible candidates who, owing to circumstances beyond their control, are unable to comply with requirements (i), (ii) or (iii), but who produce a certificate from a responsible person under whom they have studied or worked that they have reached School Certificate credit standard in mathematics or a science subject:

(a) Every candidate will be required to state on his application form the courses of further study in individual science subjects (including engineering) or of technical training he has attended and also the certificates or examination passes he has been awarded by recognised public bodies such as the Universities and Technical Colleges, the Royal Institute of Chemistry, the City and Guilds Institute, and the Institute of Medical Laboratory Technology.

(b) Every candidate must also produce evidence of thorough experience in the duties of the class gained by service in a Government Department or other civilian scientific establishment or in technical branches of the Forces. The experience must cover a minimum period of two years completed by 1st August, 1949, on duties appropriate to vacancies in one of the four groups of scientific subjects mentioned below, and the two-year period must be recent, subject to allowance of gaps in cases where the experience has been broken for an extensive period by service in H.M. Forces:—

(i) Engineering and physical sciences.

(ii) Chemistry, bio-chemistry and metallurgy.

(iii) Biological Sciences.

(iv) General (including geology, meteorology, general work ranging over two or more of groups (i) to (iii) and highly skilled work in laboratory crafts such as glass-blowing).

(c) Particular additional qualifications may be required for vacancies in certain establishments. For example, in some Departments there will be posts for which older ex-service men of non-commissioned or warrant officer rank with long experience in technical branches of the Forces are required. In the Veterinary Laboratory of the Ministry of Agriculture and Fisheries the intermediate and final certificates of the Institute of Medical Laboratory Technology will be required for vacancies in the Assistant or Senior Assistant grades respectively. For vacancies on sea fisheries work, candidates must be fit to undertake duties at sea and in the Meteorological office fitness to undertake regular terms of night duty is required. The great variety of work undertaken by Assistants does not, however, allow detailed specifications of these particular qualifications in Regulations. Candidates may, therefore, be questioned further on their training, experience and interests in the interviews to which reference is made in paragraph 8 below.

5. Every candidate must satisfy the Commissioners as to his or her health and character.

6. No person who is undergoing a course of study with the aid of a grant from public funds shall be eligible to compete before the completion of the course, unless he or she has previously obtained permission to do so from the authority which administers the grant.

7. Every candidate must apply on the appropriate form within the time and in the manner of which notice is given by the Commissioners.

8. (i) Candidates who have previously competed in the Temporary (Reconstruction) competitions and who failed to obtain an appointment are not debarred from making application for entry to this supplementary competition. Such a candidate will

not, however, be summoned before a Selection Board unless he can produce evidence of capacity inadequately demonstrated in the previous competitions, or subsequently acquired. This evidence should be in the form of a certificate from an employer, teacher or lecturer under whom the candidate has served or studied since the date of the earlier competition.

(ii) Those candidates who on their Application Forms and the resulting enquiries are found to be prima facie eligible will be summoned to an interview before a Selection Board, provided that the Commissioners, if they so wish, may summon only those candidates who appear to be most suitable for appointment. The Selection Board shall have power, in the case of candidates recommended for appointment to the Assistant grade, to give such preference to candidates born on or after 1st January, 1917, as they consider appropriate and candidates born before that date will be expected to have specially useful experience of the kind required by employing Departments. Subject to this preference, the Selection Board will recommend for appointment those candidates who appear to them to possess the best qualifications, having regard to the nature of the vacancies available and will indicate in each case whether the candidate is recommended for appointment as Assistant or Senior Assistant. The Senior Assistant grade is in general designed for the older candidates, and normally no candidate who is not at least 27 will be recommended for the grade. The Board will take into consideration the candidate's record of education and experience, and recommendations that they may receive from persons named by the candidate as having direct knowledge of their work in the past, the candidate's scientific knowledge and personal qualities as shown at the interview; and on their estimation of all the above evidence the Board will frame their recommendations. The decision of the Commissioners will be final.

(iii) The Commissioners may at their discretion summon candidates to a preliminary informal interview.

9. Persons upon whose training for the occupation of teacher public money has been spent cannot be appointed until the consent of the appropriate central education authority (e.g., the Ministry of Education, the Scottish Education Department, the Ministry of Education for Northern Ireland) has been notified to the Commissioners.

10. It will rest with the Commissioners to determine the Department to which each successful candidate shall be assigned. In making the assignments the Commissioners will be guided by the requirements of the public service. Subject to this condition, the wishes of the candidates will, where possible, be respected.

11. Any attempt on the part of candidates to enlist support for their applications through Members of Parliament or other influential persons, except as referees to be named by them in their Application Forms, will disqualify them for appointment. The Selection Board will disregard spontaneous recommendations from persons who are not personally acquainted with the candidate's work, whether at school, or other educational institution, in the Forces, or otherwise.

12. A successful candidate shall be required to pay a fee of 10s. before the issue of a certificate of qualification for appointment.
