Civil Service Commission.

9th January, 1951.

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of H.M. Treasury, viz.:—

RECRUITMENT UNDER NORMAL REGULATIONS OF SHIP SURVEYORS (MALE) IN THE MARINE SURVEY SERVICE OF THE MINISTRY OF TRANSPORT.

1. Age.

Candidates must be at least 28 years of age on the 1st January, 1951. The Commissioners have not specified an upper age limit for this Competition. In general, however, Government Departments require a reasonable period of service from persons newly appointed to the Civil Service; and accordingly the Commissioners reserve the right to give weight to this factor in considering candidates for these posts who are over 50 years of age.

2. Sex.

Men only may compete under these Regulations.

3. Nationality.

Candidates must be British subjects. They must also satisfy one of the following conditions:—

(a) If natural-born British subjects, they must either

(i) have at least one parent who is or was at death a British subject, or

(ii) have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(b) If naturalised British subjects, they must have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(c) If not qualified under (a) or (b) of this paragraph they must satisfy the Commissioners that they are so closely connected with His Majesty's dominions either by ancestry, upbringing or residence, or by reason of national service, that an exception may properly be made in their favour.

4. Qualifications.

Candidates must possess a University degree in Naval Architecture or furnish other evidence of satisfactory educational attainments.

The candidate must have been trained in the theory and practice of ship design, construction, and repair for not less than five years, and since the completion of his training must have had practical experience in the building and repairing of ships for not less than three years. He must have attained to a position of responsibility in a shipbuilding or ship-repairing establishment.

When at least one year has been spent in a day course that includes Naval Architecture at a recognised Technical School or College, the time so spent will be allowed to count as one year, but no more, out of the five years' training required.

The candidate must also submit copies of testimonials giving particulars of appointments held since completion of his training.

Every candidate must, before he is declared successful, pass the Ministry of Transport sight test. A candidate who has not passed this test at the time he sends in his application will, if he is chosen for interview, receive an instruction to present himself at a convenient centre to undergo the test.

5. *Competition.*

Candidates who are accepted by the Ministry of Transport and the Civil Service Commissioners as suitably qualified will be required to attend for interview in London before a Board consisting of representatives of the Civil Service Commissioners and the Ministry of Transport.

The Selection Board in reaching their decision will take into account candidates' technical knowledge, their record and experience, and their personal qualities as shown at the interview. Importance is attached to personal qualities and they will play a considerable part in determining the success of a candidate.

The Selection Board will recommend to the Civil Service Commissioners for appointment the candidates who appear to them to have the best qualifications.

6. *Health and Character.*

Successful candidates must satisfy the Commissioners as to their health and character.

7. *Candidates trained as Teachers.*

Candidates who have been trained as teachers and upon whose training public money has been spent cannot be appointed until the consent of the appropriate central education authority (e.g., the Ministry of Education, the Scottish Education Department, the Ministry of Education for Northern Ireland) has been notified to the Commissioners.

8. *Canvassing.*

Any attempt on the part of candidates to enlist support for their applications through Members of Parliament or other influential persons, except as referees to be named by them in their application forms, will disqualify them for appointment.

9. *Fee.*

Each successful candidate will be required to pay a fee of £1 10s. 0d. before the issue of a Certificate of Qualification for appointment.

Civil Service Commission.

9th January, 1951.

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of H.M. Treasury, viz.:—

REGULATIONS FOR THE RECRUITMENT AMONG MEMBERS OF THE MINOR AND MANIPULATIVE GRADES OF THE CIVIL SERVICE TO THE CLERICAL CLASSES (GENERAL AND DEPARTMENTAL) OF THE HOME CIVIL SERVICE AND TO GRADE 6 POSTS IN BRANCH B OF THE FOREIGN SERVICE.

1. *Age.*

Candidates must be under 30 years of age on the 1st March, 1951.

2. *Grades eligible.*

Candidates must at the time of the examination be either

(a) members of the established minor and manipulative grades of the Civil Service within the scope of the National Whitley Council (that is, non-industrial grades other than the General and Departmental Clerical Classes, on scales of salary rising to not more than £450 per annum (men) or £360 per annum (women)); or

(b) members of an unestablished grade corresponding to an established grade covered by (a).

Clerical Assistants and members of the typing grades will not be eligible to compete. In the case of an officer who on 1st November, 1950, is substantively an established member of one of the Minor and Manipulative Grades of the Civil Service within the scope of the National Whitley Council, but who has received acting promotion, it is the substantive grade on the 1st November, 1950, which determines eligibility under this Regulation.

3. *Length of Service.*

(a) Candidates whose full-time adult service began on or after 1st June, 1946, must be at least 25 years of age and must have had not less than three years' full-time service on duties proper to an adult class.

These conditions apply also to candidates who entered the Post Office as Boy Messengers or Girl Probationers on or after the 2nd April, 1945.

(b) Candidates whose full-time adult service began on or before 31st May, 1946 (and also all candidates who entered the Post Office as Boy Messengers or Girl Probationers before the 2nd April, 1945, including those who may not have entered upon full-time adult service until after 31st May, 1946) must either

(i) have had not less than three years' full-time service on duties proper to an adult class (without any minimum age limit); or

(ii) have reached the age of 22 and have had not less than one year's full-time service on such duties.

In all cases the conditions must be satisfied by the first day of the examination, and the service must have been continuous.

4. *Sex and Marriage.*

(i) Both men and women are eligible.

(ii) Married women are not eligible for appointment to Branch B of the Foreign Service; a woman member of Branch B must resign her appointment on marriage.

(iii) Married women who have formerly been established civil servants and have drawn marriage gratuity (other than those who retired compulsorily on marriage and whose resignation took effect before the 15th October, 1946, or who are widows or divorced, or who are separated from their husbands, or whose husbands suffer without hope of recovery from total physical or mental incapacity) will not be eligible for appointment to the Home Civil Service unless they undertake to refund on appointment the marriage gratuity paid.

5. *Nationality*

Candidates must be British subjects. They must also satisfy one of the following conditions:—

(a) If natural-born British subjects, they must either

(i) have at least one parent who is or was at death a British subject; or

(ii) have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(b) If naturalised British subjects, they must have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(c) If not qualified under (a) or (b) of this paragraph, they must satisfy the Commissioners that they are so closely connected with His Majesty's dominions either by ancestry, upbringing, or residence, or by reason of national service, that an exception may properly be made in their favour.

6. *Health and Character.*

Successful candidates must satisfy the Civil Service Commissioners as to their health and character.

(Note.—The fee for medical examination, if any, will be paid by the Commissioners.)

7. *Examination.*

The examination will be in the following subjects:—

1. English.

2. Arithmetic.

3. General Knowledge.

4. One of the following:—

Mathematics, French, German, History, Geography, Economics.

Candidates who include Branch B of the Foreign Service among their preferences for appointment, if successful, must take either French or German as subject 4. Successful candidates will not be considered for appointment to Branch B of the Foreign Service unless they reach in the examination a satisfactory standard in either French or German and subsequently establish, in an interview at the Foreign Office, that they are in other respects suitable for appointment to the Foreign Service.

Candidates will be arranged in order of merit according to the aggregate number of marks in the examination as a whole, and no candidate will be regarded as qualified who does not obtain such an aggregate as to satisfy the Civil Service Commissioners. Not more than one-third of the vacancies

filled from the examination will be available for persons serving as Postal and Telegraph Officers in the Post Office.

8. Candidates trained as Teachers.

Candidates who have been trained as teachers and upon whose training public money has been spent, cannot be appointed until the consent of the appropriate central education authority (e.g., the Ministry of Education, the Scottish Education Department, the Ministry of Education for Northern Ireland) has been notified to the Commissioners.

9. Assignment.

The Commissioners will decide to which Department each successful candidate is to be assigned. A candidate who declines to accept the post offered will have no claim to be assigned to another, but will be regarded as having declined appointment. Assignments will be made in accordance with the needs of the public service, but the wishes of candidates will, where possible, be taken into account.

10. A fee of 7s. 6d. is payable by all candidates. This must be sent with the application form, and is not returnable in any circumstances.

The application form must be accompanied by a certificate from the authorities of the Department in which the candidate is serving in the space provided on the application form, that he (or she) satisfies the conditions laid down in Classes 2 and 3 of these Regulations and that his (or her) service has been approved.

The Civil Service Commissioners further give notice that a competition will be held under the above Regulations commencing on the 20th March, 1951. No person will be admitted to the Competition from whom the Secretary of the Civil Service Commission has not received on or before the 25th January, 1951, an application on the prescribed form, a copy of which may be obtained from the Secretary at once.

ADMIRALTY NOTICE TO MARINERS.

NO. 7. CAUTION WITH REGARD TO SINGLE SHIPS APPROACHING SQUADRONS OR AIRCRAFT CARRIERS AT SEA AND AIRCRAFT CARRIERS AT ANCHOR.

Former Notice.—No. 7 of 1950; hereby cancelled.

(1) The attention of shipowners and mariners is called to the danger to all concerned which is caused by single vessels approaching a squadron of warships, or merchant vessels in convoy, so closely as to involve risk of collision, or attempting to pass ahead of, or through such a squadron or convoy.

(2) Mariners are therefore warned that single vessels should adopt early measures to keep out of the way of a squadron or convoy.

(3) The fact that it is the duty of a single vessel to keep out of the way of a squadron or convoy does not entitle vessels sailing in company to proceed without regard to the movements of the single vessel. Vessels sailing in a squadron or convoy should accordingly keep a careful watch on the movements of any single vessel approaching the squadron or convoy and should be ready, in case the single vessel does not keep out of the way, to take such action as will best aid to avert collision.

(4) Attention is also drawn to the uncertainty of the movements of aircraft carriers, which must usually turn into the wind when aircraft are taking off or landing. Furthermore, Mariners should realise that by night His Majesty's aircraft carriers, whether engaged on night flying operations or not, may display navigation lights (except the overtaking light) sited on the island structure only. This structure is always on the starboard side.

This in effect means that the bow lights do not indicate the full width of the ship; the starboard bow light is on the starboard side, but the port bow light may be as much as 100 feet from the port side.

(5) In existing Aircraft Carriers the anchor lights exhibited conform to the Regulations for the Prevention of Collisions at Sea.

In future certain Aircraft Carriers will exhibit Anchor Lights as follows:—

“Anchor lights will consist of four white lights located in the following manner:—

In the forward part of a vessel at a distance of not more than 5 feet below the flight deck, two lights in the same horizontal plane, one on the port side and one on the starboard side.

In the after part of the vessel at a height of not less than 15 feet lower than the forward lights, two

lights in the same horizontal plane, one on the port side and one on the starboard side.

Each light will be visible over an arc of at least 180°. The forward lights will be visible over a minimum arc from one point on the opposite bow to one point from right astern on their own side, and the after lights from one point on the opposite quarter to one point from right ahead on their own side.”

Mariners are therefore warned that His Majesty's Aircraft Carriers may be encountered at anchor carrying either of the arrangements of anchor lights indicated above, as may be most practicable.

Authority.—The Lords Commissioners of the Admiralty. (H. 6670/50.)

By Command of their Lordships,

A. Day,

Rear-Admiral, Hydrographer of the Navy.

Admiralty, London.

1st January, 1951.

The last Admiralty Notice to Mariners issued during 1950 was No. 2558.

ADMIRALTY NOTICE TO MARINERS.

No. 1 of the year 1951.

CAUTION WHEN APPROACHING BRITISH AND COMMONWEALTH PORTS.

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1950; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, in conjunction with the Commonwealth Naval Authorities, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports under their control, this is to give Notice that on approaching the shores of the British Isles, or any ports or localities in the Commonwealth, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three red lights vertically disposed by night, or three red balls vertically disposed by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination Vessel, Traffic Control Vessel, or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

Vessels are particularly warned not to enter a declared “Dangerous Area” or approach boom defences without permission, nor to anchor or remain stopped in a dangerous area or prohibited anchorage unless specially instructed so to do.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine individual vessels desiring to enter ports and localities at home and abroad and to control entry generally. This is the function of the Examination Service. Where Traffic Control Vessels take the place of Examination Vessels their authority is the same.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are

advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any port in the British Isles and the Commonwealth, serious delay and risk will be avoided if four efficient all round lanterns, two red and two white, are kept available for use.

(7) By day the distinguishing flag of the Examination Vessel or Traffic Control Vessel will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red balls vertically disposed if entrance is prohibited.

Usually the Examination Vessels or Traffic Control Vessels will fly the Blue Ensign, but in certain circumstances they may fly the White Ensign and in the Ports of some Commonwealth Countries they may fly the National Flag or an Ensign authorised by that Commonwealth Country.

By night the steamer will carry:—

(a) Three red lights vertically disposed if entrance is prohibited.

(b) Three white lights vertically disposed if entrance is permitted.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Merchant vessels approaching a British or Commonwealth Port at which the Examination Service is in force, must hoist their signal letters on arriving within visual signal distance of the port, and are not to wait for the signal "What is the name of your vessel?" to be made from the Examination Vessel.

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Vessel or Traffic Control Vessel.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer:—

- To lower any boat.
- To communicate with the shore or with other ships.
- To move the ship.
- To work cables.
- To allow any person or thing to leave the ship.

The permission of the Home Office Immigration Officer must be obtained before any passenger or member of the crew who has embarked outside the United Kingdom is allowed to land.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Other Regulations in force.

Nothing in this Notice is to be taken as overruling such general or local regulations as may be issued by the Public Traffic Regulations at each port, through routing authorities, by Notices to Mariners or other means to meet new dangers or situations which may arise, or to cover local conditions.

Attention is called to Notice to Mariners No. 13 of each year and NEMEDRI.

Note.—This Notice is a revision of Notice No. 1 of 1950.

ADMIRALTY NOTICE TO MARINERS.

No. 8. WARNING SIGNALS TO DENOTE THE PRESENCE OF SUBMARINES.

Former Notices.—Nos. 8 and 869 of 1950; hereby cancelled.

1. Attention is drawn to the following warning signal which is in use to denote the presence of Submarines:—

British vessels fly a rectangular red flag to denote that Submarines, which may be submerged, are in the vicinity. Vessels are cautioned to steer so as to give a wide berth to any vessel flying such a flag. If from any cause it is necessary to approach her, vessels should proceed at slow speed until warning is given of the danger zone by flags, semaphore or megaphone, &c., a good look-out being kept meanwhile for Submarines whose presence may be only indicated by their periscopes showing above water.

A Submarine submerged at a depth too great to show her periscope, may sometimes indicate her position by releasing a "smoke candle" which gives off a considerable volume of smoke on first reaching the surface. Her position may sometimes be indicated by red-and-white or red-and-yellow buoys or floats, which tow on the surface close astern.

2. It must not be inferred from the above that Submarines exercise only when in company with escorting vessels.

3. Under certain circumstances warnings that Submarines are exercising in specified areas may be broadcast by a General Post Office W/T station.

4. Submarines may be met on the surface by night, particularly in the vicinity of the following ports:—

Thames Estuary, Portsmouth, Portland, Plymouth, Barrow, Liverpool, Londonderry and Clyde Areas.

By virtue of the construction of a submarine the only position from which navigation lights can be exhibited is the Conning Tower of the vessel and this is approximately in the centre of her length.

For the same reasons of construction it is impracticable for a submarine to show the second white steaming light prescribed in Article 2 (b) of the Regulations for Preventing Collisions at Sea, although submarines differ in length and may extend to 320 feet. The single steaming light and bow lights are necessarily low down and closely spaced and give no indication of the submarine's length nor of her exact course or change of course. They may be mistaken for the lights of a very much smaller vessel of the coastal type.
