Treasury Chambers.

27th May, 1955.

The Lords Commissioners of Her Majesty's Treasury hereby give notice, that, at a Trial of the Pyx begun at Goldsmiths' Hall in the City of London on the 3rd day of March and concluded on the 11th day of May, 1955, the following Verdict of the Pyx Jury was delivered to the Queen's Remembrancer, viz.:—

VERDICT.

We, whose names are hereunder written, having been sworn on the 3rd day of March, 1955, before the Queen's Remembrancer at Goldsmiths' Hall in the City of London, made the following assays and trials of Her Majesty's coins which, according to accounts produced by the officers of the Royal Mint in London were coined in the said Mint from the 1st day of January, 1954, to the 31st day of December, 1954, both dates inclusive, in accordance with the Coinage Acts, 1870 to 1946 (hereinafter called "the Acts") and were set aside and placed in the pyx of the said Mint as prescribed by regulations made under the Acts.

1. We ascertained the number of coins in each packet produced to us and that such number corresponded with the number which the officers of the Mint represented the packet to contain.

2. We found no gold coins in the said pyx.

3. (a) We found that the silver coins therein weighed in all not more than twelve ounces troy.

(b) We weighed in bulk such silver coins and we ascertained that they were on the whole within the variation allowed under the Acts from the standard weight thereby prescribed being one-thousandth part of an ounce (+ 0.001) above standard weight.

(c) We then assayed such silver coins comparing them with the silver trial plate produced by the Board of Trade, and we found that they were on the whole within the variation allowed under the Acts from the standard fineness thereby prescribed the amount of variation from standard fineness being plus eight ten thousandth parts (+ 0.0008).

4. (a) We found that the cupro-nickel coins in the said pyx weighed in all more than twelve ounces troy and we took one or more coins from each packet of cupro-nickel coins.

(b) We weighed each twelve ounces troy (at standard weight) of cupro-nickel coins so taken out and ascertained that the amount of its variation from standard weight was the amount recorded in respect thereof in the schedule hereto, and that each twelve ounces troy was therefore within the variation from standard weight allowed under Acts.

(c) We then assayed separately cupro-nickel coins weighing in all twelve ounces troy (at standard weight) comparing them with the copper trial plate and the nickel trial plate produced by the Board of Trade, and we found that the coins assayed were on the whole within the variation allowed under the Acts from the standard composition thereby prescribed, the only variation from standard composition being minus one tenth of one per centum (- 0.1%) of nickel.

(d) We weighed in bulk the residue of the coins remaining in the packets of cupro-nickel coins and we ascertained that they were on the whole within the variation from standard weight allowed under the Acts, being seven hundred and sixty-eight thousandth parts of an ounce (+ 0.768) above standard weight.

Dated the 11th day of May, 1955.

THE SCHEDULE.

Seven weighings of twelve ounces troy showed variations of two, four, four, four, eight, nine and eleven thousandth parts of an ounce (+ 0.002, + 0.004, + 0.004, + 0.004, + 0.008, + 0.009, + 0.011) respectively above standard weight; and one such weighing showed a variation of eight thousandth parts of an ounce (- 0.008) below standard weight.
