At James's, October 31. The following Address from the Justices of the Peace and Grand Jury of the County of Somerset presented to Her Majesty by William Coward Esq; Serjeant at Law, one of the Representatives in Parliament of the City of Wills, in the said County.

The humble Address of the Justices of the Peace, Deputy Lieutenants, Grand Jury and other Gentlemen, of the County of Somerset, met at the General Quarter Sessions of the Peace of the said County, held at Taunton, on Tuesday the 3d of October, in the Third Year of Your Majesty's Reign, and of the Mayor, Aldermen and Burgesses, of that Corporation.

May it please Your Majesty,
 We permit us, Your Dutiful and Loyal Subjects, after our Thanks to God, to Congratulate Your Majesty upon the late glorious Successes that have attended Your Arms both by Sea and Land; such as our latest Posterity will have just Reason to bless Your Majesty's most Gracious Memory for.

Let us crave Leave thus far to say, That (next under Heaven) it is chiefly owing to Your own wise Counsel, and the prudent Choice of such a General and Admiral, who not only convinced their Enemies of their Courage and Conduct, but all the unbiassed part of Your People, of their preferring the Liberties of Europe, the Safety of Your Realms, the Protestant Interest, and the Honour of the Nation, before all Self-Interest and By-Ends whatsoever.

And we have just Reason to hope, from such Councils and such Commanders, the Crown of England will Triumph, the Church by Law established will flourish in Peace, the Treasure of the Nation will be rightly applied; and thereby Your Majesty become the Glory as well as Protector of Europe, the Delight of the Church, and the Darling of Your People; whilst we in Duty bound shall ever pray.

The following Address from the Town of Newark upon Trent was presented by the Honourable James Sunderland Esq; one of their Representatives in Parliament.

To the QUEEN'S Most Excellent Majesty.

The humble Address of the Mayor and Aldermen, and also of the Inhabitants of Your Majesty's Borough of Newark upon Trent in the County of Nottingham.

Since Your Majesty has been pleased to permit our Fellow Subjects the Honour of Congratulating Your Glorious Successes by Sea and Land, we humbly beg Leave to express our unfeigned Joy on this Occasion: And the such Signal Victories are the Gift of Heaven, as a Reward to Your unparalleled Virtues, yet we hope it may be thought no Presumption in us to attribute the Choice of so great a General, and so great an Admiral, to Your own discerning Wisdom; and to believe, the Courage of Your Forces were no less animated by an undaunted Zeal for Your Majesty's Service, than by the brave Example and Conduct of your Commanders.

We heartily pray Almighty God, to preserve Your most Sacred Person in an uninterrupted Course of Prosperity; That Your Majesty may continue long to protect the Liberties of Europe, You have in so generous a manner already rescued; that Your own Subjects may live in that entire Unity Your Majesty has been pleased so earnestly to recommend; and make all other suitable Returns of Duty and Affection for the very great Blessings we enjoy (and may we long enjoy them), under the best of Sovereigns.

The following Address of the Bishop, Dean and Chapter, and Clergy of the Diocese of Exeter, was presented to Her Majesty by the Reverend Dr. Wallis, Dean of Exeter, introduced by the most Honourable the Lord High Treasurer.

To the QUEEN'S Most Excellent Majesty.

The humble Address of the Bishop, the Dean and Chapter, and others of the Clergy of the Diocese of Exeter.

May it please Your Majesty,
 For our due Obedience, to Your Majesty's Commands, in paying the just Tribute of our Thanks to Almighty God, for the most Glo-

rious Victory obtained by Your Majesty's Forces in Germany, under his Grace the Duke of Marlborough, over the French and Bavarians, which has preserved the almost expiring Liberties of Europe, and given new Life and Hopes to the Protestants abroad; we humbly beg Leave to Congratulate Your Majesty upon the same.

May it please Your Majesty likewise to accept of our farther Congratulations for the great and happy Successes of Your Majesty's Fleet under the Command of Sir George Rooke.

Your Majesty's great Pity and Goodness, and Bounty to Your People, had given us early Hopes of a Blessing on the Consummation of Your Councils, and the Masterly Conduct of Your General.

Be pleased to permit us to add to our Joy for an Event of that vast Importance, the utmost Assurance of an unmovable Duty and Affection to Your Majesty's Service: We are sure to make good the one by our best Endeavours in our several Stations, as we are to Pray continually for such a frequent Addition to the other, as may render Your Majesty's Government no less a Terror to Your Enemies, than it is the Delight and Support of all Your Faithful Subjects.

The following Address from the Borough of Doncaster was presented to Her Majesty by Sir John Kay Bar. one of the Knights of the Shire for the County of York, introduced by the most Honourable the Lord High Treasurer.

To the QUEEN'S most Excellent Majesty.

The humble Address of the Mayor, Recorder, Aldermen, and Burgesses of Your Majesty's Ancient Borough and Soak of Doncaster, in the West-Riding of the County of York; and of the Gentlemen inhabiting within the said Borough and Soak.

WE Your Majesty's most Dutiful and Loyal Subjects, do most humbly Congratulate Your Majesty in the wonderful Victory obtained by Your Armies, and those of Your Allies, against the Common Enemy, under the Heroick and Prudent Conduct of his Grace the Duke of Marlborough, which has signally Reversed the Ancient Honour and Glory of the English Nation. The late Success at Sea under Sir George Rooke, deserves likewise a grateful Acknowledgement.

These Blessings (under God) we owe to Your Majesty's wise Government, and do most Powerfully engage us to make our fervent Prayers to the Almighty for Your Majesty's long and prosperous Reign over us, and to continue Success to Your Armies, whereby such a Peace may be obtained to all Europe, as it may not be in the Power of any Potentate to Violate.

The following Address from the Justices of the Peace and Grand Jury of the County of Stafford, was presented to Her Majesty by the Honourable Henry Payer Esq; one of the Representatives in Parliament of the said County.

To the QUEEN'S Most Excellent Majesty.

The humble Address of Your Majesty's Justices of the Peace, other Gentlemen, and the Grand Jury, at the General Quarter Sessions of the Peace for the County of Stafford, the 3d day of October, 1704.

May it please Your Majesty;

It is not to be expressed with how much Satisfaction Your Majesty's most Dutiful Subjects daily crowd into Your Royal Presence, to Congratulate the Wonderful Success wherewith God has been pleased to bless Your Majesty's Arms, and those of Your Allies, this Summer both at Land and Sea. We ought not to forget the many Signal Occasions of Rejoycing we have had in other Reigns; but it must be confessed, that the Actions of this Year have been so very much to the Reputation of England, as the like hath not been in our Days; and therefore cannot but be attended with an unusual degree of Joy.

The ancient English Prowess must no longer be said to be in its Declension; or renarded Ineffectual, if not Useless, by the new French Arts of Warring without Fighting. By what the Renowned Duke of Marlborough hath done at Land, and Your Admirals at Sea, it appears that English Hearts are still the same; and when animated by the Courage and Conduct of their Generals, and a Zeal for the Service of their Sovereign; a French Force, tho' superior in Number, must expect to be driven before them, and owe their Lives to the Mercy of their Conquerors.

the River, and had made all the necessary Dispositions for Disputing the Passage, having himself visited all the Posts, and sent out Parties to Patrol along the River as far as Scodomin. Letters from King of the 23d Inst, a Body of 12000 Muscovites was advanced near Briten, and that General Lewenhaupt was drawing together all the Troops he was able in order to oppose them.

Frankfort, Nov. 2. On the 31st past the Imperialists before Landau sprung a Mine they had made under a Place of Arms of the Countercamp, which had the desired Success, and they made a Lodgment in the Covered-way. Their last Battery for making a Breach is not yet finish'd.

Hamburg, Nov. 4. The Dutchess Dowager of Holstein, Sister to his Royal Highness Prince George of Denmark, died the 30th past at her House at Kiel. The Muscovite Generals, who were Pyrrical Generals of War at Stockholm, and were ordered from thence to several Provinces, where they were to be distributed, were in their Passage by Sea all cast away, among whom was the Governor of Novogrod, who was married to the Czars's Sister.

Reges, Nov. 7. N. S. We have Advice, That the Elector of Bavaria's late Design, for which he had made so many Preparations, was to have attacked Montieur d'Auverquerque, who is still encamp'd at Borchloen; but that the Marshal de Villeroy, after he had in vain urg'd several Reasons to dissuade him, produced a positive Order from the French King nor to hazard a general Engagement: The Enemy is said to have had 18 or 20 Battalions more than we, having drain'd all their Garrisons. The Elector has since sent a Reinforcement of 8 Battalions and 12 Pieces of Cannon towards the Moselle. They write from Bavaria, That the Towns of Straubingen and Passau had been deliver'd up to the Emperor's Forces upon Articles, with the Consent of the Electors of Bavaria; and that there was a Cessation of Arms between the Imperialists and the Bavarians. By our last Letters from Poland, the King of Sweden was advanced to the Banks of the Weisell near Warlaw; and King Augustus was on the other side with all the Forces he had been able to get together, being fully resolv'd to dispute with him the Passage of that River; so that we may expect to hear suddenly of an Action between them. There are Advices, That the Enemy's Fleet in the Mediterranean has met with very Stormy Weather, and suffer'd considerable Damage; and that the Tonnant, a Ship of 92 Guns, commanded by Montieur de Coelogon, was cast away on the Coast of Spain, near Cape de Gatte, but that the Men were saved.

Yesterday sail'd all the light Colliers that were in our Roads for Newcastle, under Convoy of Her Majesty's Ship the Queenborough. The same day came into our Roads Her Majesty's Ships the Sorlings and Solebay. The Russia Fleet, mentioned in my last, with their Convoys, went through our Roads and on the back of our Sails on the 25th in the evening for the River Thames; as did also with them several laden Colliers. On the 27th came into our Roads the Betty Gally, Nehemiah Worton Commander, from the River Thames, to lade Herrings for the Streights. On the 28th sail'd hence the Salamander of Flushing, laden with Herrings for Leith. The same evening came hither the Ormond Gally, Nicholas Smith Master, from the River Thames, to lade Herrings.
