St. James's, Dec. 20. The following Address from the Borough of *Hamiton* was presented by Sir William Drake Kt. & Bar. and Sir Walter Yonge Bar. their Representatives in Parliament.

To the QUEEN'S Most Excellent Majesty. The humble Address of the Portreeve, Constables, and other the Inhabitants of the Borough of *Hamiton*, in the County of *Devon*.

Most Gracious Sovereign,
 WE humbly beg Leave, with others of Your Majesty's most Loyal Subjects, to Congratulate Your most Sacred Majesty on the late glorious Successes of Your Majesty's Arms both by Sea and Land.

What may not we reasonably hope for under the most Auspicious Government of so great a Princess; who by the Blessing of God, and the Conduct of Her General and Admiral, is become the Glory of Her Subjects, and the Terror of Her Enemies?

Who in one Year hath Rescued the Emperor, Conquered *Bovaria*, Routed the *French*, and Preserved Her own People, Supported Her Allies, and is become the great and general Assertor and Restorer of the Liberties of Europe.

May Your Majesty Live, and Have the Honour of more such Campaigns; so shall the haughty Monarch of *France* be reduced to Reason, and Your Majesty justly Registered in the Annals of all Ages as the happy Instrument thereof.

And that Your Majesty may always succeed in so Righteous an Undertaking, we take leave to Assure Your Majesty of the constant Prayers, and utmost Assistance, of, Dread Sovereign, Your Majesty's most Loyal and Dutiful Subjects.

Which Address Her Majesty received very graciously.

Constantinople, Octob. 21. N. S. On the 28th of the last month, Achmet Pashaw, who had been sent for privately from his Government of *Candia*, was declared Grand Visier. He is about 70 Years of Age, a Man of great Severity and Justice, and appears very well disposed towards the maintaining of the Peace and good Correspondence with the Emperor, and the Turks in general seem very little inclined to give any Assistance to the Malecontents in *Hungary*. The late Grand Visier *Hassan Pashaw*, with his Sultana, who is Sister to the Grand Signior, is preparing to retire to *Esmir*, about 80 Miles from this City.

About the time when this Change happened in the Ministry here, the French Ambassador had made Preparations for a great Feast upon the Occasion of the Duke of *Britanny's* Birth; and among other things, had provided many Pattereroes, and hung up a vast number of Lamps upon Arches of Wood raised for the purpose round his House, and along his Garden which faces the *Scraglio*, for which he had leave by an Imperial Command from the then Visier *Azem*. Upon the Advancement of the new Grand Visier, the Ambassador by his Druggerman acquainted him with the Preparations he had made, and desired him to confirm the Leave he had received to celebrate his Feast in that manner. The Visier did not Explain himself so clearly as that the Druggerman could rightly understand him; but the next day, when the Ambassador had

to fire his Pattereroes, without making any mention of the Leave. The Ambassador complied with that Intimation, continued his lighting, which making a great show, gave Offence to the Visier, whereupon the Visier, in a Passion, after the Lamps had been about an hour, sent the *Boftangi Bashi*, with 500 *Boftangi*, who came to the Street-Door of the Ambassador's House, and signified to him the Visier's Orders that the Lamps should be put out: The *Topigi Bashi* being sent at the same time with a like number of People with such Hooks as they pull down *Timber-Houses* to be at the Water-side, and was ready with his Guard of *Jandaries* have to come over the Water in Person if he had not received notice that his Orders were complied with.

Turin, Dec. 3. The Siege of *Verue* goes on but slowly by reason of the continual Rains which put the Besiegers to great Inconveniencies. They are yet 40 Paces from the *Pallisadoes*, and are making Preparations for the erecting of new Batteries in order to make a breach: In the mean time the Miners are at work on the sides, but the Besieged are in hopes of rendering the Enemies Work ineffectual. The late Rains have so swelled the *Po*, that it has broke our Bridge of Communication between *Verue* and *Gradenigo*; but we hope to have it repaired in a day or two. They write from the *Milaneze*, That besides the Extraordinary Taxes laid upon that *Dutchy* for carrying on the War, the *French King* obliges to pay a Hundred *Pistoles* a day to the *Duke of Mantua*, in consideration of the Losses he has suffered in Adhering to the late King of that Crown.

Vienna, Dec. 13. The Queen of the Romans went from here the 11th instant to meet the King, who is expected here in 3 or 4 days. The Emperor has lately been Indisposed, but is at present perfectly recovered. We expect by our next Advices from *Hungary* to have an Account, That General *Heister* has been joined by a Regiment of Horse and another of Dragoons, which lately march'd by this Place towards his Quarters; and that he is gone upon some Expedition against the *Malecontents*.

Hague, Dec. 26. N. S. An Express arrived here the 22th instant with Advice, That the *Cattle of Traerbach* had begua to Capture the 18th instant; and we have since received an Account, that the *Garison* is march'd out with the usual Marks of Honour, at two Pieces of Cannon. Letters from *France* say, That their Force before *Gibraltar* were preparing to make a general Assault; but our Accounts from *Spain* of the 26th past it appears, That it must work at least 15 days longer on the *Sap* before they can think of making any Attack; and they add, That the *Marsin's Villadarias's* Forces are very much diminished. Representations have been made to the *Duke of Anjou* from several Parts of *Spain* containing grievous Complaints of the Decay of their Trade; we desire that some Expedient may be found out for Renewing that Commerce with *England* and *Holland*. They write from the *Duke of Vendome's* Camp before *Verue* of the 9th, That they had made a Lodgment upon the Covered-way, and were erecting a Battery there, but that the *Garison* continued to make a very vigorous Defence.

The Governors of the Bounty of *Queen Anne*, for the Augmentation of the Maintenance of the Poor Clergy, do hereby give Notice to all Persons concern'd, That their next Meeting will be at the New Building adjoining the Banqueting-House in *Whitehall*, on Thursday the 11th January next, at 9 a Clock in the Morning.
