32 St. James's Square, London S.W.1.

10th March 1960.

### FACTORIES ACTS, 1937 to 1959

Notice is hereby given that H.M. Chief Inspector of Factories, in pursuance of the powers conferred on him by sub-section (8) of Section 27 of the Factories Act, 1937, as amended by Section 6 of the Factories Act, 1959, has signed a Certificate of Exemption in the following terms:

#### *Shipbuilding and Ship-repairing*

*Precautions against Dangerous Fumes in certain work in Yards and Dry Docks*

#### *Certificate of Exemption No. 1*

In pursuance of the power conferred on me by sub-section (8) of Section 27 of the Factories Act, 1937, as amended by Section 6 of the Factories Act, 1959, I hereby exempt yards and dry docks from the requirements of sub-sections (1) to (7) of the said Section 27 as respects work carried out in confined spaces formed by the structure of any ship or vessel, or of part of any ship or vessel, under construction or repair, subject to the conditions that:

(1) where work has to be done inside any such confined space, in which dangerous fumes are liable to be present to such an extent as to involve risk of persons being overcome thereby—

(a) the confined space shall, unless there is other adequate means of egress, be provided with a manhole, which may be rectangular, oval, or circular in shape, and shall be not less than 18 inches long and 16 inches wide or (if circular) not less than 18 inches in diameter, or in the case of tank wagons and other mobile plant not less than 16 inches long and 14 inches wide or (if circular) not less than 16 inches in diameter; and

(b) no person shall enter the confined space for any purpose unless the following requirements are complied with:

(i) all practicable steps shall be taken to remove any fumes which may be present and to prevent any ingress of fumes and, unless it has been ascertained by a suitable test that the space is free from dangerous fumes, the person entering shall wear a belt to which there is securely attached a rope of which the free end is held by a person outside; or

(ii) the person entering shall wear a suitable breathing apparatus;

(c) suitable breathing apparatus and a suitable reviving apparatus and suitable belts and ropes shall be provided and maintained so as to be readily accessible, and shall be periodically inspected in the manner prescribed in the Breathing Apparatus, Etc. (Report on Examination) Order, 1949 (S.I. 1949, No. 189); and

(d) a sufficient number of the persons employed shall be trained and practised in the use of such apparatus and in a method of restoring respiration.

(2) Without prejudice to the requirements of paragraph (1) hereof a person shall not enter or remain in any confined space to which that paragraph refers for any purpose unless either—

(a) he is ensured of a supply of air adequate for respiration and to render harmless any fumes; or

(b) he is wearing a suitable breathing apparatus.

This Certificate shall remain in force until revoked by the Chief Inspector of Factories.

*J. MacColl, H.M. Deputy Chief Inspector of Factories.*
