

DEPARTMENT OF ECONOMIC AFFAIRS

Secondary Batteries

The Minister of Technology has recently been notified by a number of manufacturers under the early warning arrangements of proposed increases in the prices of certain types of secondary batteries to take account of increases in costs, including increases due to devaluation, since these companies, in common with other battery manufacturers, reduced their prices last year. The batteries in question are secondary lead-acid replacement batteries used for starting, lighting and ignition purposes on road vehicles.

The Secretary of State for Economic Affairs and the Minister of Technology consider that it would be desirable for these proposals for increases in prices to be examined independently by the National Board for Prices and Incomes.

Accordingly, in pursuance of their powers under section 2 (1) of the Prices and Incomes Act, 1966, the Secretary of State for Economic Affairs and the Minister of Technology hereby refer to the National Board for Prices and Incomes for examination the question of increases in manufacturers prices of these types of secondary batteries, including consequential increases in recommended resale prices.

8th February 1968.

DEPUTY LIEUTENANTS COMMISSIONS

Commissions Signed by the Lord Lieutenant of the County of Northumberland

Colonel John Osmond Macdonald Alexander, D.S.O., M.C., T.D., of Greenfield, Wall, Hexham, Northumberland.
