DEPARTMENT OF EMPLOYMENT AND PRODUCTIVITY

PRICES AND INCOMES ACT, 1966

Reference to the National Board for Prices and Incomes

Pay of pilots employed by the British Overseas Airways Corporation

Negotiations have been taking place between the British Overseas Airways Corporation and the British Air Line Pilots' Association with a view to improving the pay and productivity of pilots employed by the Corporation.

These negotiations raise important issues of a general character including the relationship between pay and productivity.

The First Secretary of State and Secretary of State for Employment and Productivity and the Board of Trade, acting jointly in pursuance of their powers under section 2 (1) of the Prices and Incomes Act, 1966, hereby refer for examination and report the pay and productivity of pilots employed by the British Overseas Airways Corporation.

30th May 1968.

PRICES AND INCOMES ACT, 1966

Reference to the National Board for Prices and Incomes

Pay and Conditions in the Civil Engineering Industry

The Operatives Panel of the Civil Engineering Construction Conciliation Board for Great Britain has submitted a claim to the Federation of Civil Engineering Contractors for the minimum rate of pay for labourers to be increased to £15 per week, all other rates within the agreement to be adjusted *pro rata*; and for discussions to take place on a guaranteed 40 hour week. This rate represents an increase of about 14 per cent. over the minimum hourly rate which became operative in March 1968.

There is no evidence to suggest that productivity in the civil engineering industry is increasing at such a rate that pay increases of this order can be absorbed without increasing prices or that there is sufficient control over earnings, particularly on new construction sites, to enable wage drift to be restrained.

In pursuance of their powers under section 2 (1) of the Prices and Incomes Act, 1966, the First Secretary of State and Secretary of State for Employment and Productivity and the Minister of Public Building and Works hereby refer to the National Board for Prices and Incomes for examination the question of pay and conditions in the civil engineering industry and the scope for increasing productivity, with a view to giving guidance on the prices and incomes considerations which should be borne in mind by the parties concerned and indicating the lines on which a settlement consistent with these could be made.

30th May 1968.

PRICES AND INCOMES ACT 1966

Reference to the National Board for Prices and Incomes

Pay and Conditions in the Building Industry

The National Joint Council for the Building Industry is at present considering a claim for a guaranteed weekly wage of £17 11s. 8d. (craftsmen) and £15 0s. 0d. (labourers) on the standard grade A rates and 5s. extra in London and Liverpool. These rates represent increases of about 12 per cent. over the

minimum hourly rates which became operative in March 1968.

There is no evidence to suggest that productivity in the building industry is increasing at such a rate that pay increases of this order can be absorbed without increasing prices or that there is sufficient control over earnings, particularly on new construction sites, to enable wage drift to be restrained.

In pursuance of their powers under section 2 (1) of the Prices and Incomes Act 1966, the First Secretary of State and Secretary of State for Employment and Productivity, the Minister of Public Building and Works hereby refer to the National Board for Prices and Incomes for examination the question of pay and conditions in the building industry and the scope for increasing productivity, with a view to giving guidance on the prices and incomes considerations which should be borne in mind by the parties concerned in the current negotiations referred to above and indicating the lines on which a settlement consistent with these could be made.

30th May 1968.

PRICES AND INCOMES ACT 1966

Reference to the National Board for Prices and Incomes

Pay and Conditions in the Construction Industry other than Building and Civil Engineering

The Government has referred to the National Board for Prices and Incomes the questions of pay and conditions in the building and civil engineering industries. National settlements in the main building industry have considerable influence on the pay and conditions of workers in building activities in other industries and in industries ancillary to the main building industry.

In pursuance of their powers under section 2 (1) of the Prices and Incomes Act 1966, the First Secretary of State and Secretary of State for Employment and Productivity and the Minister of Public Building and Works hereby refer to the National Board for Prices and Incomes for examination the question of the pay and conditions of building workers who are employed in sections of the building industry other than building and civil engineering or in industries other than construction but whose pay and conditions may be influenced by settlements in the main industry (e.g. workers in demolition contracting, terrazzo mosaic laying, monumental masonry, felt roofing, furnace building, steeplejacks; fencing, heating and ventilating, asphaltting, glazing and exhibition contracting; building workers in local authorities and water supply undertakings, Government departments and the National Health Service; electricians in England and Wales, and Scotland; painters and plumbers in Scotland; and building maintenance workers in industry generally), with special reference to the relationship which settlements in the main building industry should have to the movement of pay and conditions of building workers in these industries including their effect on the pay of other maintenance workers.

Lancaster—Carlisle Motorway M.6

The Minister of Transport invites applications from firms of good standing who are prepared to invest not less than £200,000 for the exclusive rights to provide and operate a petrol filling station and catering premises on a fifty-year ground lease at a Service Area to be established at Tebay on the Lancaster-Penrith Section of the M.6 Motorway. This section of the motorway is expected to be completed in August 1970, and it is the Minister's intention that facilities should be available at the Service Area, as soon as possible after the motorway opens.

Between Old Tebay and Hardendale Fell the two carriageways of the motorway will be separated by a distance of 150-200 yards and the Service Area will occupy a site of about 30 acres on the western side of the north-bound carriageway. There will be no direct connection to the Services Area from the south-bound carriageway; the facilities to be provided will be for north-bound traffic only.

The Minister will provide hard standings for vehicle parking areas, internal roads and exterior lighting within the Service Area.

Applicants are invited to put forward schemes within a framework laid down by the Minister. The catering facilities may be constructed in two stages, but the Minister will require the first stage to be completed so as to open not later than October 1970. The remaining catering facilities are to be constructed and opened at a later date when traffic has increased sufficiently to justify them.

Full particulars and forms of application may be obtained from The Secretary, Ministry of Transport, HS Division (Room 3-18), St. Christopher House, Southwark Street, London S.E.1.

The closing date for the return of completed applications is 27th August 1968.
