The period for objecting to registrations made before 1st July 1968 begins on 1st October 1968 and ends on 30th September 1970. Every objection must be made in writing on the special form of objection (C.R. Form 26) available free and post free from me at my office (address as above) and must reach the County Council as registration authority at that address not earlier than 1st October 1968 nor later than 30th September 1970. After the latter date there will be no further opportunity for objecting to registrations made before 1st July 1968; those which are not effectively objected to will become final and definitive. Every objection which is not rejected is noted on the register as soon as possible after receipt, and particulars are sent by me to the person (if any) on whose application the registration was made, and to certain other persons directly interested in the registration. In addition, copies of register entries of objections are sent to local authorities holding copies of the registrations to which they relate.

The noting of an objection on the register does not mean that it is officially admitted to be correct, and it has no immediate effect on the registration. The effect is that, unless the registration is cancelled, or the objector withdraws his objection, the matter will be referred to a Commons Commissioner for decision.

Objections to registrations made after 30th June 1968 may not be made yet; information about this will be published shortly before 1st May 1970, the earliest date for lodging objections. Registrations are independent of each other so that, for example, a registration of land as common land made before 1st July 1968 and not objected to before 1st October 1970 will become final and definitive on the latter date, but if registrations of rights over that land, or claims to ownership thereof, are made after 30th June 1968 objections to such registrations can be made in the second objection period.

Dated 23rd August 1968.

J. Atkinson, Clerk of the County Council.
