DEPARTMENT OF EMPLOYMENT AND PRODUCTIVITY

8 St. James's Square, London S.W.1.

PRICES AND INCOMES ACT 1966

REFERENCE TO THE NATIONAL BOARD FOR
PRICES AND INCOMES

Overtime and Shift Working

1. The White Paper on Productivity, Prices and Incomes Policy in 1968 and 1969 (Cmd. 3590) specifies the criteria against which proposals for pay increases are to be judged. Pay increases include not only increases in basic pay rates, but also in rates for overtime and night or shift working.

2. Experience has shown that the relationship between, on the one hand, the length and pattern of the working week, including hours of overtime and shift work, and, on the other, earnings, costs and productivity, could usefully be explored further. In particular, changes in the number of hours worked and in their distribution over the working week sometimes play an important part in agreements for the major re-organisation of pay structures. At the same time, limits are set by social factors to the patterns of working hours that can be adopted in practice.

3. In pursuance of her powers under section 2 (1) of the Prices and Incomes Act 1966, the First Secretary of State and Secretary of State for Employment and Productivity accordingly refers to the National Board for Prices and Incomes for examination the question of the relationship between the length and pattern of the working week including hours of overtime and shift work, and earnings, costs and productivity.
