*Queen's Commendation for Brave Conduct*

23931828 Sapper William RYANS, Corps of Royal Engineers.

At 1115 hrs. on 3rd October 1970, Spr. RYANS was detailed to accompany a Warrant Officer who was investigating a report of an explosive object jamming a stone separator plant. The object in question was a blind 25lb. H.E. shell. This shell was resting on a grid of separator bars under about 1,000 tons of gravel. It was decided to remove the bars and extract the shell. The separator was on the top of a concrete-lined conveyor belt tunnel. Initially Spr. Ryans was posted at the mouth of the tunnel to act as safety man whilst the Warrant Officer opened the grid. However it was discovered that it was not possible to remove the bars and hold the shell steady simultaneously. Spr. Ryans therefore volunteered to assist the Warrant Officer. For twenty minutes they worked together on this hazardous task. Shingle was constantly falling on them through the open grid restricting their working room and threatening both to bury them and to detonate the shell. About four tons of gravel fell into the tunnel. With great skill and perseverance they succeeded in completing their mission and returning the plant to working order with no damage whatsoever. Spr. Ryans showed a devotion to duty with total disregard of personal safety.
