GAS UNDERTAKINGS ACTS

NORTHERN GAS BOARD

Charges for Town Gas and Natural Gas

For the purpose of these tariffs town gas is defined as gas of a declared calorific value of 500 (or in certain rural areas, 720) British Thermal Units per cubic foot. All other gas supplied by the Board is defined as natural gas.

The five existing tariffs published on the 22nd December 1970 will continue in force. The two optional tariffs confined to users of natural gas are available from the date of the first normal meter reading due after conversion from town gas to natural gas. Attention is drawn to the extension of the Heating and Hot Water Tariff to include air conditioning.

With effect from the first normal meter reading due in 1972, charges under all tariffs shall be at the revised decimal currency prices (£p) shown herein.

All tariffs and prices are subject to the Conditions specified herein. These Conditions shall be deemed to be incorporated in and to form part of such tariffs and prices which continue in force until further notice in replacement of all tariffs prices and Conditions previously published by the Board.

TARIFFS AVAILABLE THROUGHOUT THE BOARD'S AREA

All Purpose Tariff

The following commodity and primary charges apply to any one consumer in any one premises:

1. The commodity charges per therm are:

Therms per Quarter	*Town Gas*	*Natural Gas*
First 13	16·695p	16·170p
Next 13	15·120p	14·595p
All in excess of 26 ...	9·870p	9·345p

2. The primary charge for each consumer having a credit meter is 40·950p per quarter and is irrespective of the quantity of gas (if any) consumed. For each consumer having a prepayment meter the primary charge is 3·150p per therm on the first 13 therms per quarter.

Optional Two-Part Tariff

This tariff comprises a quarterly standing charge of £2·45 irrespective of the quantity of gas (if any) consumed and a commodity charge per therm calculated as follows:

Therms per Quarter	*Town Gas*	*Natural Gas*
First 1,000	8·505p	7·980p
All in excess of 1,000 ...	7·350p	6·825p

The quarterly standing charge is on the basis of a single supply afforded through only one service pipe or meter. A supply to one premises through more than one service pipe or meter may nevertheless be treated as a single supply if the consumer so wishes and notifies the Board in selecting this tariff; in such event the quarterly standing charge will be increased by £1·21 in respect of each additional service pipe or meter through which gas is supplied and the consumer will receive a single quarterly account for the total standing and commodity charges.

Domestic Gold Star Tariff

This tariff applies to gas used wholly or mainly for domestic purposes at a private residence which is in single occupation and of which no part is let or sub-let to a tenant or lodger.

The tariff comprises a quarterly standing charge of £3·82 irrespective of the quantity of gas (if any) consumed and a commodity charge of 7·350p per therm for town gas and 6·825p per therm for natural gas.

OPTIONAL TARIFFS AVAILABLE ONLY FOR NATURAL GAS

Heating and Hot Water Tariff

This tariff applies to natural gas used for bulk water heating and/or bulk space heating (except to raise steam for process work) and/or air conditioning (of at least 25 per cent. of the floor area) by any one consumer in any one premises.

The tariff comprises a commodity charge of 4·725p per therm and a quarterly standing charge of £36·75 plus 4·200p per 1,000 B.Th.U.s per hour rated output capacity of bulk water heating and bulk space heating equipment. Details of a rebate in the June and September Quarters based on the rating of cooling equipment are available.

Gas used for other purposes by the same consumer in the same premises must, at the request of the Board, be separately metered and charged on an appropriate tariff.

Non-Domestic General Two-Part Tariff

The tariff comprises a quarterly standing charge of £336 irrespective of the quantity of gas (if any) consumed and a commodity charge of 4·725p per therm.

CONDITIONS

1. A consumer is charged on the All Purpose Tariff until he elects to be charged on any other tariff. He may subsequently change from one tariff to another subject to Condition 2. The initial selection of a tariff and subsequent transfer from one tariff to another can be effected only by completing and delivering to the Board one of the standard forms available for these purposes at all gas showrooms.

2. Any consumer who elects to be charged on any tariff other than the All Purpose Tariff must continue to be so charged for at least four consecutive quarters unless either he vacates the premises before the end of that period or the operation of the tariff is terminated by the Board under Condition 3.

3. Where the supply is afforded through a prepayment meter any deficiency in the amount of money in the meter must be met in cash either at the time of collection or by payment within seven days thereof at an office of the Board. Failure to do so or, in the case of a credit consumer, failure to pay any gas account on the date specified for payment will entitle the Board to terminate the operation of any tariff other than the All Purpose Tariff without notice until a maximum period of twelve months has elapsed and all outstanding gas charges have been paid.

4. No apportionment of the commodity charges in the All Purpose Tariff or the Optional Two-Part Tariff is made for periods of less than a quarter.

5. All credit consumers' gas accounts are due and payable within 28 days of being rendered. Accounts will normally be rendered quarterly but the Board reserves the right, at its discretion, to render monthly accounts.

6. Each consumer is responsible for the safe custody of all meters, fittings and apparatus owned and provided upon his premises by the Board and for the restoration of all damage thereto, fair wear and tear excepted. Where gas is supplied through a prepayment meter, it is also a condition that the consumer is responsible for the safe custody of monies lying therein and liable to make good to the Board on demand any deficiency in such monies. Only current coins of the Realm may be placed in a prepayment meter and all monies so placed thereupon become the property of the Board.

Supplementary Charge to Prepayment Consumers

7. A supplementary charge of 1·050p per therm will be payable in respect of all gas supplied under any tariff through prepayment meters to cover the additional inherent costs associated with such supplies.

Public Lighting Charges

8. The foregoing tariffs do not apply to gas used for public lighting purposes. The charges for such gas are 11·340p per therm for town gas and 10·815p per therm for natural gas.

Special Agreements

9. Special terms, usually based upon guaranteed annual minimum quantities over a period of years and in certain defined circumstances are available.

MAXIMUM CHARGES FOR RE-SELLING GAS SUPPLIED BY THE BOARD

In accordance with Paragraph 17 of the Third Schedule to the Gas Act 1948, the Board gives notice

that the maximum charges for re-selling gas supplied by the Board shall be 17·095p per therm for town gas and 16·570p per therm for natural gas.

Dated 30th November 1971.

By Order of the Board, *A. G. Doxford*, Secretary.

Norgas House, Killingworth,
Newcastle-upon-Tyne 12.
