**ARMY DEPARTMENT**

**CENTRAL CHANCERY OF THE  
ORDERS OF KNIGHTHOOD**

St. James's Palace, London S.W.1.  
18th July 1972.

The QUEEN has been graciously pleased to approve  
the award of the British Empire Medal for Gallantry  
(Military Division) to the undermentioned:

23907734 Corporal (Acting) Anthony John Bernard  
BOURNE, Royal Corps of Transport.

On 26th January 1972 Corporal Bourne of the  
Royal Artillery Range, Hebrides, South Uist, was  
detailed to prepare a dory and to gather a crew to put  
to sea to attempt the recovery of a drone floating off-  
shore. Corporal Bourne and three volunteers includ-

ing a locally qualified Sergeant coxswain, manned the  
boat under the charge of the Sergeant and put to sea.  
There was an on-shore wind and the sea was  
moderate to rough with fairly heavy surf. About  
200 metres off-shore the dory capsized in the surf  
and the crew were thrown into the water; however  
they managed to right the boat and climb back in.  
At this point one of the volunteers informed the  
others that he could not swim; so, when the dory  
capsized again, Corporal Bourne remained with the  
non-swimmer. The boat was again righted but subse-  
quently capsized a third time. On this occasion  
Corporal Bourne and the non-swimmer were swept  
out to sea together, away from the boat which drifted  
towards the shore. Rescue operations were by then  
in operation from the beach and the two other crew  
members were saved in a comparatively short space  
of time. Meanwhile Corporal Bourne remained with  
the non-swimmer and succeeded in calming him,  
adjusting his life jacket which had become displaced  
and helping him float. Corporal Bourne continued  
thus occupied until he lost consciousness. He was  
rescued after being in the water for some 40 minutes  
and subsequently recovered.

As a result of training Corporal Bourne was well  
aware of the effects of exposure and in particular  
knew of his limited chances of survival during pro-  
longed immersion in water at the prevailing very low  
sea temperature. In spite of this, and the fact that  
he observed and noted the effects that exposure was  
having on his comrade and, therefore, on himself as  
well, he remained steadfastly with the man until he  
himself succumbed to the same effects. Although  
Corporal Bourne failed to save his comrade's life his  
attempts to do so were made to the extreme limit of  
his powers with total disregard for his own safety  
even though he knew that these attempts placed his  
own life in much greater jeopardy. By his gallant  
action he displayed courage, fortitude, resolute deter-  
mination and comradeship of the highest order, greatly  
exceeding the demands of duty.
