

The effect of the Order as confirmed is to divert the public right of way running from a point approximately 90 yards south-east of its junction with Park Mill Lane at map reference 2996 2173 in a generally south-easterly direction for approximately 440 yards and then in a north-easterly direction for approximately 180 yards to the boundary with Wakefield at Alverthorpe at map reference 3045 2156 being part of the path numbered 43 in the former Urban District of Stanley, to a point approximately 90 yards south-east of its junction with Park Mill Lane at map reference 2996 2173 in a southerly direction for approximately 20 yards to Alverthorpe Beck at map reference 2996 2171 thence in a generally southerly direction following the Beck for approximately 130 yards to map reference 3002 2161 continuing in a south-easterly direction with the Beck for approximately 290 yards to map reference 3026 2149 thence in an easterly direction following the Beck for approximately 190 yards to the field boundary at map reference 3043 2148 thence in a northerly direction for approximately 105 yards to map reference 3045 2156.

A copy of the Order as confirmed and of the map contained in it has been deposited at the Reception Desk, County Hall, Wakefield, and may be there inspected free of charge during office hours, Mondays to Fridays.

The Order becomes operative as from 14th April 1980 but if a person aggrieved by the Order desires to question the validity thereof, or of any provision contained therein, on the ground that it is not within the powers of the Highways Act 1959, as amended, or on the ground that any requirement of the Act, as amended, or of any regulation made thereunder has not been complied with in relation to the Order he may, under paragraph 2 of Schedule 2 to the Act as applied by paragraph 5 of Schedule 7 to the Act, within 6 weeks from 14th April 1980 make application for the purpose to the High Court.

R. G. Brooke, Director of Administration

County Hall,
Wakefield WF1 2QW.
11th April 1980.

MISCELLANEOUS PUBLIC NOTICES

PETROLEUM AND SUBMARINE PIPE-LINES ACT 1975

Notice of Application for a Submarine Pipe-line Works Authorisation

Notice is hereby given that the British National Oil Corporation hereby gives notice on behalf of itself and Kerr-McGee Oil (UK) Ltd., Deminex (London) Ltd., BP Petroleum Development Ltd., and Hunt Overseas Oil Inc., in accordance with the provision of Part 1 of Schedule 4 to the Petroleum and Submarine Pipe-lines Act 1975 that it has made an application to the Secretary of State for Energy for the grant of an authorisation for the construction and use of a 6-in. submarine pipe-line for the conveyance of crude oil between Site AA at co-ordinates 58°06'55.17"N 03°05'09.87"W and Site BB at co-ordinates 58°08'54.20"N 03°01'10.40"W and an 8-in. submarine pipe-line for the conveyance of seawater between Site AA and Site BB at the co-ordinates described above.

A map delineating the route of the proposed pipe-lines and providing certain further information may be inspected at the places listed in the Schedule to this notice from 10 a.m. to 4 p.m. on each weekday from the date that this notice is published until the date mentioned in the next paragraph of this notice.

Pursuant to a direction of the Secretary of State, representations with respect to the application may be made in writing and addressed to the Secretary of State for Energy at Thames House South, Millbank, London SW1P 4QJ, not later than 2nd May 1980 and should bear the reference PET 1249/462/46 and state the grounds upon which the representations are made.

J. R. Caydon, Secretary

The British National Oil Corporation,
150 St. Vincent Street,
Glasgow G2 5LJ.
2nd April 1980.

TECHNICAL ANNEX TO PUBLIC NOTICE

8-in. Seawater Pipeline and 6-in. Oil Pipeline between the Beatrice Field AA Platform and the Beatrice Field BB Platform

At the request of the Secretary of State for Energy, and as agreed by the Pipelines Inspectorate, the British National Oil Corporation presents the following information concerning the 8-in. seawater pipeline and 6-in. oil pipeline between the AA Platform and the BB Platform in the Beatrice Field.

Pre-Commissioning Testing

The pipelines will be tested to the satisfaction of the Pipelines Inspectorate prior to commissioning.

Design Pressure

The maximum possible pressure in each pipeline will be less than the pressure for which the pipeline is designed.

Leak Detection

Pressure and flow will be monitored at all times. Provision will be made to ensure that the pipeline can be manually or automatically isolated from the rest of the facilities at each Platform. In the event that a leak is detected, an underwater survey will be carried out to locate it.

Emergency Action

In the event that a major break occurs in either pipeline, the following emergency action will be taken:

1. All oil or seawater delivery into the pipeline will be manually or automatically stopped.
2. Department of Energy Pipelines Inspectorate will be notified immediately.
3. An underwater survey will be carried out to determine the location of the break.
4. Should pollution result from the discharge of crude oil, the emergency pollution control systems held in constant readiness by the British National Oil Corporation and by the UK Offshore Operators Association will be mobilised.

Recommissioning

In the event of a pipeline break, contingency plans to be agreed with the Department of Energy Pipelines Inspectorate will be carried out for the repairing of the pipeline and proving its integrity before putting it back into service.

Trenching

The pipelines will be trenched as far as is practicable such that the tops of the pipelines are 1 metre below the level of the seabed.

Limits of Deviation

The pipeline will be laid within a boundary of 100 metres on either side of the agreed route.
