Proposed Diversion of the Newport-Shrewsbury Trunk Road A49 at Leominster in the county of Hereford and Worcester.

The Department of Transport has today announced that it intends to alter its proposal for a by-pass of Leominster in the county of Hereford and Worcester. This announcement follows consideration of the responses received to the public consultation undertaken between 28th September and 9th November 1979.

The modification which the Minister proposes to make is to omit approximately 1½ miles at the northern end between The Wharf and Park Farm. It is considered that the arguments against that length are sufficient to merit its deletion from the current proposals.

Other representations were concerned with the length between Worcester Road (A44) and Ludlow Road (A49). Whilst no major realignment is proposed as a result of the points made, the Department will be looking in detail to see how the adverse effects can be minimised.

Following the consideration of these design modifications the Department will then proceed with the preparation and publication of draft statutory orders at which stage there will be a further opportunity for the public to comment and if necessary lodge objections to the proposed works. If there are objections it may be necessary to hold a local public inquiry.
