

Any person who considers that the publicity given in respect of any road NOT included in the Schedule was not sufficient, in the particular circumstances of his case, to make him aware of the right to claim or when to do so, should write to the above address stating grounds for claiming together with the name of the road and the address or description of the land or property concerned.

For the purpose of calculating interest on any compensation payable, successful claims will be treated as if they had been made during the original claim period. Compensation payable on claims received later than 4 weeks from the date this advertisement appears will not bear interest for the period between 13th November 1980 and the date of claim unless a similar claim was made before 13th November 1980, but disallowed because it was too late. It is therefore important to write to the department within 4 weeks of the date of this publication.

The Department cannot guarantee that any individual claim will be admissible or that any compensation will be payable.

*(Under the 1973 Act compensation may be claimed for depreciation in the value of property due to physical factors caused by traffic using a road which has been newly constructed or improved and opened or reopened to public traffic on or after 17th October 1969. Only a person holding an interest in the property on the date of road opening or reopening is eligible to claim.)

J. W. Fellows, a Superintending Engineer in the Department of Transport. (Ref. T5173). (24 SI)

SCHEDULE
