Rome, Nov. 21. N. S. Tho' it has been confidently said, that the Pope intended to make a Promotion of Cardinals, 'tis now believ'd that there will hardly be any till a Peace is concluded between the Parties contending for the Spanish Monarchy. The Election of the Baron de Schrottenback to the Bishoprick of Olmutz, having been disapprov'd by this Court, the Prince of Lorraine has still some Hopes of obtaining it. On Sunday the Duke de Sermonetta Gaetani proceeded on his Journey from Milan to Naples, having several Dispatches of Importance for the Vicroy of that Kingdom; and Yesterday came hither the Prince of Avelino, to reside here in Quality of Ambassador from his Imperial Majesty. 'Tis discours'd here, that the Emperor has form'd some Pretensions to the City of Sienna, in the Territories of the Grand Duke of Tuscany; which is the reason of his having caus'd six or seven thousand of his Troops to march into that Country. The Abbot de Livri is also arriv'd, in order to execute the Office of Auditor of the Rota, in the room of the Abbot de Palignac; and has been since entertain'd with the Duke d'Atri, and Cardinal Aquaviva by the Cardinal de la Tremouille. Monsieur Molinez is gone to take Possession of the Archbishoprick of Saragossa, lately conferr'd upon him by the Duke of Anjou. There has been an Earthquake at Aquila in the Abruzzo, but without doing any Damage. They write from Venice, that two of their Ships, which were taken and carried into Marsailles some time since by the French Privateers, have been condemn'd as Prize, and they are selling off their Cargoes, which are valued at One Million five hundred thousand Crowns.

Dresden, Decemb. 4. N. S. It is uncertain whether King Augustus will come into these Parts this Winter, that Journey depending altogether upon the Success of his Affairs in Pomerania. Letters from Leopold of the Twenty-first past say, that the Crown-General had dispatch'd an Express to his Polish Majesty, with an Account of what had pass'd in the late Conferences held there about the Repartition of the Winter-Quarters of the Muscovites Troops. 'Tis reported, that the Czar has discharg'd several Officers from his Service, and likewise reform'd several Regiments; that the Town of Caminski, upon the Black Sea, has been deliver'd up to the Turks, the Fortifications of it having been first demolish'd; but, that Asof will not be Surrender'd till the King of Sweden and Palatine of Kiow have quitted the Turkish Dominions. The sieur Smiegel-ski is gone to Bender, with Letters from King Stanislaus to his Suedish Majesty, containing a Journal
