NOTICE OF PROPOSALS FOR VARYING A LICENCE TO ABSTRACT WATER FROM THE RIVER LUNE

Notice is hereby given that the North West Water Authority, in pursuance of section 42 of the above Act have formulated proposals for temporarily varying licence serial number 26/72/5.26/20 which authorises them to abstract 280 megalitres (61.59 million gallons) of water per day from the River Lune upstream of Forge Bank Weir in the Parish of Quernmore at National Grid Reference SD 514648.

Normally the licence does not permit abstraction of water when the flow in the River Lune at Skerton Weir is less than 365 megalitres (80 million gallons) per day and the proposed variation is to authorise, for a temporary period, i.e., until 31st December 1986, the abstraction of a quantity of water not exceeding 20 megalitres (4.4 million gallons) per day when the flow in the river at Skerton Weir is less than 365 megalitres (80 million gallons) per day.

The reason for the temporary variation is to allow abstraction from the River Lune at all river flows so that the water can be pumped continuously through the pipeline and tunnel between the River Lune and the River Wyre to prevent any build up of gases. The operation of the Lune-Wyre Transfer System in this manner would continue whilst further investigations were carried out and any necessary long term structural modifications were designed and brought into operation. (Application is also being made to the Secretary of State for the Environment for a temporary variation of the Order under the Water Resources Act 1971 which authorises the discharge of water from the Lune-Wyre Transfer System into the River Wyre. This application, which is to authorise a discharge of 20 megalitres (4.4 million gallons) of water per day when the flow in the River Wyre exceeds 2,300 megalitres per day but does not exceed 8,000 megalitres per day is currently being advertised.)

A copy of the proposals and of any map, plan or other document prepared in connection with them may be inspected free of charge at Dawson House, Liverpool Road, Great Sankey, Warrington WA5 3LW, and at Pennine House, Stanley Street, Preston PR1 4DR, at all reasonable hours during the period beginning on 9th November 1984 and ending on 7th December 1984. Any person who wishes to make representations about the proposals should do so in writing to the Secretary and Solicitor, North West Water Authority, Dawson House, Liverpool Road, Great Sankey, Warrington WA5 3LW, before the end of the said period.

After the expiry of the said period the Authority will be entitled to pass a resolution by virtue of which the said licence will be varied as proposed unless the Secretary of State for the Environment either in consequence of any

representations made with respect to the proposals or otherwise requires the application for the variation to be made to him.

W. H. Crackle, Secretary and Solicitor, North West Water Authority, Dawson House, Great Sankey, Warrington WA5 3LW.

DISCHARGE OF WATER INTO THE RIVER WYRE

Notice is hereby given that the North West Water Authority have applied to the Secretary of State for the Environment for an Order under the above Act to vary temporarily certain provisions of the North West Water Authority (Lune and Wyre Transfer of Water) Order 1975 ("the 1975 Order").

At the present time the 1975 Order authorises the Authority to discharge water, which has been abstracted from the River Lune and pumped through the pipeline and tunnel between the River Lune and the River Wyre, into the River Wyre at Abbeystead. However, Article 10 (3) of the 1975 Order prohibits any discharge of water into the River Wyre when the flow in the river immediately above the point of discharge is at a rate of 2,300 megalitres (506 million gallons) per day or more.

This present application is to vary temporarily (until 31st December 1986) the provisions of Article 10 (3) of the 1975 Order, by allowing a discharge of up to 20 megalitres (4.4 million gallons) of water per day when the flow in the river immediately above the point of discharge is at, or above, a rate of 2,300 megalitres per day, but does not exceed a rate of 8,000 megalitres per day.

The reason for this application is to enable water to be pumped continuously through the pipeline and tunnel to avoid any build up of gases. The operation of the Lune-Wyre Transfer System in this manner would continue whilst further investigations were carried out and any necessary long-term structural modifications were designed and brought into operation. (This operation would also require a temporary variation of the Authority's licence to abstract from the Lune so that 20 megalitres could be abstracted at all river flows. Notice of this variation is currently being advertised.)

In the opinion of the Authority the discharge of 20 megalitres of water per day into the River Wyre when flows in the river were at or above 2,300 megalitres per day would have no adverse effects on the flow, level and quality of the water in the River Wyre. No discharges would be made when the river was approaching bank-full condition, so that there would not be any increased risk of flooding.

Notice of this application is being published in the *Lancaster Guardian*, the *Garstang Courier* and the *Lancashire Evening Post* on Friday, 9th and 16th November 1984, and has been served upon the Lancashire County Council, and the Fylde, Lancaster and Wyre District Councils.

A copy of the draft Order which has been submitted to the Secretary of State for the Environment and of any relevant map or plan may be inspected free of charge at Dawson House, Liverpool Road, Great Sankey, Warrington WA5 3LW, and at Pennine House, Stanley Street, Preston PR1 4DR, at all reasonable hours during the period beginning on 9th November 1984 and ending on 21st December 1984.

Any person who wishes to object to the making of the Order should do so in writing to the Secretary of State for the Environment, Room B464, Romney House, 43 Marsham Street, London SW1P 3PY, before the end of the said period. It is requested that a copy of any objection should be sent to the undersigned.
