

Oil Division, at the above address, on 30th September 1986, or 7th May 1987. No application will be accepted outside these times. All applications should be accompanied by the fee calculated in accordance with Regulation 10 (1). Guidance Notes on the material with which applicants may support the application and on its presentation are available from the Department at the above address.

Conditions

In all cases where the Secretary of State favourably considers an application, a licence will be offered on condition that, within 14 working days of the date on which the Secretary of State makes the offer, the applicant:

- (a) confirms his acceptance of a work programme proposed by the Secretary of State following discussion with the applicant; and

- (b) remits to the Secretary of State the appropriate payment for the licence.

Where an applicant is successful in an application for an exploration licence under the above Regulations for the whole or part of the original exploration licence area, the Secretary of State will be prepared to consider, without commitment, arrangements to effect a surrender of the relevant area comprised in the existing exploration licence so as to enable the new exploration licence to take immediate effect.

Consideration for Exploration Licences

The Secretary of State, with the consent of the Treasury, has determined that until further notice the consideration for exploration licences under the above Regulations shall be, upon the acceptance of the offer of a licence, a non-recurrent fee calculated at the rate of £75 per square kilometre in the licensed area. NORTH-WEST WATER AUTHORITY

DROUGHT ACT 1976

Temporary use of Pumps to Abstract Water (including Compensation Water) from Ennerdale

Notice is hereby given that the North West Water Authority has applied to the Secretary of State for the Environment for an Order under section 1 of the Drought Act 1976, to authorise the temporary (i.e., until 31st October 1986), use of pumps to abstract the compensation water and also water required for supply from Ennerdale Water.

The reason for this application is that the Authority's present licence serial No. 27/74C/3/S/B only authorises the abstraction from Ennerdale Water of water required for supply and for compensation water by gravity. In order therefore to maintain abstraction of water from the lake for water supply and compensation water purposes, if the lake level continues to fall, the Authority will have to resort to pumping.

At the present time the Authority is not seeking to reduce the compensation water flow of 32 megalitres per day.

Any objections to the proposed Order must be made in writing to the Secretary of State for the Environment, Room B449, Romney House, 43 Marsham Street, London S.W.1, within seven days of publication of this notice, and it is required that a copy of any such objection be sent at the same time to the undersigned.

W. H. Crackle, Secretary and Solicitor, North West Water Authority.

24th July 1986.
