The effect of the designation of the conservation area may be summarised as follows:

- (a) where any application for planning permission for development of land in or adjacent to the conservation area is made to the Council and the development would, in the opinion of the Council, affect the character or appearance of the conservation area, the application will be subject to the special procedure in section 28 of the Town and Country Planning Act 1971 as amended;
- (b) anyone wishing to demolish a building or part of a building situate within the conservation area must first apply for consent to demolition to the local planning authority. This is not taken to be included in a planning permission for re-development of the site unless, in granting the planning permission, the authority states that it includes consent to demolish the building. Some buildings may be exempt from this requirement;
- (c) anyone wishing to cut down, top, lop or uproot a tree situate within the conservation area must give 6 weeks prior notice of his intention to the local planning authority.
