##### *Brandeston and Framlingham Conservation Areas*

Notice is hereby given that the Suffolk Coastal District Council as district planning authority have designated the following areas as Conservation Areas under section 277 of the Town and Country Planning Act, 1971 (as amended). Conservation Areas are areas of special architectural or historic interest within which the relevant authorities are required to pay special attention to the desirability of preserving or enhancing their character or appearance:

*Brandeston* - The linear village, which has developed along a medieval trade route, the two extremities clearly defined by Red House Farm and Brook Lane. The area includes Brandeston Hall and All Saints Church and the immediate area of land linking these to the village.

*Framlingham* - an extension to the existing Conservation Areas to include the land adjacent to the River Ore as far as Fairfield Hall and the cluster of historic building around Tomb House.

The precise boundaries of the above areas are defined on maps which may be seen during normal office hours at the address given below. The designations come into effect on the date of the publication of this notice and they will be registered in the Register of Local Land Charges. In the case of Framlingham the two existing Conservation Areas remain in force.

Notice is hereby given that the above acts provide that non-listed buildings and parts of buildings (with certain exceptions) within Conservation Areas may not be demolished without consent of the local planning authority. An application for consent to the

demolition of such a building must be made as a separate application for conservation area consent, whether or not it is accomplished by a planning application for redevelopment. The Acts also provide that anyone wishing to cut down, top, lop or uproot any tree (with certain exceptions) within a Conservation Area must give the District Council 6 weeks notice of his intention. A notice under these provisions must state the work proposed and must give particulars to identify the tree concerned.

Planning applications involving development which is considered to affect the character or appearance of the Conservation Areas will be advertised by the local planning authority for public comment. Applications for the erection of buildings will not normally be accepted in outline form by the authority, who will seek to ensure that all alterations, redevelopment and any new development are of high architectural standard and enhance the character of the designated area. In addition, statutory undertakers are asked to pay special attention to the character and appearance of the area in the provision and maintenance of their respective services.
