H E King has confented, that the Letters Her Majeity's Subjects may have occasion to write to Sweden, shall pass through his Dominions and be fent from Elfinore to Elfinburg by an Exprese who is to bring back the Answers. The finall equ dron and the Artillery which had been for some time in Pomerania, is returned to this Place. Three Days ago the Fleet likewife arrived, and is to be laid up for the Winter.

Berlin, December 2. N. S. This Morning the King went to Kepnick to review the Artillery-men, and from thence he proceeded to Potidam. A great number of People having retired from hence into other Countries, for fear of being prefied into the Service, his Majefty has published an Edict, in which he prohibits his Subjects from leaving his Dominions for the future without a License, and enjoyns those who are gone away, to return to their former Dwellings upon Pain of having their Eflates and Goods confilcated, and their Names posted up-on the Gallows. Count Flemming set out a few Days ago for Warfaw, and intends to be here again in three Weeks. The Saxon Troops that were in Pomerania are to march into Poland, except one Regiment of Horse that is to return into Saxony. Monsieur Marstal de Bieberstein arrived here Yefterday from the Hague.

Hanover, November 28. N. S. Since the Court came from Gohre, fome of the Elector's Troops in the Emperor's Service have been fent for home, and their Quarters are already appointed. It is thought the whole Body will likewife be recalled in a fhort time. The King of Denmark has declared, that he is willing to renew the Negotiations relating to the Affairs of Holftein, and that he will allow a fufficient quantity of Provisions to be fent into Tonningen once a Week, which shall be continued as long as the Treaty lasts. It is believed the King of Pruffia will fuspend the March of his Troops defigned for that Dutchy, till he is informed of the Czar's Sentiments, in relation to Prince Menzikoff's Negotiations in Pomerania, and at Berlin. Some Letters from Conftantinople bring an account, that the Grand Signior had renew'd his Promifes to affift the King of Sweden. But we have fince received certain Advice from Warfaw, that the Turkish and Tartarian Envoys had given Affurances of their Mafters Intentions to observe the Treaty of Carlo-

witz, and continue in Peace with Poland. Hamburgh, December 1. N. S. The Danish En-voy at Berlin has declared to the Ministers of that Court, that the King his Master, to shew the Re-

Slefwick till he was reimburfed of his Expences, or received some other Equivalent. The Ministers of Holftein are not at all pleafed with this Declaration, and pretend they can't enter upon any Treaty, having put their Affairs into the Hands of his Prussian Ma. jefty, who has taken them into his Protection, and may difpole of them as he thinks most convenient. The Saxon Forces in Pomerania have receiv'd Orders to march into Poland. The Governor of Wifmar perfifts in his Refolution not to admit any Troops but those of Mecklenbourg into that Place unless he is compell'd to it, as Monsieur Meyerfeldt was in his Government. They write from Copenwas in his Government. They write from Copen-hagen, that Advice was brought there from Peterf-bourg, of Prince Menzikoff's being Arrefted, by Order of the Czar, for the Treaty he had made with the King of Prufka, in relation to Stetin. Letters from Sweden bring an Account, that 'their Army in Finland had been defeated by the Mufco-vites between Tavafthaus and Vafa. The Lofs of the Battle war the Battle was imputed to the Horfe, that went away upon the first Discharge, leaving the Foot exposed to their Enemies, who kill'd a great number of them, and took Fisteen hundred Prison³ ners. The Senate of Stockholm being inform'd of this Misfortune, immediately countermanded Six thousand Men that were ready to be Transported into Finland, as being of no further use in that Province, which is now look'd upon to be entirely lost. The States of the Kingdom were very pressing with the Senate to make a Peace. The fame Let-ters confirm our former Accounts, that the Prin-cess of Sweden had accepted of the Regency. The Nobility were very much divided in their Onicefs of Sweden had accepted of the Regency. The Nobility were very much divided in their Opinions about the Succeffion, in cafe any Accident fhould happen to the King; fome being for the Princefs, and others for the young Duke of Holftein.

Bruffels, December 7. N. S. The States General have fent five Battalions of their Troops from Mons, Charleroy, and Namur, to reinforce their Garri-fons upon the Meuse in the Upper Quarter of Guelderland. We have receiv'd advice from Paris, that Prince Eugene and Mareschal Villars were arrived at Raditadt, in order to treat of a Peace between the Emperor and France. Prince Eugene affured the Mareschal, that his Imperial Majesty's Intentions were fincere to agree to reasonable Terms, but that the Treaty should be carried on without the intervention of any Foreign Power. On the 16th, the Capitulation of the Castle and Forts of Fri-bourg was Sign'd, by which it was agreed, That the Garrison should march out in three Days, with all Marks of Honour, and be conducted to the Ins-Court, that the king his Maiter, to inew the Ke-gard he has for his Pruffian Majelty, and his fincere Befire to continue in Friendihip with him, would with them four Pieces of Gannon, and two Mortars p confent to renew the Negotiations with the Mini-that Waggons fhould be provided for them to carry fters of Holfteing either at Gottorp, Copenhagen, away their Baggage, and whateyer they had loft du-or Brunfwick. He has likewife fittimated, that the King of Denmark might be prevail'd on to evacuate Holftein, and to raile the Blockade of Lonningen, is which they wene taken; that the Sick and provided the Treops of fome Neutral Prince-were brunfwick in Garrilon there during the War, but that infhed with all Noceffaries gratis; that the Townf. placed in Garrison there during the War, but that nished with all Noceffaries gratis; that the Towns. he was resolv'd to keep Possession of the Dutchy of men might have leave to go away at any time within three
