OFTEL

CHARGES FOR CERTAIN TELECOMMUNICATION SERVICES PROVIDED BY BRITISH TELECOM

Proposed modifications of the Conditions of the Licence granted to British Telecommunications Plc ("British Telecom") to run telecommunication systems:

- (1) The Director General of Telecommunications ("the Director") hereby gives notice that he proposes, under section 12 of the Telecommunications Act 1984 ("the Act"), to modify the Conditions in the Licence granted under section 7 of the Act to British Telecom to run telecommunication systems by amending Condition 24A.

The Reasons for the Proposed Modifications:

- (2) The purpose of the proposed modifications is to introduce a rule to control the amount by which British Telecom may increase the aggregate prices of its main inland private circuit services in the same manner as the existing control on the main public switched network services, and to clarify the operation of both rules in relation to new and substitute services.
- (3) Many representations have been made to the Director expressing concern about the large increases in private circuit prices in recent years. While recognising that a major part of those increases was needed to correct prices which had been held at unsustainably low levels in the past, the Director considers that safeguards are now necessary to give customers some reassurance about future price trends, as British Telecom still has a dominant position as regards the provision of these services.

The Effect of the Proposed Modifications:

- (4) The proposed price control rule will have the effect of limiting the extent to which British Telecom may increase the aggregate prices of its main inland private circuit services (connection

charges and rentals) in any year of the four years in the period from 1st August 1989 to 31st July 1993 by a "controlling percentage" set by reference to the Retail Prices Index (RPI). In the first year that controlling percentage will be the percentage change in the RPI between February 1988 and June 1989, but in each of the succeeding years it will be the percentage change in the RPI in the year to the previous June.

- (5) The new rule will apply to a "basket" of services including all British Telecom's existing inland terrestrial private circuit services (except certain circuits used for broadcasting services or closed circuit television services or provided to other licensed public telecommunications operators). As with the price control on public switched network services, the Director will have the power to determine, after consulting British Telecom, such reasonable adjustments to the operation of the price control rule as he considers appropriate to reflect any material changes in the range of private circuit services offered by British Telecom, such as the introduction of a new service in substitution for an existing service. He will also have the power to determine that wholly new services, whether private circuit or public switched network services, should be covered by the appropriate price control rule once a full year's revenue is reflected in British Telecom's accounts.
- (6) The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and are not withdrawn.
- (7) Any persons whose interests are likely to be affected by the modifications, and who wish to make representations or objections in respect of them, should do so in writing to Miss Frances Chapman, OFTEL, Atlantic House, Holborn Viaduct, London EC1N 2HQ (stating their interests and the grounds on which they wish to make representations or objections) before 13th November 1989. Copies of the proposed modifications, together with a fuller explanation of the need for them, may be obtained from OFTEL (telephone: 01-822 1610). (43 SI)

WATER RESOURCES ACT

NORTH WEST WATER LIMITED

DROUGHT ACT (1976)

The North West Water Limited (Ullswater) (Drought) Order 1989

Notice is hereby given that the Secretary of State for the Environment has in exercise of the powers contained in section 1 of the Drought Act 1976 made the above-mentioned Order which came into operation on 5th October 1989, and which will have effect until 31st January 1990.

The effect of the Order is to authorise the Company:

(1) To construct and maintain a temporary weir across the River Eamont near Pooley Bridge sufficient to raise the level of the water in Ullswater to 476.0 feet above ordnance datum (Liverpool). It is however a condition of the Order that:

(a) when the natural flow in the River Eamont, i.e., if the temporary weir had not been constructed, would have equalled or exceeded 10 million gallons per day, the Company will discharge, or permit to flow over or past the weir water at a rate of 10 million gallons per day;

(b) when such natural flow, as described above, would have been below 10 million gallons per day, the Company shall not impede or reduce such flow.

(2) To abstract up to 80 million gallons per day from Ullswater at its intake near Gale Bay provided the flow in the River Eamont at Pooley Bridge is not less than 10 million gallons per day.

(3) To disregard the overall limitation of 10038 million gallons in any period of 12 consecutive months in respect of all the water abstracted during the period of the Order.

However, in addition to the above obligations under the Order, the Company has given an undertaking that:

- (1) No abstraction will take place from Ullswater when the flow in the River Eamont falls below 15 million gallons per day measured at Pooley Bridge Weir and
- (2) Notwithstanding the fact that the natural flow into the River Eamont has been as low as 8.23 million gallons per day in mid July 1989, it will endeavour to maintain the river flow at 10 million gallons per day by adjustments to the temporary weir at Pooley Bridge.

Copies of the Order may be inspected at the Company's offices at Mintsfeet Road South, Kendal, Cumbria.

J. R. Tetlow, Company Secretary, (Ref. 102/01/13/ECD)

NORTH WEST WATER LIMITED

DROUGHT ACT (1976)

The North West Water Limited (River Lune) (Drought) Order 1989

Notice is hereby given that the Secretary of State for the Environment has in exercise of the powers contained in section 1 of the Drought Act 1976 made the above-mentioned Order which came into operation on 5th October 1989, and which will have effect until 31st October 1989.

Normally the Company's abstraction of 280 megalitres per day from the River Lune upstream of Forge Bank Weir is subject to a condition in its licence that the flow, measured at Skerton Weir, is not less than 365 megalitres per day. The Order temporarily relaxes this condition by allowing the Company to abstract up to 125 megalitres per day when the flow measured at Skerton Weir is less than 365 megalitres per day, provided that the quantity of water abstracted at any one time does not exceed one third of the residual flow measured at Skerton Weir. However, to protect fishery interests, the Company has given an undertaking that there will be no abstraction of water from the River Lune once the flow measured at Skerton Weir falls below 180 megalitres per day, and will operate its abstraction accordingly. As the Order only remains in force until 31st October 1989, and in view of the continuing dry weather and deficiencies in supplies of water, the Company will be applying to the Secretary of State to extend the operation of this Order until 31st January 1990.

Any objections to the Company's application to extend the period of the Order must be made in writing to the Secretary of State for the Environment, Room B449, Romney House, 43 Marsham Street, London SW1P 3EB, within 7 days of publication of this notice, and it is requested that a copy of such objection be sent at the same time to the undersigned.

TOWN AND COUNTRY PLANNING ACTS

COTSWOLD DISTRICT COUNCIL

TOWN AND COUNTRY PLANNING ACT 1971

Conservation Areas at Ablington, Ashley, Bledington, Clapton on the Hill, Culkerton, Donnington and Farmington

Notice is hereby given that the Cotswold District Council has designated areas in the above-mentioned places, in the county of Gloucestershire, as Conservation Areas, pursuant to section 277 of the Town and Country Planning Act 1971.

Maps of the designated areas have been deposited at the offices of the Cotswold District Council at Trinity Road, Cirencester and Oxford Street, Moreton in Marsh, and may be inspected during normal office hours. The areas comprise:

1. *Ablington*: Virtually the entire village is designated, between Rosebank and Crab Tree Cottage, the main exceptions being The Cottage, Cowfields and Hinton Farm Cottages. The River Coln marks the southern part of the boundary.
2. *Ashley*: The entire settlement is included, apart from modern agricultural structures at North Farm and the isolated groups of buildings known as Manor Farm Cottages, North Farm Cottages and Linchbank Cottage.
3. *Bledington*: This Conservation Area recognises the older parts of the village, centred on Church Road, Chapel Lane and Main Street. The modern housing developments to the south of Chapel Lane, and at New Road and Old Forge Close (apart from the undeveloped land fronting Main Street) are all omitted from the designation. Other omissions include modern agricultural structures at Banks Farm and University Farm, together with some modern or substantially altered houses along Stow Road and Chapel Lane. The large field between Little Close and Trinders is also not part of the designation.
4. *Clapton on the Hill*: Most of the settlement is designated. The main exceptions are houses and agricultural buildings to the north of Church Farm and Murray Cottage, along with a group of mostly modern dwellings around School House.

5. *Culkerton*: The whole of Culkerton falls within the designation, including large open spaces at Manor Farm, Holt Farm and the village green.
6. *Donnington*: Most of the village is included in the Conservation Area, the main exception being scattered dwellings to the south of Weasel and various structures to the north-west of Donnington Manor.
7. *Farmington*: The only part of Farmington omitted from the designation is the separate group centred on The Sycamores. The fields boasting earthworks, to the north and west of Manor Farm, are within the Conservation Area.

In addition, the following existing Conservation Areas have been reviewed.

Aston Subedge, Barnsley, Great Barrington, Moreton in Marsh, Upper Slaughter and Upper Swell.

1. *Aston Subedge*: Four minor alterations have been made. Land at Manor House, and south-east of Hillfoot is deleted, while the boundary has been enlarged to include land to the east of The Orchard House. Smithy Cottages are also brought within the amended designation.
2. *Barnsley*: Alterations have been made to include land to the east of Wenmans, woodland on the southern approach to the village and land between Barnsley House and Church Farm.
3. *Great Barrington*: A major review has resulted in the whole of Barrington Park being brought within the Conservation area (which previously only covered the village). Further extensions have resulted in Home Buildings, The Fox Inn and the Telephone Exchange becoming designated, while two deletions have been made to exclude modern agricultural structures at Park Farm and Barrington Farm.
4. *Moreton in Marsh*: Numerous amendments have been made to recognise physical boundary changes and to review the elements within the Conservation area. The principal alterations bring Queen Victoria's Garden, land to the west of the station approach and the Horse Pool within the designation. The review also deletes Swan Close, the site of the new supermarket on the northern approach, as well as a number of minor sites around the town.
5. *Upper Slaughter*: Three additions bring in land to the east of Manor House, a site to the south and east of The Dingle and land to the north of Cambrays.

6. *Upper Swell*: An amendment has been made to delete modern agricultural structures to the south of Upper Swell Farm and to follow a new boundary to the west of Elm Tree Drive.

The purpose of designation is to enhance the character or appearance of these areas of special architectural and historic interest, and to ensure that special regard is paid to the architectural and visual qualities of the designated areas when proposals are under consideration. Subject to certain exceptions, 6 weeks prior notice has to be given to the Local Planning Authority in respect of a proposal to cut down, lop, top, uproot and cause any wilful damage to any tree in the Conservation Area. Listed Building Consent is required for the demolition of buildings or walls, whether Listed or not, within the designated area. Failure to give such notice or to obtain such consent may constitute a criminal offence.

STATUTES IN FORCE

Complete ★ Convenient ★ Up-to-date

Statutes in Force is the official revised edition of the statutes and sets out the text of the current statute law.

It is the only official statement of the complete legislation and incorporates all specific amendments subsequently brought about by both primary and secondary legislation.

The complete edition consists of 104 looseleaf binders, holding some 60,000 pages in all.

The Acts are arranged in 125 subject groups, which can be purchased separately. Subjects include:

Charities	Insolvency, Bankruptcy and Winding Up
Companies	Landlord and Tenant
Contract	Legal Aid
Employment	Partnerships and Business Names
Family Law	Sale of Goods
Friendly and Other Societies	Stamp Duty
Income, Corporation and Capital Gains Taxes	Tort and Delict

Individual Acts showing all subsequent amendments to the original legislation can be supplied, and an *updating service* is also available to supply customers automatically with subsequent amendments to the legislation — for the whole set, for subject groups, or for individual Acts.
