WATER ACTS

THE MID KENT WATER COMPANY

WATER ACT 1989 SECTION 131(4)(A) AND (F)

Drought Order

Notice of Application for Emergency Orders to Vary Licence Conditions to Groundwater Sources and to Abstract Water from New Unlicensed Sources.

In view of the exceptional shortage of rainfall throughout 1989 a considerable delay to recharge of aquifers has occurred threatening a serious deficiency of supplies of water in the statutory area of the Mid Kent Water Company in 1990.

Notice is hereby given that in order to ensure the maintenance of essential supplies of water to its customers this summer, the Company is applying to the Secretary of State for the Environment for an Order pursuant to sections 131(4)(a) and (f) of the Water Act 1989 to modify licence conditions relating to the abstraction of water from the Chalk Strata at Boughton, Wineycock Shaw, Howfield, Thanington, Godmersham, Chilham and Hoplands Farm Pumping Stations and from the Lower Greensand Strata at Borough Green (including Nepicar Lane) and Charing Pumping Stations. The modifications would provide for temporary increases in the existing authorised maximum day abstraction quantities which would also necessitate a temporary increase in the authorised annual quantity in certain cases. The proposed modifications would also involve the temporary suspension of the compensation water provisions for the Chilham and Godmersham licences and the temporary suspension of the restricted abstraction conditions for the Howfield and Thanington licences with respect to the 104.6 Mld. (23 m.g.d.) flow condition in the River Great Ouse as measured at the Horton Gauging Station. In addition, the Company has constructed two new sources into the Lower Greensand Strata at Park Barn, Ryarsh (Ryarsh No. 3) and at Harple Lane, Detling and also another new source penetrating the Chalk Strata at Stockbury, which are at present unlicensed but available for assisting in meeting projected demands this summer. The Company is applying to the Secretary of State for temporary authorisation to abstract water from these sources this year pending determination of licence applications by the National Rivers Authority.

Details of the existing licence conditions and temporary modifications are indicated in the table below:

Statutes in Force

A vital reference work on the law of the land

What is *Statutes in Force*?

Statutes in Force is the official revised edition of the statutes. It provides the text (without commentary) of the current statute law of the land, in a way which is

comprehensive

convenient

constantly updated

The complete edition consists of 107 looseleaf binders which contain hole-punched crown quarto (246 x 189mm) booklets - giving a total of some 60,000 pages. The Acts are arranged, not in purely chronological order, but classified into 125 groups according to subject matter.

Statutes in Force is intended to be a permanently renewable edition of revised statutes. It is kept up to date in a number of ways:

- The issue of new Acts for insertion into their appropriate groups (they are published in complete text form usually within two months after Royal Assent)
- The issue of instructions for the removal of repealed Acts
- The publication of revised reissues of heavily-amended Acts
- Cumulative supplements for each affected group giving particulars of amendments and partial repeals (pending their eventual incorporation in revised reissues of the affected Acts).

Customers may obtain copies of **any** individual Act in the *Statutes in Force* edition. This service will be of most benefit when ordering heavily amended Acts which have been revised and re-issued or Acts which are now out-of-print in the original (Queen's Printer) version.
