My Lords understand that the Public Works Loan Commissioners will be operating arrangements under which local

authorities are permitted to borrow from the Commissioners up to a specified quota at a certain fixed rate of interest and in excess of such quota at one of two higher fixed rates.

In accordance therewith the Chancellor of the Exchequer now recommends that with effect from 28th March 1990 and until the coming into operation of a further determination:

To suppress urinary infection in patients with indwelling catheters and to reduce the incidence of catheter blockage. 4. To provide prophylaxis against the introduction of infection into the urinary tract during instrumental procedures. 5. Asymptomatic bacteriuria. Methenamine hippurate is readily absorbed from the gastro-intestinal tract and excreted via the kidney. With Hiprex, as with other specific urinary antibacterial agents of this type, antibacterial activity is confined to the urinary tract. The antibacterial action is achieved by the slow release of the bactericidal formaldehyde, from the methenamine part, in the urine; acid pH less than pH 5.5 is necessary for this reaction to occur. It is obtained and maintained there by the presence of hippuric acid. Hiprex has a wide bacterial spectrum covering both gram- positive and gram- negative organisms. it is active against the bacteria which most commonly cause urinary tract infection— <i>Escherichia</i> <i>coli</i> , <i>Aerobacter</i> <i>aerogenes</i> , <i>Pseudomonas</i> and some strains of <i>Proteus</i> . Urinary antibacterial activity can be shown within 30 minutes of administration. Hiprex is particularly useful for long-term treatment because neither tolerance to its effect nor bacterial resistance occurs. The incidence of side-effects is extremely low. PM POM

The short section (22 metres) of Gordon Square in the vicinity of the Chip Shop will remain a parking place but the limited waiting period will be changed to 2 hours between 8 a.m. and 6 p.m.

The area concerned is considered to be of special architectural or historic interest, the character and appearance of which it is desirable to preserve or enhance. The effect of the designation is as follows.

- (i) Special attention shall be paid to the desirability of preserving or enhancing the character or appearance of the area.
- (ii) Demolition of property within the area becomes subject to the controls applying to listed buildings (with similar exceptions).
- (iii) All planning applications likely to affect the character and appearance of the area will be advertised and representations received will be carefully considered by the Council before reaching a decision on the proposal.

A plan showing the boundaries of the area, together with a statement setting out the Council's policy for the area, is available for inspection during normal office hours at Oakley Manor, Belle Vue Road, Shrewsbury.

D. M. Clarke, Chief Executive

Guildhall, Shrewsbury.

SCHEDULE

Church Pulverbatch Conservation Area

The Conservation Area has been drawn to comprise all the buildings within the settlement, in the immediate proximity of St. Edith's Church and on both sides of the road leading from Castle Pulverbatch to Stapleton which passes through the village. The principle purpose of designation is to identify and emphasise that part of the area which contributes to the character of the village as a hill top settlement and with this in mind certain areas of open space on the perimeter of the major concentration of buildings have been included. The western boundary is defined by the field boundary running from the edge of the currently used burial ground until its intersection with the stream. The boundary then follows the route of the stream, enclosing a large meadow area, until the point where it passes under the lane running north from the Church back to the main road. The northern boundary then continues from the foot of Harold's Bank along well defined field boundaries at the rear of the village hall and Churton Cottage. The eastern boundary then follows the line of a hedgerow, south across the Stapleton Road. The southern boundary then follows field boundaries and tree lined hedgerows at the rear of the former school and Yew Tree Cottage to Lower House Farm. The boundary then turns further south along a field boundary to include the land associated with Lower House Farm. It then continues to the south of Wynswood Lodge to the road just east of the burial ground. The exact area, however, may only be ascertained by reference to the approved plan.

Notices of Designation of Conservation Area at Fleet Church End

Notice is hereby given in pursuance of section 277 of the Town and Country Planning Act 1971 as substituted by section 1 of the Town and Country Amenities Act 1974 that the South Holland District Council have determined that the area described in the schedule to this notice is an area of special architectural or historic interest the character or appearance of which it is desirable to preserve or enhance and have accordingly designated the said area as a conservation area.

- (b) Anyone wishing to demolish a building or a part of a building situate within the conservation area must first apply for consent

to demolition to the local planning authority.
