NATIONAL RIVERS AUTHORITY—NORTH WEST REGION

Notice of Proposals for Varying an 'Alternative Statutory Provision' authorising the Obstruction or Impounding of Flow of Inland Water by means of Impounding Works.

Notice is hereby given that an application is being made to the National Rivers Authority, by North West Water Limited to vary the 'alternative statutory provision' contained in the Nelson Corporation Water Act 1918 ("the Act of 1918") authorising the obstruction of impeding the flow of Catlow Brook, otherwise known as Walverden Water by means of an intake and works at Walverden Compensation Reservoir (first authorised under section 25 of the Nelson Water and Gas Act 1866).

The variation applied for is to substitute for section 38 of the Act of 1918 the following provision:

- (1) North West Water Limited shall discharge as compensation from Walverden Compensation Reservoir into Walverden Water during every day throughout the year 396,000 gallons of water in an even and continuous flow throughout the day.
- (2) In this section the expression 'day' means a period of 24 hours".
- (3) North West Water Limited shall install and maintain measuring facilities for these compensation discharges by a means agreed with the National Rivers Authority.

This would have the effect of reducing the compensation water from Walverden Compensation Reservoir to Walverden Water from 540,000 gallons/day to 396,000 gallons/day.

A copy of the proposals and of any map, plan or any document prepared in connection with them may be inspected, free of charge at NWW Offices, 62-64 Yorkshire Street, Burnley, at all reasonable hours, during the said period beginning on Friday, 22nd March and ending on Monday, 22nd April.

Statutes in Force

A vital reference work on the law of the land

What is *Statutes in Force*?

Statutes in Force is the official revised edition of the statutes. It provides the text (without commentary) of the current statute law of the land, in a way which is

comprehensive

convenient

constantly updated

The complete edition consists of 107 looseleaf binders which contain hole-punched crown quarto (246 x 189mm) booklets - giving a total of some 60,000 pages. The Acts are arranged, not in purely chronological order, but classified into 125 groups according to subject matter.

Statutes in Force is intended to be a permanently renewable edition of revised statutes. It is kept up to date in a number of ways:

- The issue of new Acts for insertion into their appropriate groups (they are published in complete text form usually within two months after Royal Assent)
- The issue of instructions for the removal of repealed Acts
- The publication of revised reissues of heavily-amended Acts
- Cumulative supplements for each affected group giving particulars of amendments and partial repeals (pending their eventual incorporation in revised reissues of the affected Acts).

Customers may obtain copies of **any** individual Act in the *Statutes in Force* edition. This service will be of most benefit when ordering heavily amended Acts which have been revised and re-issued or Acts which are now out-of-print in the original (Queen's Printer) version.

There's a free leaflet on *Statutes in Force* available from:
