NATIONAL RIVERS AUTHORITY—SOUTHERN REGION

Notice of application for consent in pursuance of Schedule 10

Notice is hereby given, in accordance with Schedule 10 of the Water Resources Act 1991, that an application has been made to the National Rivers Authority (Southern Region) by Southern Water Services Limited for a variation of a consent to discharge to the Newmill Channel, a tributary of the River Rother, from Tenterden Sewage Treatment Works, off Rolvenden Road, Tenterden, Kent.

The application proposes that:

- (1) The maximum volume of treated sewage effluent to be discharged in dry weather conditions will increase from 1,730 cubic metres per day to 2,348 cubic metres per day. The provision of additional biological filters and new tertiary treatment lagoons will provide a higher standard of effluent treatment than is currently available.
- (2) Should the flow to full treatment exceed 67 litres per second, then all additional flow will be directed to storm tanks. A discharge of settled screened storm sewage will only take place if the tanks are filled above capacity. This represents a variation of an existing discharge, and entails the provision of additional storm tanks.
- (3) Should the flow to the works exceed 190 litres per second, then a discharge of screened storm sewage will take place. This represents a new discharge, which is designed to protect the treatment processes from hydraulic overloading.

Discharge 1 will take place at National Grid ref. TQ 8665 3238. Discharges 2 and 3 will take place at National Grid ref. TQ 8663 3264.

Any person wishing to make representation about the application should do so in writing to the Environmental Protection Manager, National Rivers Authority, Southern Region, Guildbourne House, Chatsworth Road, Worthing, West Sussex BN11 1LD, not later than 30th March 1992, quoting ref. A630/K/91.
