THE PETROLEUM (PRODUCTION) (SEAWARD AREAS) REGULATIONS 1988

1. Further to the notice published on 31st July 1992 the Secretary of State for Trade and Industry invites applications, in accordance with the Petroleum (Production) (Seaward Areas) Regulations 1988 (SI 1988 No. 1213), as amended by the Petroleum (Production) (Seaward Areas) (Amendment) Regulations 1990 and the Petroleum

(Production) (Seaward Areas) (Amendment) Regulations 1992 (in this Notice called "the Regulations"), for petroleum production licences in respect of the blocks specified in Schedules 1 and 2 to this notice and delineated on maps deposited in the Library at the Department of Trade and Industry, 1 Palace Street, London SW1E 5HE. The maps may be inspected by prior appointment (Telephone No. 071-238 3042) between 09.15 and 16.45 hours Monday to Friday until Tuesday, 9th March 1993.

CONSIDERATION FOR AND CONDITIONS OF LICENCES

2. Licences issued in respect of blocks shown on the map at Schedule 1 and listed in Schedule 2 will have an initial term of nine years with a second term of fifteen years. This second term may be extended beyond fifteen years for a further period of twenty-four years. These licences will be subject to the model clauses set out in Schedule 4 to the Petroleum (Production) (Seaward Areas) Regulations 1988, apart from those conditions relating to the duration of the licences and the surrender of the parts of the licensed area.

3. The consideration required in respect of production licences granted as a result of this invitation will be:

- (a) an initial payment, at the time the offer of a licence is accepted, of £60 for each square kilometre comprised in the licensed area;
- (b) subsequent annual payments determined according to the following provisions

(i) on the third, fourth and fifth anniversaries of the date of commencement of the licence term the sum of £20 will be payable for each square kilometre comprised on the licensed area; on the sixth, seventh and eighth anniversaries the sum of £40 will be payable for each square kilometre comprised in the licensed area; on the ninth, tenth and eleventh anniversaries (following exercise of the option to continue as to the remaining period of the licence) the sum of £200 for each square kilometre to which the licence then relates; on the twelfth anniversary £650 per square kilometre and so on, rising by annual increments of £450 until an annual sum of £5,600 is payable for each square kilometre comprised in the licensed area;

(i) the payments specified in sub-paragraph 3(b)(i) above will be subject to variation as follows:

(aa) The annual payments will be increased or subsequently reduced at two-yearly intervals in line with movements in the Index of the Price of Crude Oil acquired by Refineries (published in the Digest of UK Energy Statistics) if the Minister so determines. The Minister will give notice of any such determination ("biennial determination") during the month preceding the thirteenth anniversary of the date of commencement of licences or any subsequent two-yearly anniversary, and will specify in the notice the increase or reduction in the amount payable. Movements in the Index will be calculated by reference to a comparison between the arithmetic mean of the Index levels for the two latest calendar years for which figures are available at the time when the determination is made, and the arithmetic mean of the Index levels for 1990 and 1991. In the event that the Index of the Price of Crude Oil acquired by Refineries ceases to be published, the Minister may substitute arrangements for redetermination of annual payments having substantially similar effect to those set out above based on such other comparable Index as he may determine.

(bb) The increase or reduction specified in a biennial determination will be payable or take effect on the anniversary of the date of commencement of the licence next following the date of the relevant determination.

(cc) No biennial determination will have effect so as to reduce the annual payments below the levels set in sub-paragraph 3(b)(i).

(dd) The Minister will not make a biennial determination increasing or reducing the amounts payable, where that increase or reduction would be 5 per cent or less of the levels set following the biennial determination.

(c) A royalty (provided for in Clauses 10-13 of Schedule 4 to the Regulations) at the rate of 12.5 per cent payable in respect of petroleum won and saved from any field which is neither:

(i) a relevant new field for the purposes of the Petroleum Royalties (Relief) Act 1983;

nor

(ii) a relevant Southern Basin Field for the purposes of the Petroleum Royalties (Relief) and Continental Shelf Act 1989.

4. Licences may be granted subject to special conditions governing the notice required for, and the timing and circumstances of, operations carried out thereunder. The Department of Trade and Industry will make copies of these conditions available as soon as possible.

5. (a) Applicants will be required to submit to the Department of Trade and Industry a work programme of seismic and other forms of exploration not involving drilling. Proposals for drilling will be acceptable but not required. The work programme will be carried out in the first three years ("the first part") of the initial term of the licence. However, the Secretary of State will be prepared to consider using his discretion to extend the first part of the initial term to a maximum of four years in individual cases. (In such cases the total length of the initial term will remain at nine years).

(b) If licensees do not wish to continue into the second part of the initial term they may surrender the licence at the end of the first part of the initial term.

(c) There will be no requirement for licensees to submit a work programme to the Department of Trade and Industry for the second part of the initial term. However, a decision by the licensees to continue into the second part of that term will be taken to mean that, if no well has already been drilled under the licence, they would plan to drill at least one exploration well before the expiry of the initial term. The number of wells drilled by the end of the initial term will determine how much acreage may be retained for the second term, in accordance with the provisions of paragraph 6 below, unless circumstances in individual cases justify an alternative approach.

6. Licensees will be allowed to retain acreage at the end of the initial term according to the following provisions unless the Secretary of State decides otherwise. One exploration well drilled in the initial term will allow retention of up to a quarter of the area held by the licensee at the end of the initial term. Two exploratory wells drilled will allow retention of up to half the area held by the licensee at the end of the initial term. Three or more exploration wells drilled will allow retention of the whole of the area held by the licensees at the end of the initial term. Wells drilled in both parts of the initial term of the licence will be allowed to count for this purpose. Licensees will be able to opt to retain less than the maximum allowed. In order to qualify under these provisions, wells must be drilled to geological targets where hydrocarbons are expected to be present or for the purposes of establishing the source and reservoir potential of the overall geological section of the licensed area.

7. The Secretary of State will be prepared to give consent to the proposals, where these are otherwise acceptable, to assign interests in licences to others at the end of the first part of the initial term.

APPLICATIONS FOR LICENCES

8. In respect of all blocks listed in Schedule 2:

(a) applications should be made on a standard application form available from the Department of Trade and Industry. Applicants should note that the Secretary of State will entertain applications for blocks either singly or in tranches of up to six blocks;

(b) applications should be delivered between 09.30 and 12.00 hours on Tuesday, 9th March 1993 to the Oil & Gas Division of the Department of Trade and Industry at 1 Palace Street, London SW1E 5HE, together with a remittance in respect of the appropriate application fee of £3,700;

(c) no applications will be accepted after 12.00 hours on Tuesday, 9th March 1993;

(d) applicants are requested to indicate where possible any preference they attach to the blocks or tranches applied for and should indicate if blocks or tranches applied for are alternatives;

(e) applicants are requested to provide details of the work programme they propose to carry out if awarded a licence;

(f) applicants should note that they are requested to submit a statement of their policy with regard to health and safety, and for the first time, to submit a statement of their policy with regard to the environment;

(g) further guidance on the material with which applicants may support their applications is given in Guidance Notes available from the Department of Trade and Industry;

(h) copies of documents referred to in the text of this notice as being available from the Department of Trade and Industry may be obtained from the Licensing Branch (Room 3.2M.23), Oil & Gas Division, Department of Trade and Industry, 1 Palace Street, London SW1E 5HE (Telephone No. 071-238 3211/3212).

9. Applicants will be judged against the background of the continuing need for expeditious, thorough, efficient and safe exploration to identify oil and gas resources of the UK Continental Shelf, with due regard to environmental considerations. The financial and technical capacity of each applicant will be established as far as possible before competing applications are evaluated. Applicants must also meet a threshold of acceptability for other criteria, including technical competence, health and safety and environmental policies. Once these threshold criteria have been met, applications will be evaluated on the basis of the following technical criteria:

- the quality of geological analysis related to the block or tranche being applied for and the identification of prospects (including whether work done was innovative);
- the quality of the work programme submitted for evaluating the full potential of the block or tranche;
- the experience or technical databases (e.g. of relevant seismic data) of applicants in each applicant group.

The first two of these criteria are particularly important. Where applicants hold or have held licences, their overall record on exploration and exploitation may also be taken into account, but no preference will be given to such licensees as a result of holding or having held a licence.

10. Following examination of all applications the Secretary of State will select the applicants to whom he is prepared to award licences. If there are two or more applicants for a block or tranche of blocks who would be equally acceptable to the Secretary of State as licensees for that block or tranche of blocks he may suggest that the licence should be held jointly by some or all of such applicants.

11. The selected applicants will be offered licences on condition that within 14 working days of the date on which the Secretary of State makes the offer of an award:

- (a) they confirm acceptance of a work programme proposed by the Secretary of State following discussion with the applicants concerned;
- (b) they remit to the Secretary of State the appropriate payment referred to in paragraph 3(a) above; and
- (c) they confirm in writing that they accept any special conditions or restrictions of the sort referred to in paragraph 4 above.

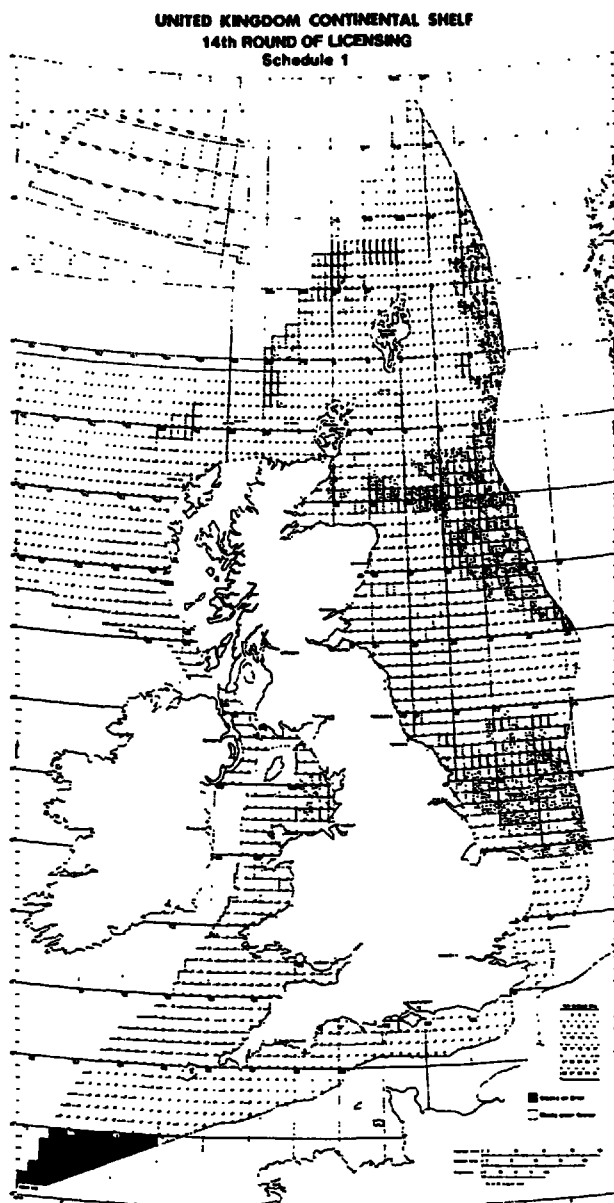

12. Unsuccessful applicants will be notified in writing.

SCHEDULE 2

Frontier licence terms will apply to all the blocks listed below. Details of special conditions which may apply will be made available by the Department of Trade and Industry as soon as possible.

HAMPSHIRE COUNTY COUNCIL

Parchment Street, Winchester—Residents' Street Parking and 20 m.p.h. Speed Limit Zone with Road Humps

Notice is hereby given that Hampshire County Council proposes making two Road Traffic Regulation Orders and introducing a traffic calming scheme as follows:-

Effect of Orders/Scheme: To implement the following measures in that length of Parchment Street, Winchester between its junction with North Walls and its junction with St. George's Street:

Residents' Parking/Prohibition of Waiting: The provision of street parking places in Parchment Street:

- (i) North-west side, between property Nos. 27 and 29;
- (ii) South-east side, between property Nos. 54 and 58;
- (iii) South-east side, between property Nos. 62 and 66;
- (iv) South-east side, between property Nos. 68 and 70;

Only vehicles displaying a permit may be parked in the parking places, although exemptions will be included to enable vehicles to wait for the following purposes—to board or alight, loading/unloading of furniture, building operations, removal of obstructions, statutory undertakers works, statutory powers and duties, postal collections/deliveries, emergency services vehicles and disabled drivers' parking.

Any resident of that length of Parchment Street between North Walls and St. George's Street may apply to Winchester City Council for the issue of a permit, subject to no more than one permit being issued in respect of any one household. The charge for permits will be £10 per annum per permit. Permits issued to residents of Parchment Street will not be valid for use in any other street and permits issued to residents of any street other than Parchment Street will not be valid for use in Parchment Street.

In addition, business permits will be available at £30 per annum for any business premises in Parchment Street between North Walls and St. George's Street, where it can be demonstrated that there is not sufficient off-street parking available to adequately meet the business needs of the particular business and subject to no more than one permit being issued to any one business. A business permit will be valid for parking up to one hour and will not be valid for use by any person employed at the business premises concerned.

Except where street parking places are provided waiting will be prohibited at all times.

20 m.p.h. Speed Limit Zone/Road Humps: A 20 m.p.h. speed limit will be imposed in that length of Parchment Street between North Walls and St. George's Street, an approximate distance of 283 metres.

The Speed Limit Order requires the consent of the Secretary of State for Transport which he has indicated can only be given, in the first instance, for a period of 18 months. The Order will therefore cease to be in force 18 months after it comes into operation. The County Council expect to be in a position to apply for consent to an indefinite extension of the speed limit 3 months before the Order is due to expire.

In conjunction with the making of the speed limit Order the Council is proposing to implement a traffic calming scheme in Parchment Street including the provision of a system of 3 road humps. Road humps are artificial humps in or on the surface of the highway which are designed to control the speed of vehicles.

The road humps proposed for Parchment Street are of the flat-top type extending from kerb to kerb and will be provided at each of the following locations:

- (i) Between a point 6 metres south of its junction with North Walls and a point 4.5 metres south of that point (ie. adjacent to the frontage of the Foresters Arms);
- (ii) Between a point 94.5 metres south of its junction with North Walls and a point 4.5 metres south of that point (ie. extending along the frontage of property No. 50);
- (iii) Between a point 235.5 metres south of its junction with North Walls and a point 4.5 metres south of that point (ie. adjacent to the frontage of property No. 9).

Each hump will be between 50 mm. and 100 mm. in height to suit the existing kerb height in each location.

Further Details: Details of the proposed Orders, maps, a statement of reasons and a diagram illustrating types of road hump may be inspected during usual office hours at the following places.

- (i) City Offices, Colebrook Street, Winchester.
- (ii) County Council Information Centre, Mottisfont Court, High Street, Winchester (opening hours: Monday to Fridays 8.30 a.m. to 6 p.m.; Saturdays 9.30 a.m. to 1 p.m.).

Objections: Objections and other representations in respect of this proposal must be sent in writing to the undersigned by 18th December 1992. All objections must state the grounds on which they are made.

Title: The Orders if made will be known as:

- (i) "The Hampshire (Parchment Street, Winchester) (Parking Places and Restriction of Waiting) (Controlled Zone) Order 1993".
