CHERWELL DISTRICT COUNCIL

PLANNING (LISTED BUILDINGS AND CONSERVATION AREAS) ACT 1990

Notice is hereby given that the Cherwell District Council has, pursuant to section 69 of the Planning (Listed Buildings and Conservation Areas) Act 1990, amended the area of the Hethe Conservation Area as described in the Schedule below. A plan of the said area may be inspected at the Cherwell District Council Offices, Bodicote House, Bodicote, Banbury, Oxon, during normal office hours.

The effects of the designation are:

- (a) All planning applications for development which would affect the character of the area must be advertised and the site notices must be posted so that the maximum opportunity for comment is given to the public before a decision is reached.
- (b) Cherwell District Council, as the local planning authority, will exercise particular care to ensure that change, when it occurs, will preserve or enhance the appearance and character of the area.
- (c) No building in a conservation area may be demolished or partially demolished without conservation area consent having first been obtained from the local planning authority. (For alteration, demolition or extension of listed buildings in a conservation area, listed-building consent must be applied for, and this takes precedence over conservation area consent). Exceptions to this rule are those laid down in paragraph 97 of Department of the Environment Circular 8/87. These exceptions mainly affect small buildings within the curtilage of a dwellinghouse; gates, walls, fences or other enclosures below a certain height; temporary buildings; certain agricultural and industrial buildings; and buildings required to be demolished under the provisions of the Town and Country Planning Act 1990, the Housing Act 1985 or the Pastoral Measure 1983. Planning permission is required for some alterations to dwellings due to their locations within a conservation area. This control is exercised over all dormer windows and external cladding.
- (d) It is an offence to cut down, top, lop, uproot or wilfully damage or destroy any tree (not already the subject of a tree preservation order) in a conservation area without giving six weeks' notice to the District Council. This provision does not relate to trees covered by a felling licence, to dead trees, to trees

which do not exceed 77mm (3 inches approx.) in diameter, or to certain other trees, details of which can be obtained from the address above.

- (e) Cherwell District Council, as the local planning authority, will require planning applications in the Conservation Area to be accompanied by sufficient details to enable the impact of the proposed development on the character of the Conservation Area to be assessed. This may include details of scale, massing, design and materials of buildings and their relationship to existing buildings.

SCHEDULE

The boundaries of the Conservation Area are described as follows:

In the west a tongue of woodland above the road along Hopedale is included, running west from Field 7483. From the southern corner of this field the boundary follows walls around the outbuildings to the west of Bank Farm until it reaches, and crosses the road. The boundary returns east, to the south of the wall on the southern side of the road, until it leaves the road in a broadly south-easterly direction around the rear of the curtilages of Bankside and The Croft. It then continues east, including sky-line walls parallel to the road.

The boundary then turns south along woodland flanking the western side of the Dove Valley and follows the fence bounding the woodland down the slope to the River Dove. It crosses the river by the weir and up the eastern bank to the public footpath, which it follows northward, back towards the village. It then runs eastward along the southern boundary of Field 0067, before crossing the field to the eastern end of the woodland in Field 0072. Running roughly north-east, it then follows the southern boundary of Field 0083 until the wall is crossed by a stile and a joining wall continues the north-easterly direction of the boundary. Field 0083 is crossed by a notional line which has no physical representation on the ground, running north-westwards to the weir on the River Dove where the river changes direction and flows south to Milldale.

North of the weir is woodland. The boundary follows its north-eastern and northern edge (along Fields 0003 and 9500) until Millway Lane is reached at, at which point the boundary runs southwards along the lane to the northern boundary of Field 8785. The last section of the boundary runs west and south-west along the wall bounding Field 8785 until it rejoins the northern edge of the woodland within Field 7483.

1990*Conservation Areas at Charlton St. Peter and Chisbury*

Notice is hereby given that Kennet District Council in pursuance of powers conferred by section 69 of the above Act have designated Conservation Areas at Charlton and Chisbury being villages of architectural or historic interest which it is desirable to preserve and enhance.

Plans showing the boundaries of the designated areas are available for inspection during normal office hours at the Planning and Environmental Services Department, Browfort, Devizes SN10 2AT.

Please note that it is necessary to obtain Conservation Area Consent from the Council to demolish any building, or part of a building, with certain minor exceptions, which is situated within any Conservation Area. It is an offence to carry out demolition without the necessary consent having first been obtained.

It should be also noted that any person wishing to cut down, top, lop or uproot any tree must give the Council 6 weeks notice of his intention to do so.

Furthermore, whereas certain minor developments may be carried out without planning permission, in a Conservation Area the extent of development allowed by the Town and County Planning General Development Order is less than generally available. Statutes in Force

A vital reference work on the law of the land

What is *Statutes in Force*?

Statutes in Force is the official revised edition of the statutes. It provides the text (without commentary) of the current statute law of the land, in a way which is

comprehensive

convenient

constantly updated

The complete edition consists of 107 looseleaf binders which contain hole-punched crown quarto (246 x 189mm) booklets - giving a total of some 60,000 pages. The Acts are arranged, not in purely chronological order, but classified into 125 groups according to subject matter.

Statutes in Force is intended to be a permanently renewable edition of revised statutes. It is kept up to date in a number of ways:

- The issue of new Acts for insertion into their appropriate groups (they are published in complete text form usually within two months after Royal Assent)
- The issue of instructions for the removal of repealed Acts
- The publication of revised reissues of heavily-amended Acts
- Cumulative supplements for each affected group giving particulars of amendments and partial repeals (pending their eventual incorporation in revised reissues of the affected Acts).

Customers may obtain copies of any individual Act in the *Statutes in Force* edition. This service will be of most benefit when ordering heavily amended Acts which have been revised and re-issued or Acts which are now out-of-print in the original (Queen's Printer) version.

There's a free leaflet on *Statutes in Force* available from:
