LAND COMPENSATION ACT 1973 (AS AMENDED)

Draft Public Notice

The Secretary of State for Transport hereby gives notice that the public works detailed in the Schedule below were first used by public traffic on 22nd December 1993 after the completion of carriageway alterations at the junction of the A4 with Vicarage Farm Road.

Under Part 1 of the Land Compensation Act 1973 (as amended) there is a right to compensation in respect of any depreciation of more than £50 in the value of certain interests in land caused by the use of new or altered highways or the use of other public works and resulting from specified physical factors (noise, vibration, smell, fumes, smoke and artificial lighting and the discharge on to the land in respect of which the claim is made of any solid or liquid substance). Compensation is assessed by reference to prices current at a date 12 months after the works are first open to public traffic or, in the case of an altered highway, first open to public traffic after completion of the alterations.

Interests qualifying for compensation are specified in section 2 of the above-mentioned Act and there are special provisions relating to claims by mortgagees and persons entitled under trusts or settlements. However, no compensation can be paid under Part 1 where part of a property has been acquired for the purpose of constructing the highway.

Any person with a qualifying interest who considers he has a claim under the said provisions may obtain further information and claim forms from the London Regional Office of the Department of Transport, Room C4/16, 2 Marsham Street, London SW1P 3EB. The publication of this notice does not necessarily mean that depreciation compensation will arise for the purposes of Part 1 of the above-mentioned Act.

Claims may be made 12 months after the works were first used after completion, that is, on or after 22nd December 1994 (the first claim date). Claims should be made within 6 years from this date. However, any person who within the 12 months preceding that date makes a contract for disposing of his interest or (insofar as the interest is in land which is not a dwelling) for granting a tenancy may make a claim within that period and must do so before the interest is disposed of or the tenancy granted. Compensation in such cases will not be payable before the first claim day.

A. R. Mellors, a Grade 7 Official, London Regional Office, Department of Transport.

SCHEDULE

This Licence comes into force on 17th January 1994.

England General Import licences Nos. USA/EOS/93/1 and CAN/EOS/93/1 dated 24th August 1993 are hereby revoked.

K. J. Cross, Officer of the Minister of Agriculture, Fisheries and Food.

1. All landings of embryos must be in accordance with the provisions of the Importation of Embryos, Ova and Semen Order 1980 (as Amended), The Products of Animal Origin (Import and Export) Regulations 1992 and with the following provisions of this licence.

2. Each consignment of embryos must be accompanied at all times by an animal health certificate in accordance with Commission Decision 92/471/EEC, Annex A, Part 1, or in the case of Australia, Annex B, Part 1 (published in Official Journal No. L270/27 of 15th September 1992), which must be signed by an official veterinarian of the veterinary authority in the country of origin, consist of a single form and be made out to a single consignee.

3. All certification must state that the country of origin "has been free from foot and mouth disease during the 12 months immediately prior to the collection of the embryos to be exported and does not practice vaccination against it".

4. Embryos for trade must be transported in satisfactory hygienic conditions in containers sealed in the presence of the certifying officer from the approved storage premises until their arrival at their destination. The containers must be marked in such a way that the number coincides with the number on the animal health certificate.

5. The flask shall be clearly marked with the name and address of the dispatching collection centre and the number(s) of the animal health certificate(s) referred to at 2 above.

NOTES

(i) Council Directive 90/675 EEC (as amended) requires that animal products or products of animal origin may be imported into the European Community from a non-EC country *only* through an approved border inspection post and undergo veterinary checks before being permitted entry to the Community. Importers must give at least one working day's advance notice, in writing, of the anticipated date of arrival of the consignment to the official veterinarian of the border inspection post through which the consignment is to be imported. This Directive has been implemented in Great Britain by the Products of Animal Origin (Import and Export) Regulations 1992. Importers are advised to familiarise themselves with the obligations the Regulations place on them. Information Note No. 1 (TIS/1) issued by the Ministry summarises the rules. Copies of TIS/1 may be obtained on request, from the Ministry of Agriculture, Fisheries and Food, Animal Health (International Trade) Division, Room 26, Block C, Hook Rise South, Tolworth, Surbiton, Surrey KT6 7NF.

(ii) On arrival at the border inspection post the health certificate must be presented to the veterinary inspection staff. The health certificate will be retained at the border inspection post and the veterinary inspection staff will provide a border crossing certificate confirming that the veterinary checks have been carried out and an authenticated copy of the original health certificate. Both documents must accompany the embryos to their place of destination and should be retained for a minimum period of 12 months for presentation to the Ministry on request.

(iii) Any expressions used in this licence have the same meaning which they bear in the Animal Health Act 1981.

(iv) This licence applies only to consignments of bovine embryos collected and processed in accordance with the relevant Commission Decision on or after the date laid down therein. Embryos covered by this licence must *not* be consigned in the same flask or container as embryos which were not collected and processed in conformity with the appropriate Commission Decision since this will invalidate the health status of embryos collected to EC standards and render them ineligible for intra-Community trade subsequent to their importation into Great Britain.

(v) Mixed consignments containing embryos of differing animal health status are not permitted to be imported under this licence. Importers are advised to apply to the Ministry at the above address for an individual licence covering the import of such mixed consignments or of consignments consisting solely of embryos collected and processed before the appropriate date laid down in the relevant Commission Decision.

(vi) *NB: This licence does not provide any exemption from the Artificial Insemination of Cattle (Animal Health) (England and Wales) Regulations 1985 or the Artificial Insemination of Cattle (Animal Health) (Scotland) Regulations 1985.

SCHEDULE

The boundaries of the Conservation Area are described as follows:

The boundary starts at the weir on the River Dove to the south of the right-hand bend in Lode Lane. It crosses the weir and Milldale Road and climbs the hill to the bend in the road. It then runs north-east in a straight line to the boundary around Lode Plantation. The boundary curves round the plantation, including a narrow northward extension bounded on the east by a rock outcrop. Still following the edge of Lode Plantation, it progresses north-east to the River Dove which it follows to the footbridge which links Field Nos. 5141 and 5941. Having crossed the river immediately to the north of the bridge, it runs irregularly eastwards through Fishpool Plantation, following the rock outcrop and trees which make a skyline feature when seen from the settlement at Lode Mill. On reaching the eastern boundary wall of Field No. 7025, it turns south-westwards to the plantation (Field No. 8200) which lies to the east of Dove Cottage. It follows the short eastern boundary of the plantation and then makes a right-angled turn to follow the edge of the plantation, adjacent to Field No. 0006. That line then continues straight through the woodland in a south-westerly direction until it reaches the road known as The Pinch. It follows the wall to the south of the road to a rock outcrop which it climbs to reach the summit of the rock outcrop known as Shining Tor. From the western end of the outcrop, the boundary runs broadly north to the second weir to the west of the road bridge at Lode Mill. It then follows the southern bank of the River Dove to the weir at the western end of the Conservation Area.
