SCHEDULE TO THE ORDER

These pavements lie in woodlands to the west of Holker Hall and some 3 kilometres north-west of the village of Cark-in-Cartmel. Part of Old Park Wood lies within the Barker Scar Site of Special Scientific Interest. The Old Park Wood area includes both intact pavement and areas that have been previously extensively worked for surface limestone. The pavements at Waitham Wood are in good condition and have not been recently damaged.

Old Park Wood and Barker Scar form prominent landscape features on the east side of the Leven Estuary adjacent to the railway and Leven Viaduct. Waitham Wood forms a lower island feature within extensive grazing land between Old Park and Holker Park. The woodlands are visible from the B5275 Grange—Haverthwaite Road, and from the road leading to Old Park Caravan Site. There is no public access to the woods.

The intact pavements are largely covered by mixed deciduous woodland, while the worked areas are more open with piles of damaged blocks, disturbed tree stumps and rapidly developing scrub cover. Some of the worked areas, however, still contain stands of intact pavement, mostly under small groves of yew trees, and these form attractive landscape features contrasting starkly with the surrounding damage. Tree cover is dominated by ash, small-leaved lime and yew with abundant sycamore, while there is also a well-developed under-storey and ground cover. The clints are mostly clothed in mosses or ivy but where the woodland canopy is more open, other species are also present. A range of typical solution features is present in the limestone. Further details of the flora and geological interest of the site can be found in the notification, a copy of which is available on request.

SCHEDULE TO THE ORDER

Hellgill Wold lies on the east side of Mallerstang, some 10 miles south of Kirkby Stephen and lies immediately north of the deep valley of Hell Gill (River Eden) which forms the county boundary. Hell Gill is a Site of Special Scientific Interest notified in 1985. Part of the area is within the Mallerstang East Common (CL93) where there are grazing and stone-taking rights exercisable.

The area of the Order lies on gently sloping land overlooking the main valley which rises from approximately 300 metres OD in the west to 430 metres in the east. The eastern part of the site consists of a strip of unenclosed common defined on the higher side by a line of shake holes. The lower western side consists of grazing fields largely enclosed by stone walls. Part of this area is defined by Hanging Lund Scar, a prominent linear feature visible from the road.

The limestone outcrops are scattered throughout the area, particularly in the vicinity of the public bridleway which runs north-south across the site. The pavements which form open, mainly horizontal, outcrops within grazed grassland support a predominantly grassland flora including some uncommon species. Details of the flora and geological interest of the site can be found in the notification, a copy of which is available on request. Surface clints have been removed in the past for walling and other uses, some of this damage appears fairly recent.

Such representations or objections should be in writing and should state the title of the Order. In the case of objections, the grounds on which they are made should also be stated.

Copies of the Order and the map referred to in it have been deposited at:

1. Offices of the County Solicitor, Cumbria County Council, The Courts, Carlisle, Cumbria CA3 8LZ.
2. Kirkby Stephen Post Office, Victoria Square, Kirkby Stephen CA17 4QA.

and may be inspected, free of charge, at all reasonable hours.

Cumbria County Council (Tailbridge/Nateby Common) Limestone Pavement Order 1994

Whereas the land described in the Schedule to this Order comprises a limestone pavement which has been notified to Cumbria County Council under section 34(1) of the Wildlife and Countryside Act 1981.

And whereas it appears to the Cumbria County Council that the character or appearance of the said land will be likely to be adversely affected by the removal of the limestone or its disturbance in any way whatever, that the Council ought to order as follows:

Now therefore in exercise of the powers conferred by section 34(2) of the said Act of 1981, Cumbria County Council hereby designates and prohibits the removal or disturbance of limestone on or in the

land described in the Schedule to this Order and delineated by a thick black line on the map prepared in duplicate, sealed with the Common Seal of the said Cumbria County Council and marked Map referred to in the Cumbria County Council (Tailbridge/Nateby Common) Limestone Pavement Order 1994. One duplicate copy of the map is deposited in the offices of the County Solicitor, Cumbria County Council, The Courts, Carlisle, and the other is deposited in the offices of the Secretary of State for the Environment.

This Order may be cited as the Cumbria County Council (Tailbridge/Nateby Common) Limestone Pavement Order 1994.

SCHEDULE TO THE ORDER

The Order area lies approximately 2½ kilometres south-east of the village of Nateby near Kirkby Stephen and is entirely within the Mallerstang-Swaledale Site of Special Scientific Interest and the North Pennines Area of Outstanding Natural Beauty.

Tailbridge Hill at 547 metres OD forms a significant feature when viewed from the west with a large cairn marking the summit. From this summit, the hill slopes fairly gently down in a south-easterly direction towards Lamps Moss at 510 metres. The main outcrops of pavement are found on this lower ground near the eastern edge of the Order area. From Tailbridge Neck towards the summit a series of narrow bands of pavement marked by cairns roughly follow the crest of the hill. The limestone may also be seen outcropping as small scars on the steep western slope of the hill and as small scattered outcrops on the gentle eastern slope.

The open pavements support a rich variety of ground flora including several uncommon species, and relict woodland flora. Further information on the flora and geological interest of the site can be found in the notification, a copy of which is available on request. Some damage to the pavements has been noted, possibly from recreational use of the crest of the hill, while a track running through the lower area may have been formed by removal of some clints.

The pavement lies within Nateby Common (CL103) and there are grazing and stone taking rights exercisable in this area. A public bridleway runs through the south-eastern part of the notification area.
