Cumbria County Council (Grange-over-Sands, Woodland) Limestone Pavement Order 1994

Notice is hereby given that on 2nd September 1994 Cumbria County Council acting under section 34 of the Wildlife and Countryside Act 1981 made the Cumbria County Council (Grange-over-Sands, Woodland) Limestone Pavement Order 1994 designating the land described in the Schedule to the Order and prohibiting the removal or disturbance of limestone on or in it.

The Order (which is set out in the Schedule to this Notice) took effect when it was made and has been submitted to the Secretary of State for the Environment. The Order will cease to have effect nine months after it was made unless the Secretary of State previously gives notice that he has considered it and does not propose to amend or revoke it, or that he has amended or revoked it, or that the Authority has revoked it.

Representations about or objections to the Order may be made to the Secretary of State for the Environment, Room 908, Tollgate House, Houlton Street, Bristol BS2 9DJ before 21st October 1994.

Copies of the Order and the map referred to in it have been deposited at:

1. Offices of the County Solicitor, Cumbria County Council, The Courts, Carlisle, Cumbria CA3 8LZ.
2. Grange Post Office, Main Street, Grange-over-Sands, Cumbria LA11 6AA.

and may be inspected free of charge at all reasonable hours.

Cumbria County Council (Grange-over-Sands, Woodland) Limestone Pavement Order 1994

Whereas the land described in the Schedule to this Order comprises a limestone pavement which has been notified to Cumbria County Council under section 34(1) of the Wildlife and Countryside Act 1981.

And whereas it appears to the Cumbria County Council that the character or appearance of the said land will be likely to be adversely affected by the removal of the limestone or its disturbance in any way whatever, that the Council ought to order as follows:

Now therefore in exercise of the powers conferred by section 34(2) of the said Act of 1981, Cumbria County Council hereby designates and prohibits the removal or disturbance of limestone on or in the land described in the Schedule to this Order and delineated by a thick black line on the map prepared in duplicate, sealed with the Common Seal of the said Cumbria County Council and marked "Map referred to in the Cumbria County Council (Grange-over-Sands, Woodland) Limestone Pavement Order 1994. One duplicate copy of the map is deposited in the offices of the County Solicitor, Cumbria County Council, The Courts, Carlisle and the other is deposited in the offices of the Secretary of State for the Environment.

This Order may be cited as the Cumbria County Council (Grange-over-Sands, Woodland) Limestone Pavement Order 1994.

A. Fraser, County Solicitor

The Courts,
Carlisle CA3 8LZ.

SCHEDULE

The Grange-over-Sands, Woodlands lie to the west of the Kent Channel on the northern side of Morecambe Bay. The wooded pavements within the Order area lie to the north of the town and include the separate blocks of Eden Mount, Eggerslack Wood, Merlewood, Blawith Hill, Paradise Hill and Greasy Barrow Wood.

The area adjoins Hampsfield Fell and the Great Wood and Hampsfield Limestone Pavement Orders within the Lake District National Park. The site lies partially within the Grange-over-Sands Conservation Area and is within a designated County Landscape.

Within the woods, the attractive sloping pavements can be seen and enjoyed from the network of well used public rights of way which cross the area. Parts of Eggerslack Wood and Eden Mount are popular recreated areas. The pavements often form mossy, elongated ridges with well-developed solution features and, especially within Eggerslack Wood there are spectacular open and semi-open pavements.

The pavements are predominantly covered by mixed deciduous woodland the majority of which is listed in the Cumbria Inventory of Ancient Woodland. The canopy is dominated by ash, sessile oak with locally abundant sycamore and birch with common whitebeam

and wild cherry also occurring. Yew is widespread and locally dominant. There are well-developed shrub and ground flora layers in the woods. Ferns are widespread and especially abundant in the deeper or narrower grikes, while the majority of the grasses are of little conservation interest. The woodlands also have populations of badgers, deer and red Squirrels.

There has been some disturbance and removal of clints, partly for walling and partly for use as decorative stone in the larger houses and in the grounds as rockery stone. Although most of the damage is probably to be associated with the Victorian development of Grange, there has been some small scale damage occurring recently.

Full details of the landscape, flora, geology and physiography of the site can be found in the notification, a copy of which is available on request.
