It also extends the provisions relating to notifications of bovine spongiform encephalopathy (article 4(3)) and the condition restricting the use of milk from an affected or suspected animal imposed under Form A (article 4(8)). It implements Commission Decision 94/381/EC (OJ No. L172 7.7.94, p.23) by prohibiting the sale, supply and use of feedingstuffs incorporating mammalian protein for feeding to ruminant animals (article 4(4)) and implements article 3(1)(b) of Commission Decision 94/474/EC (OJ No. L194, 29.7.94 p.96) by prohibiting the export of specified bovine offal and protein derived from specified bovine offal except for research purposes under the authority of a licence (article 4(5)).

*Cumbria County Council (Hermitage Hill) Limestone Pavement Order 1994*

Whereas the land described in the Schedule to this Order comprises a limestone pavement which has been notified to Cumbria County Council under section 34(1) of the Wildlife and Countryside Act 1981.

And whereas it appears to the Cumbria County Council that the character or appearance of the said land will be likely to be adversely affected by the removal of the limestone or its disturbance in any way whatever, that the Council ought to order as follows:

Now therefore in exercise of the powers conferred by section 34(2) of the said Act of 1981, Cumbria County Council hereby designates and prohibits the removal or disturbance of limestone on or in the land described in the Schedule to this Order and delineated by a thick black line on the map prepared in duplicate, sealed with the Common Seal of the said Cumbria County Council and marked "Map referred to in the Cumbria County Council (Hermitage Hill) Limestone Pavement Order 1994". This Order may be cited as the Cumbria County Council (Hermitage Hill) Limestone Pavement Order 1994.

B. Walker, Head of Legal Services

The Courts, Carlisle CA3 8LZ.

#### SCHEDULE TO THE ORDER

The Order area lies to the east of the A5087 Ulverston-Barrow coast road approximately 1 kilometre south-east of Ulverston, just to the north of Conishead Priory. The site is within an area defined as a County Landscape.

Hermitage Hill is a significant landscape feature rising as a low hill above the coastal plain and intertidal areas of Morecambe Bay. A Limestone Pavement Order was made at nearby Bardsea Park in 1990.

Limestone outcrops on the western slope of the hill as small scars, visible from the road, but the pavements are entirely within an area of broadleaved woodland and outcrop as bands of moss covered and scattered clints on the north-eastern slope of the hill. The pavements are not visible from any public rights of way but parts may easily be seen from the private driveway leading to the Priory from the north.

The woodland around the pavements has a canopy of oak, sycamore, ash, beech, wych elm and some yew. A scattered understorey is composed of hazel, elder, hawthorn and (rarely) holly. Ground flora of the pavements is dominated by mosses, however, the grikes and surface solution features also contain many typical woodland species, including dogs mercury, bluebells, red campion, hedge woundwort etc. The remainder of the wood has blackberry, raspberry and an abundance of ramsoms (wild garlic) and nettles. Ferns are also present in the deeper grikes and at the base of small scars.

The pavement outcrops appear to be largely undisturbed although the scattered nature of the clints towards the top of the hill suggest that some pavement may have been removed in the past.

Full details of the landscape, flora, fauna, geology and physiography of the site can be found in the notification, a copy of which is available on request.
