#### WATER INDUSTRY ACT 1991: SECTION 19(1)(b)

The purpose of this notice is to inform consumers in parts of Eastnor (near Ledbury) who might be affected by improvement work being carried out by Dŵr Cymru Cyfyngedig. The Company has found through its water quality monitoring programme that water supplied to the Hollybush Bulk Water Supply Zone has on occasion not met the standard, as required by the Water Supply (Water Quality) Regulations 1989, for nitrate, although the water has at all times been, and remains, safe to drink. Consequently the Secretary of State for Wales has notified the Company that he will carry out his duty under section 19 of the Water Industry Act 1991 and if necessary, order the Company to take appropriate steps to ensure that the water supplied will in future meet the standards required for nitrate.

The Company has given a legally binding agreement (called an undertaking) to carry out appropriate remedial work to be completed by 30th June 1995. The Secretary of State is satisfied that the Company is complying with this agreement and has informed the Company that he is satisfied by serving on them the notice printed below.
