

WATER INDUSTRY ACT 1991: SECTION 19(1)(b)

The purpose of this notice is to inform consumers in parts of Blaenau Ffestiniog and Trawsfynydd who might be affected by improvement work being carried out by Dŵr Cymru Cyfyngedig at its Garreglwyd Water Treatment Works. The Company has found through its water quality monitoring programme that water supplied from this works has on occasion not met the standard, as required by the Water Supply (Water Quality) Regulations 1989, for trihalomethanes, although the water has at all times been, and remains safe to drink. Consequently the Secretary of State for Wales has notified the Company that he will carry out his duty under section 19 of the Water Industry Act 1991 and if necessary, order the Company to take appropriate steps to ensure that the water supplied will in future meet the required standard for trihalomethanes.

The Company has given a legally binding agreement (called an undertaking) to carry out appropriate remedial work at Garreglwyd Water Treatment Works to be completed by 31st December 1995. The Secretary of State is satisfied that the Company is complying with this agreement and has informed the Company that he is satisfied by serving on them the notice printed below.

WATER INDUSTRY ACT 1991: SECTION 19(1)(b)

The Secretary of State for Wales

1. is satisfied that Dŵr Cymru Cyfyngedig "the Company" when supplying water from its Blaenau Ffestiniog Water Supply Zone has contravened and is likely to do so again its duty to supply wholesome water under section 68(1)(a) of the Water Industry Act 1991, and the requirement of Regulation 3(3)(e) of the Water Supply (Water Quality) Regulations 1989, that samples taken from water supplied to the water supply zone in question have established that the average concentrations over the three preceding months of trihalomethanes (being the aggregate of the concentrations of trichloromethane, dichlorobromomethane, dibromochloromethane and tribromomethane) did not exceed 100mg/l, or where (by virtue of regulation 13(3)) less than four samples are taken in any year, no sample contained a concentration of trihalomethanes in excess of 100mg/l.
2. has notified Dŵr Cymru Cyfyngedig on 13th October 1993, that he is considering making in relation to the Company an enforcement order under section 18 of the Water Industry Act 1991.
3. notes that Dŵr Cymru Cyfyngedig has on 8th February 1994, given an undertaking under section 19(1)(b) of the Water Industry Act 1991, to take the following steps by the dates shown:
 - (a) Complete installation of clarification stage at Garreglwyd Water Treatment Works, to remove organic material from the water supply and hence the potential for trihalomethane formation at the works and in the distribution system. To be completed by 31st December 1995.
4. is satisfied that Dŵr Cymru Cyfyngedig has given and is complying with an undertaking to take all such steps as appear to the Secretary of State for the time being to be appropriate to secure or facilitate compliance with the requirement of Regulation 3(3)(e) of the Water Supply (Water Quality) Regulations 1989.

Details of the work being carried out are on the Company's public record which you may inspect at any of its offices open to the public during normal working hours.

You can find out about the work and whether your water supply is affected by telephoning the Water Company on 0874 623181, or writing to them at Plas-y-Ffynnon, Cambrian Way, Brecon, Powys LD3 7HP, and quoting DoE reference number DC 006.

A copy of the undertaking can also be seen at the offices of the Director General of Water Services, City Centre Tower, 7 Hill Street, Birmingham B5 4UA. (Ref. No. LG8/01/DWI).

M. Rouse, Chief Inspector, Authorised by the Secretary of State to sign in that behalf.

October 1994.

WATER INDUSTRY ACT 1991: SECTION 19(1)(b)

The purpose of this notice is to inform consumers in parts of Harlech and Talsarnau who might be affected by improvement work being carried out by Dŵr Cymru Cyfyngedig at its Rhiw Goch Water Treatment Works. The Company has found through its water quality monitoring programme that water supplied from this works has on occasion not met the standard, as required by the Water Supply (Water Quality) Regulations 1989, for trihalomethanes,

although the water has at all times been, and remains safe to drink. Consequently the Secretary of State for Wales has notified the Company that he will carry out his duty under section 19 of the Water Industry Act 1991 and if necessary, order the Company to take appropriate steps to ensure that the water supplied will in future meet the required standard for trihalomethanes.

The Company has given a legally binding agreement (called an undertaking) to carry out appropriate remedial work at Rhiw Goch Water Treatment Works to be completed by 31st December 1995. The Secretary of State is satisfied that the Company is complying with this agreement and has informed the Company that he is satisfied by serving on them the notice printed below.

WATER INDUSTRY ACT 1991: SECTION 19(1)(b)

The Secretary of State for Wales

1. is satisfied that Dŵr Cymru Cyfyngedig "the Company" when supplying water from its Rhiw Goch Water Treatment Works has contravened and is likely to do so again its duty to supply wholesome water under section 68(1)(a) of the Water Industry Act 1991, and the requirement of Regulation 3(3)(e) of the Water Supply (Water Quality) Regulations 1989, that samples taken from water supplied to the water supply zone in question have established that the average concentrations over the three preceding months of trihalomethanes (being the aggregate of the concentrations of trichloromethane, dichlorobromomethane, dibromochloromethane and tribromomethane) did not exceed 100mg/l, or where (by virtue of regulation 13(3)) less than four samples are taken in any year, no sample contained a concentration of trihalomethanes in excess of 100mg/l.
2. has notified Dŵr Cymru Cyfyngedig on 19th August 1993, that he is considering making in relation to the Company an enforcement Order under section 18 of the Water Industry Act 1991.
3. notes that Dŵr Cymru Cyfyngedig has on 8th February 1994, given an undertaking under section 19(1)(b) of the Water Industry Act 1991, to take the following steps by the dates shown:
 - (a) Optimise overall chlorination process to minimise trihalomethane formation while ensuring disinfection and facilitating as far as possible the removal of manganese. To be completed by 31st December 1995.
 - (b) Install permanganate dosing equipment and automate filter operation. Relocate chlorination dosing point to post filtration. To be completed by 31st December 1995.
 - (c) Cessation of prechlorination. To be completed by 31st December 1995.
4. is satisfied that Dŵr Cymru Cyfyngedig has given and is complying with an undertaking to take all such steps as appear to the Secretary of State for the time being to be appropriate to secure or facilitate compliance with the requirement of Regulation 3(3)(e) of the Water Supply (Water Quality) Regulations 1989.

Details of the work being carried out are on the Company's public record which you may inspect at any of its offices open to the public during normal working hours.
