ELECTRICITY NOTICES

ELECTRICITY ACT 1989

Notice under section 11(2) of the Electricity Act 1989

The Director General of Electricity Supply (hereafter referred to as "the Director") pursuant to section 11(2) of the Electricity Act 1989 (c. 29) (hereafter referred to as "the Act") hereby gives notice as follows:

(i) In relation to each of the licences which have been granted under section 6(1)(c) of the Act in respect of an authorised area in England and Wales (hereafter a "PES licence"), he proposes (subject in each case to the agreement of the Licensee) to make modifications to:

Conditions 3, 3A, 3E and 3G, and Schedule 3 (being part of the charge restriction conditions as defined in a PES licence). Condition 28 (provision of information to the Director). Conditions 8 and 8B (basis of charges for top-up and standby supplies or sales of electricity, use of system and connection to the system: requirements for transparency and requirements to offer terms).

(ii) The reasons why he proposes to make the modifications and their effect were published by the Director in a statement on 11th August 1994.

(iii) In summary the effect of the modifications will be to amend the relevant Conditions in relation to the year commencing 1st April 1995 and subsequent years by providing for each PES licence:

(i) that the Retail Price Index element of the price control formula should be calculated on a previous year basis (rather than an estimate of the current year) and averaged over six months.

(ii) that "Xd" means 2.

(iii) that the incentive on the Licensee to reduce distribution losses shall be increased by the introduction of a "PL" term.

(iv) that the date on which the Licensee can next require a review of the distribution price control provisions should be 31st March 2000.

(v) that no charge will normally be made for reinforcement of the existing distribution system if the new or increased load requirement does not exceed 25 per cent of the existing effective capacity on the system, and that the calculation of connection charges shall not generally take into account system reinforcement carried out at more than one voltage level above the voltage of connection.

(vi) that the requirements on the Licensee to publish charges for pooling and settlement special metering be removed.

(vii) that the conditions relating to the provision of information to the Director be revised.

and setting predetermined values for certain of the components of Pdt (which are different in respect of each PES licence). These values are based on fixed "PU" and "PM" terms, the estimated number of distribution customers and the number of units distributed. The change in base values in relation to the year commencing 1st April 1995 will have effect as if for Eastern Group plc, East Midlands Electricity plc, and Southern Electricity plc that "Xd" were 11; for London Electricity plc, Midlands Electricity plc, NORWEB Plc, SEEBOARD Plc, South Western Plc and Yorkshire Electricity Group plc that "Xd" were 14; and for Manweb plc, Northern Electric plc and South Wales Electricity plc that "Xd" were 17. For subsequent years the effect for all licensees will be as if "Xd" were 2.

A copy of the statement of 11th August 1994 and of the current draft of the modifications can be obtained (free of charge) from the Office of Electricity Regulation.

Any representations or objections to the proposed modifications may be made on or before 11th March 1995 to the Director at the Office of Electricity Regulation, Hagley House, 83-85 Hagley Road, Edgbaston, Birmingham B16 8QG.

G. R. Horton, authorised on behalf of the Director General of Electricity Supply.
