SOUTH STAFFORDSHIRE WATER PLC

The purpose of this notice is to inform consumers in parts of Rugeley, Cannock and the surroundings areas who might be affected by improvement work being carried out by South Staffordshire Water PLC at its Moors Gorse and Slitting Mill groundwater sources. The Company has found through its water quality monitoring programme that water supplied from these sources has on occasion not met the standard, as required by the Water Supply (Water Quality) Regulations 1989, for the individual pesticide atrazine, although the water has at all times been, and remains, safe to drink. Consequently the Secretary of State for the Environment has notified the Company that he will carry out his duty under section 19 of the Water Industry Act 1991 and, if necessary, order the Company to take appropriate steps to ensure that the water supplied will in future meet the required standard for individual pesticides.

The Company has given a legally binding agreement (called an undertaking) to carry out appropriate remedial work at Moore Gorse and Slitting Mill groundwater sources to be completed by 31st March 1998. The Secretary of State is satisfied that the Company is complying with this agreement and has informed the Company that he is satisfied by serving on them the notice printed below.

2. has notified the Company on 1st May 1995 that he is considering making in relation to the Company an enforcement Order under section 18 of the Water Industry Act 1991.

This information to include details of location and timing of sample, the pesticides investigated and, where appropriate the date of abstraction. To be provided quarterly within 28 days of the end of the quarter, or in the case of a marked increase in the concentration or the identification of a pesticide not previously present, so far as is reasonably practical, within 28 days of the sample being taken.

(b) Preliminary investigations:
