Frozen bovine embryos from Austria, Australia, Canada, Czech and Slovak Republics, Finland, Hungary, Israel, New Zealand, Norway, Poland, Romania, Slovenia, Sweden, Switzerland, USA, at an approved border inspection post in England until further notice or unless varied or revoked by the Minister.

This licence comes into force on 17th January 1994.

England General Import Licences Nos. USA/EOS/93/1 and CAN/EOS/93/1 dated 24th August 1993 are hereby revoked.

K. J. Cross, Officer of the Minister of Agriculture, Fisheries and Food.

Conditions for the importation under general licence of bovine embryos from specified third countries collected and processed on or after 2nd September 1992.

1. All landings of embryos must be in accordance with the Importation of Embryos, Ova and Semen Order 1980 (as amended), The Products of Animal Origin (Import and Export) Regulations 1992 and with the following provisions of this licence.
2. Each consignment of embryos must be accompanied at all times by an animal health certificate in accordance with Commission Decision 92/471/EEC, Annex A, Part 1, or in the case of Australia, Annex B, Part 1 (published in Official Journal No. L270/27 of 15th September 1992), which must be signed by an official veterinarian of the veterinary authority in the country of origin, consist of a single form and be made out to a single consignee.
3. All certification must state that the country of origin "has been free from foot and mouth disease during the 12 months immediately prior to the collection of the embryos to be exported and does not practice vaccination against it".
4. Embryos for trade must be transported in satisfactory hygienic conditions in containers sealed in the presence of the certifying officer from the approved storage premises until their arrival at their destination. The containers must be marked in such a way that the number coincides with the number on the animal health certificate.
5. The flask shall be clearly marked with the name and address of the dispatching collection centre and the number(s) of the animal health certificate(s) referred to at para. 2 above.

NOTES

(i) Council Directive 90/675 EEC (as amended) requires that animal products or products of animal origin may be imported into the European Community from a non-EC country *only* through an approved border inspection post and undergo veterinary checks before being permitted entry to the Community. Importers must give at least one working day's advance notice, in writing, of the anticipated date of arrival of the consignment to the official veterinarian of the border inspection post through which the consignment is to be imported. This Directive has been implemented in Great Britain by the Products of Animal Origin (Import and Export) Regulations 1992. Importers are advised to familiarise themselves with the obligations the Regulations place on them. Information Note No. 1 (TIS/1) issued by the Ministry summarises the rules. Copies of TIS/1 may be obtained on request, from the address below.

Ministry of Agriculture, Fisheries and Food, Animal Health (International Trade) Division, Room 26, Block C, Hook Rise South, Tolworth, Surbiton, Surrey KT6 7NF.

(ii) On arrival at the border inspection post the health certificate must be presented to the veterinary inspection staff. The health certificate will be retained at the border inspection post and the veterinary inspection staff will provide a border crossing certificate confirming that the veterinary checks have been carried out and an authenticated copy of the original health certificate. Both documents must accompany the embryos to their place of destination and should be retained for a minimum period of 12 months for presentation to the Ministry on request.

(iii) Any expressions used in this licence have the same meaning which they bear in the Animal Health Act 1981.

(iv) This licence applies only to consignments of bovine embryos collected and processed in accordance with the relevant Commission Decision on or after the date laid down therein. Embryos covered by this licence must *not* be consigned in the same flask or container as embryos which were not collected and processed in conformity with the appropriate Commission Decision since this will invalidate the health status of embryos collected to EC standards and render them ineligible for intra-Community trade subsequent to their importation into Great Britain.

(v) Mixed consignments containing embryos of differing animal health status are not permitted to be imported under this licence. Importers are advised to apply to the Ministry at the above address for an individual licence covering the import of such mixed consignments or of consignments consisting solely of embryos collected and processed before the appropriate date laid down in the relevant Commission Decision.

SCARBOROUGH BOROUGH COUNCIL

(As Agent of the North Yorkshire County Council)

Planning (Listed Buildings and Conservation Areas) Act 1990

Notice is hereby given that the Scarborough Borough Council, in pursuance of its powers under the above Act, has designated the under-mentioned areas of the Borough as Conservation Areas:

1. Sawdon Conservation Area

The boundary of the Conservation Area embraces the built-up area of the village as it existed in 1850, together with a number of small cottages constructed at the turn of the century. It extends from a point to the north-east of Manor Cottage to a point south-east of Braeside, then takes a south-westerly direction, embracing part of the grounds of Kirkgate Lodge and the wide grassy verge on the north-west side of the road into the village. The boundary follows the plots to the rear of buildings on the south-west side of Main Street and encompasses farmsteads, cottages and outbuildings from Manor Cottage at the northern end of Sawdon to Glebe Farm at the southern end.

2. East and West Ayton Conservation Area

The boundary of the Conservation Area for East and West Ayton embraces most parts of the village outside the North York Moors National Park built prior to 1900. It includes listed buildings, buildings of architectural, historic or group interest, visually important trees, tree groups and open areas and attractive views into and out of the historic area.

The northern boundary of the Conservation Area extends along the North York Moors National Park boundary from the western edge of Hall Garth Lane to a point to the east of the River Derwent. The western boundary of the Conservation Area follows the route of Hall Garth Lane and Garth End Road and embraces properties on Hall Garth Lane and Nos. 21-31 (odd) Garth End Road. At the junction of Garth End Road and Hall Garth Lane, it embraces Low Hall, Candler House and the paddock to their east. The southern boundary extends to meet the southern banks of the River, taking in extensive plots to the rear of Hall Garth Cottages. The eastern boundary follows the southern edge of the River, then taking a northerly direction, crosses the River and embraces Low Mill and its

land to the west and Derwent House and grounds, further extending to the north to re-join the North York Moors National Park boundary.

The effect of designation is that special attention will be paid to the desirability of preserving or enhancing the character of the areas. In particular, controls will now apply regarding the demolition of buildings, the display of advertisements and the felling or lopping of trees within the areas. Owners or occupiers wishing to carry out works to buildings or trees within the areas, should seek advice from the Council's Director of Technical Services before starting work.
