HIGHWAYS ACT 1980

*The A650 Trunk Road (Hard Ings Road Improvement Side Roads) Order 199**and Environmental Statement*

Notice is hereby given that the above-named Order published in draft on 6th October 1994 in connection with the improvement of Hard Ings Road to dual carriageway standard between the existing Hard Ings and Victoria Park roundabouts is hereby withdrawn.

The Environmental Statement published in connection with the scheme in accordance with EC Directive 85/337 is also hereby withdrawn.

Objections and representations made in response to the publication of the above-named draft Order and Environmental Statement will now not be subject to a public inquiry.

This decision has been taken in the light of representations made by the public and local businesses, which call into question the future efficiency of the Hard Ings and Victoria Park roundabouts given the predicted traffic flow on Hard Ings Road.

The Highways Agency, an executive arm of the Department of Transport, is further investigating ways of improving the operation of the roundabouts. It is likely that a new draft Side Roads Order and Environmental Statement for the improvement which would include modifications to the roundabouts, will be published at a later date. At the same time the Agency plans to publish a draft Compulsory Purchase Order to enable the Department to acquire the land and rights required to construct the scheme.

Objectors are advised that grounds of objection stated against the above-named draft Order will not automatically stand against any subsequent new Order or proposals. The new Orders and Statement will be subject to public comment. Depending upon the nature and weight of objections received to the new proposals, a public inquiry may be held.

Further information about this announcement may be obtained from The Highways Agency, Northern Operations Division, Room 807, Sunley Tower, Piccadilly Plaza, Manchester M1 4BE, and by telephoning 0161 930 5644/5636.

NORTH WEST WATER LIMITED

Abstraction of Water from Ullswater

Notice is hereby given that North West Water Limited ("the Company") is applying to the Secretary of State for the Environment for an Order under sections 73 and 74 of the above Act to modify temporarily (i.e. until 29th August 1996) the restrictions to which its abstraction of water from Ullswater is subject, as follows:

The Company may normally abstract water from Ullswater at their intake near Gale Bay, provided that no water is taken unless flows in the River Eamont immediately below Pooley Bridge exceed the following figures for each month:

Month	Flow (million gallons per day)
January	85
February	85
March	77
April	60
May	60
June	43
July	43
August	43
September	43
October	43
November	51
December	51

provided that the level of Ullswater is at least 475.6 feet above ordnance datum (Liverpool). The Company may not abstract more than 80 million gallons per day, nor more than 10,038 million gallons in any period of 12 months.

These conditions have since 3rd October 1995 been modified by the North West Water Limited (Ullswater) (Drought) Order 1995, so as to allow the Company to construct and maintain a temporary weir or weirs across the River Eamont near Pooley Bridge at a mean height of not more than 476.1 feet above ordnance datum (Liverpool), to remove temporarily so much of the weir at their intake at Gale Bay as will enable abstraction to take place down to a level of 472.6 feet above ordnance datum (Liverpool), to abstract up to 80 million gallons per day from Ullswater at the intake near Gale Bay, provided the flow in the River Eamont at Pooley Bridge is not less than 10 million gallons per day, and to disregard the overall limitation of 10,038 million gallons in any period of 12 months in respect of all water abstracted during the period of operation of the Order. Abstraction of water is not however allowed below the normal lake level of 475.6 feet above ordnance datum (Liverpool) unless the water in store at Thirlmere, Haweswater and Wet Sleddale were less than 8,000 million gallons.

This application, which is less extensive in scope than the existing drought Order, is to modify temporarily the normal restrictions and to allow the Company:

- to construct and maintain a temporary weir or weirs across the River Eamont near Pooley Bridge at a mean height of not more than 476.1 feet above ordnance datum (Liverpool);
- to abstract up to 80 million gallons per day from Ullswater at the intake near Gale Bay, provided the flow in the River Eamont at Pooley Bridge is not less than 20 million gallons (91 megalitres) per day in the months of February, March and April, and is at other times not less than 15 million gallons (68.25 megalitres) per day or such lesser amount as is agreed with the National Rivers Authority provided that such amount shall not be less than 10 million gallons (45.5 megalitres) per day. The flows to the river will be managed in accordance with an agreement with the National Rivers Authority, having regard to the needs of the fishery and other river interests and taking account of the water supply and reservoir storage situation;
- to disregard the overall limitations of 10,038 million gallons in any period of 12 months in respect of all water abstracted during the period of operation of the Order.

Authority to remove part of the Gale Bay intake protective weir is not being sought. That power (conferred by the existing drought Order) has not been exercised and will lapse on 29th February 1996.

A map showing the location of Ullswater and the River Eamont, together with a deposited plan showing the location of the authorised works, may be inspected, free of charge, at the Company's Penrith Depot, Ullswater Road, Penrith, Cumbria CA10 7EH, for a period of 7 days from the publication of this notice.

Any objections to the proposed Order must be made in writing to the Secretary of State for the Environment, (c/o J. A. S. Wheeler) Room B463, Romney House, 43 Marsham Street, London SW1P 3EB, within 7 days of publication of this notice. It is requested that a copy of any such objections be sent at the same time to the undersigned.

Should it appear to the Secretary of State that the Order is required to be made urgently if it is to enable the Company effectively to meet the deficiency of supplies of water in their area, he may direct that the holding of a public local inquiry or a hearing by a person appointed by him should be dispensed with.

NORTH WEST WATER LIMITED

Abstraction of Water from Windermere

Notice is hereby given that North West Water Limited ("the Company") is applying to the Secretary of State for the Environment for an Order under sections 73 and 74 of the above Act to modify temporarily (i.e. from 29th February 1996 until 29th August 1996) the restrictions to which its abstraction of water from Windermere is subject, as follows:

The Company may normally abstract water from Windermere at Calgarth Pumping Station, provided that no water is taken in any day in the months of May to September inclusive if the flow in the River Levern at Newby Bridge on the preceding day was less than 60 million gallons, and provided that no water is taken in any day in the months of October to April inclusive if that flow on the preceding day was less than 30 million gallons. The Company may not abstract more than 45 million gallons per day nor more than 8,030,000,000 gallons in any period of 12 months.

These conditions have since 3rd October 1995 been modified by the North West Water Limited (Windermere) (Drought) Order 1995, so as to allow the Company to abstract 45 million gallons per day provided the above-mentioned flow is not less than 10 million gallons per day, to release from Windermere sufficient water to maintain such flow provided that the level of water immediately upstream of Newby Bridge Weir (the lowest part of the masonry crest of which is 128.55 feet above ordnance datum (Liverpool)) is not lowered by such releases to less than 126 feet above ordnance datum (Liverpool), and to disregard the overall limitation of 8,030 million gallons in any period of 12 months in respect of water abstracted during the period of the drought Order.

This application, which is less extensive in scope than the above existing drought Order, is to modify temporarily the normal restrictions and to allow the Company:

- (a) to abstract up to 45 million gallons per day provided the above-mentioned flow in the River Levern is not less than 20 million gallons (91 megalitres) per day in the months of February, March and April, and is at other times not less than 15 million gallons (68.25 megalitres) per day or such lesser amount as is agreed with the National Rivers Authority provided that such amount shall not be less than 10 million gallons (45.5 megalitres) per day, provided further that all times the lake level upstream of Newby Bridge Weir is not less than 127.55 feet above ordnance datum (Liverpool). The flows to the river will be managed in accordance with an agreement with the National Rivers Authority, having regard to the needs of the fishery and other river interests and taking account of the water supply and reservoir storage situation;
- (b) to disregard the overall limitations of 8,030 million gallons in any period of 12 months in respect of all water abstracted during the period of operation of the Order.

A map showing the location of Windermere and the River Levern may be inspected, free of charge, at Windermere Public Library, Ellerthwaite, Windermere LA23 2AJ, for a period of 7 days from the publication of this notice.

Any objections to the proposed Order must be made in writing to the Secretary of State for the Environment, (c/o J. A. S. Wheeler) Room B463, Romney House, 43 Marsham Street, London SW1P 3EB, within 7 days of publication of this notice. It is requested that a copy of any such objections be sent at the same time to the undersigned.

Should it appear to the Secretary of State that the Order is required to be made urgently if it is to enable the Company effectively to meet the deficiency of supplies of water in their area, he may direct that the holding of a public local inquiry or a hearing by a person appointed by him should be dispensed with.

Application for a Drought Order

Notice of application for an Order to abstract water from the River Haddeo at a point to be determined by South West Water between National Grid Reference SS95032929 and SS95572932.

An exceptional shortage of rain means that a serious deficiency of supplies of water is threatened in the area of South West Water Services Limited which is served from Wimbleball Reservoir.

Therefore, notice is given that in order to maintain an adequate supply of water the Company is applying to the Secretary of State for the Environment for an Order pursuant to section 73 of the Water Resources Act 1991 to:

1. Abstract a quantity of water not exceeding 14,000 cubic metres per day (3.08 million gallons per day) at an instantaneous rate not exceeding 0.162 cubic metres per second from the River Haddeo at a point to be determined by the Company between National Grid Reference SS95032929 and SS95572932. No water shall be abstracted under this part of the Drought Order if the natural river flow downstream of the abstraction point reduces to 0.163 cubic metres per second (the prescribed flow condition).

2. Provide a temporary intake and pumping installation to enable the abstraction into 1 above and 5 below to take place.

3. Lay a pipe and convey the water abstracted from the abstraction point on the River Haddeo in 1 above and 5 below by pipeline and discharge it into Wimbleball Reservoir.

4. Reduce the statutory compensation release from Wimbleball Reservoir (located at National Grid Reference SS965293) as specified in Licence to Construct Impounding Works number 14/45/02/2071/10/86 from 0.105 cubic metres per second (2,000,000 gallons per day) to 0.053 cubic metres per second (1,000,000 gallons per day). At a later date a quantity of water equivalent to that saved by this Drought Order shall be made available for environmental purposes as determined by the National Rivers Authority.

5. Under the Order as sought the Company may release up to the original statutory compensation release from Wimbleball of 0.105 cubic metres per second (2,000,000 gallons per day) and in that case have permission to abstract up to 0.053 cubic metres per second from the River Haddeo in addition to the maximum abstraction specified

in 1 above at the point to be determined by the Company between NGR SS95032929 and NGR SS95572932. This abstraction will not be subject to the prescribed flow condition specified in 1 above.

6. Grant any such land drainage, discharge or impounding consents or other licences or Orders as may be necessary for the above measures.

A copy of the statement and the plan illustrating the Company's proposals may be inspected by any person, free of charge, during all reasonable office hours at the Company's Head Office, Peninsula House, Rydon Lane, Exeter and at Exmoor National Park Authority Headquarters, Exmoor House, Dulverton, Somerset, for a period of 7 days from the date of publication of this notice.

Objections to the application may be made to the Secretary of State for the Environment, Room 463, Romney House, 43 Marsham Street, London SW1P 3PY (c/o J. A. S. Wheeler) within 7 days of the publication.

Notice under section 11(2) of the Electricity Act 1989

The Director General of Electricity Supply (hereinafter referred to as "the Director") pursuant to section 11(2) of the Electricity Act 1989 (hereinafter referred to as "the Act") hereby gives notice as follows:

(a) He proposes to modify the conditions of the licence granted to Manweb plc under section 6(1)(c) of the Act by inserting new Conditions 2A (restriction on activity and financial ring fencing) and 2B (availability of resources) and by amending Conditions 1 (definitions), 4 (prohibition of cross-subsidies), 5 (obligation on economic purchasing), 27 (disposal of assets) and 28 (provision of information to the Director);

(iii) to require the licence holder to act in a manner calculated to secure that it has sufficient management and financial resources;

(iv) to require the licence holder to give an annual certificate as to the adequacy of its financial resources;

(v) to prevent the acquisition of its shares by ScottishPower plc from affecting the current arrangement for the preparation of regulatory accounts and avoiding cross-subsidies;

(vi) to forbid mortgaging assets or borrowing save for limited purposes;

(vii) to restrict transactions with other members of its group of companies except on normal commercial terms;

(viii) to require undertakings from its holding company that other companies within the group will refrain from actions likely to cause the licence holder to breach its obligations under the Act or the licence, and that other companies in the group will give the licence holder all information necessary to enable the licence holder to comply with its obligation to give information to the Director.

A copy of the proposed modifications can be obtained (free of charge) from the Office of Electricity Regulation. Any representations or objections to the proposed modification may be made on or before 19th February 1996, to the Director at the Office of Electricity Regulation, Hagley House, 83-85 Hagley Road, Edgbaston, Birmingham B16 8QG.

Notice is hereby given that Walsall Metropolitan Borough Council in exercise of its powers under sections 32, 33 and 35 of the Road Traffic Regulation Act, 1984, proposes to alter the Parking Places Order which controls the Pay and Display Car and Lorry Parks in the Borough.

With effect from 1st April 1996, a new Parking Places Order (the 1996 Order) will be introduced which will replace the 1994 Off-Street Parking Places Order.

The Lorry Parks at Wakes Ground, Willenhall, and Beechtree Road, Walsall Wood, will be free of charge to users with effect from 1st April 1996, in recognition of the lack of facilities. Regulations concerning the conduct of users will continue to be enforced in these Lorry Parks.

The proposed scale of charges for this Lorry Park are set out below:

<i>Length of Stay</i>	<i>Current Charges</i>	<i>Proposed Charges</i>
Up to 1 hour	35p	No Charge
Up to 2 hours	70p	No Charge
